Re: Comments on Notice of Proposed Rulemaking released 5/6/2016 regarding robocalls made to collect debts owed to or guaranteed by the United States. CG Docket No. 02-278

Dear Ms. Dortch:

These below comments are submitted by Americans for Financial Reform on behalf of our members regarding the Commission's proposed rules allowing robocalls to be made to cell phones without consent.

We are submitting 5,346 comments from individuals around the country in support of the FCC's Notice of Proposed Rulemaking (CG Docket No. 02-278). These comments also call on the Commission to modify the proposed limit of three calls per month per loan to instead be 3 calls per servicer or collector.

If you require any additional information, please let us know.

Sincerely,

Alexis Goldstein
Americans for Financial Reform

First name	Last name	Address	City	State	Zip code	Comment to the FCC
Rick	Simkin	4517 N. Mozart St.	CHICAGO	IL	60625	I am very supportive of the consumer protections proposed by the FCC regarding robocalls from debt collectors. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. Despite my record of prompt payments, I receive robocalls from debt collectors due to name confusion or other people's incorrect information. Regardless of when the calls arrive - during the work day or in the evenings and weekends when I'm home - the robocalls demand that I call them during my work hours. My work environment is not conducive to making personal calls.
Susan	Smith	39769 Howard Rd	Marcola	OR	97454	Robo calls come from many sources. There are the fraudulent "consumer credit agencies", with other similar names, the you owe the IRS and pay now or go to jail, there are the internet companies, and the become a millionaire scams, and the collection agencies calling cell phones and home phones, even the wrong numbers, over and over again. How is it they have more rights than I do, when I pay for my phone and they are the intruders? I have a young adult son with special needs and I do not have a choice not to run to the phone when it rings. I get at least two calls a day from ??? as I will not answer anymore if I don't know who it is... it's gotten that bad. At LEAST 2 calls every day. Sometimes the same number calls 2-3 times a day. How can that be okay? I don't get calls about debt, but ROBO calls are not cool, and I can't answer and push "2" to be removed from their list, because that makes the calls more frequent. Many of these calls are fraudulent. They need to stop.

Gary	Sjogren	148/20 Tacuba DR	La Mirada	CA	90638	Sincesignificant harm may be caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. I am personally bothered by calls almost every day, but not from debt collectors. They try to sell me something even when I am registered on the FEDERAL DO NOT CALL LIST. Why has this list become ineffective lately? In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone.
Margie	Hamm	5801 N. Olney #6	Indianapolis	IN	46220	My husband and I are on the no-call list, however, we receive an average of 20 calls per day which we now no longer answer. We are not in poor financial shape so these calls are not from debt collectors, but believe me when I say that anyone who has a financial problem will be hounded to death by robocalls. Please limit the rules available and make robocalls illegal. There is no need for such intense and pervasive calling in any situation - and I would say that an actual human placing the phone call might be received with more dignity and respect. I am sick and tired of my phone ringing off the hook. Please make robocalls illegal.

Andrea	Cameron	4175 Jasmine Ave	CULVER CITY	CA	90034	I strongly support the consumer protections proposed by the FCC to protect us from robocalls by debt collectors. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. The FCC should limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone.
David	Roy	107 SW 3rd St.	MARYVILLE	IL	62062	There was one time when I was harassed by debt collector robo calls to my cell phone. It was an automated message for a Sheila Boigner or some such person and said to hang up if I was not this person for privacy reasons. Obviously, I am not Sheila Boigner, but they kept calling. I had to spring for certified mail with signature confirmation in order to send them a Cease and Desist letter, an unnecessary expense. In addition to limiting robo calls from collectors, they should also be expected to do their due diligence and ensure that they're calling the right person. I am not responsible for debts I do not owe.
michael	leonard	PO Box 654	La Jolla	CA	92038	I support the requirements that calls to mobile phones will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone.

Dr.	K. Stahl	2200 S OCEAN LN	FORT LAUDERDALE	FL	33304	Because of the significant harm caused by robocalls, I support the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In fact it is urgent that the FCC put the most stringent rules in place protecting consumers from robocalls, which are becoming more out of hand every day.
Don	Cornell	1746 Emerson st	denver	CO	80218	Robocalls are a nuisance and it's bad enough that they are a problem on land-lines. Making it legal for them to invade cell-phones would not only be more of a nuisance but a costly one being that some cellphone users still pay for incoming calls in the form of fees and/or minutes used up. I have a phone from Assurance and I am allotted a limited number of minutes per month and they should not be wasted on telemarketers or other callers who could use email or postal mail. Please don't make cellphone users have to pay for robocalls. Thank You Don Cornell Denver, CO.
Schurkey	S	1506 S. 15th St.	GRAND FORKS	ND	58201	I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector.

Glen	Anderson	5015 15th Ave SE	Lacey	WA	98503	I have been on the federal "DO NOT CALL" list for many years, but I still receive many robocalls every week. I have clicked the phone key for discontinuing them, but they continue. I have talked to live persons and asked them to stop, but they continue. THESE COMPANIES ARE BREAKING FEDERAL LAW, BUT THE GOVERNMENT LETS THEM DO IT. YOU MUST STOP THIS ABUSE NOW!!! I work hard during the day, and sometimes I have to take naps during the day. Robocalls interrupt my work and wake me up from necessary naps. YOU MUST STOP ROBOCALLS!!!
Dan	Lewis	13612 Sableglen St.	Houston	TX	77014	Life's tough enough without the disturbance of unsolicited telephone ads! Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rule making. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed.

Jerry	Bates	9 Hendrix Rd	Schuyler Falls Town of	NY	12962	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; and that callers will be required to honor a request for the calls to stop. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts per servicer or collector.
Ricardo	Mendez	411 N Fuller Ave	Los Angeles	CA	90036	I support the FCC proposed requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. It's time to step up and do the right thing!
Jane	Beattie	PO Box 5591	Ketchum	ID	83340	Robocalls from debt collectors cause significant damage. Please support requiring permits soon by the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop. Only one wrong number call, such as to a reassigned numbers, will be allowed. Please limit the number of robocalls or texts to 3 calls per servicer or collector.to prevent consumers receiving between 30 to 45 robocalls a month to their cell phone.

David	Felzke	751 Valley View Dr. #205	IONIA	MI	48846	I am going to state my opinion which includes my rights NOT to receive any type of Robo Call for any reason. I pay for my phone and do NOT want to pay for nonsense from computers or robo calls. I want both stopped and I want FINES to be imposed on ANY computer calling or Robo calling payable to me and or any other victim of this. Like you, I am a Human being, and deal with humans not computers or Robo type bull shit. Am also an extra class Ham radio operator so know YOU have the POWER to stop this which would be a great service to ALL Americans. Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone.

Chetan	Kinsey	30 Arden Circle	RENO	NV	89503-2711	I get at least 5 robo calls a week. I am so so so very tired of hearing from my "local google plus listing specialist". Errrg. This adds up to serious expenses when you consider that to answer the call and then get back to what I was doing is about 2 minutes. Times 5 days a week = 10 minutes/week times 52 equals 520 minutes/year IE: it costs me hundreds of dollars every year. Please get aggressive on jailing these a**h**es and get them off of my phone. Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone.

Bruce	Lockert	5224 N. Maple St.	Spokane	WA	99205	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. === Mitt Romney's robo callers, phoned my land line often, daily. That I did not like, because when I hung-up, and then picked my phone up again to use, the robo call was still going. This is a negative technology that has been over developed by jerks, who should have their names, businesses, put into full open disclosure for being shamed ... and it that does not work, then begin cutting their keyboard fingers off, one by one until they behave themselves, and develop more useful technology that should be developed, instead. That the FCC does have management controls of regulation over this area, that the FCC needs to regulate robo call technology to insure that it does not cause problems on citizens by other citizens. That if a debt is due, maybe the new consumer agency should view the contract for consumer protections, and if that is missing from the debt collection contract, then perhaps there should be the lawyers and lenders who need to be prosecuted, as there are just too many predatory lenders in America, legally stealing what they are not entitled to steal. That they need to provide a good honest service, not a predatory contract that creates financial slaves to their greed. The recent Depression has had great investigative reporting discover the financial treachery, because the lenders have fucked-over journalists, and the revenge of

Scott	Judy	CA	LOS ANGELES	CA	90029	****Please Read**** My story is with Sallie Mae for 100K of private student debt for an overpriced for-profit "college" I attended 10 years ago. My beginning balance was <40K. I'm basically forced to have to go into extreme delinquency with them every year and a half because I can't afford the payments on my ballooned loan. The minimum payment is $1000/mo. So, you call and tell them you literally can't afford that much, then they reduce you to a little over half that, $550/mo, you commit and try your best to make those payments. And remember your making an 'interest only' payment, that's how they get you down to an "affordable" $550. Your balance stays exactly where it is. Then when something happens like your car breaks down or you lose your job you miss a payment, then you miss another, another, no matter how hard you try. The robo-calls start after 30 days of missing that payment. They called me 2-4 times a day M-S. They gave me Sunday off.. This continues until they become desperate to not let you go into TRUE default because they have to report that to the government now and it looks bad. Now, after knocking your credit AGAIN, they finally lower your monthly payment and take your delinquent balance from those 3 months you missed, $1650-$3000, and throw that back on top of your outstanding balance. God bless America. Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45

Karen	Rhodes	1509 Conductor Court	MIDDLEBURG	FL	32068	Before the canned message, let me tell you that I would vastly prefer that robocalls be outlawed altogether. Since that is unlikely, I'll settle for the terms below. However, it is not just collection agencies that use robodialers. I am a historian. I do a lot of my work at home -- analyzing documents, transcribing or translating them (they're in Spanish), and writing books. I do not like a lot of interruptions. We were getting up to a dozen calls a day from people trying to sell us things we did not need or want, soliciting money for this or that (and I do not think charitable solicitation calls should be exempt from the rules), or promoting scams. The interruptions were becoming intolerable, and one outfit was calling us every day, sometimes more than once. It made getting my work done nearly impossible. We do not have loans in collection status, and have not had for over 20 years. My husband went to Best Buy and spent fifty bucks to buy a Sentry2 call blocker. Thankfully, it works, but that doesn't mean I find this issue moot. No one should have to suffer the harassment of robocalls. And now for the regularly-scheduled canned message: Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone.

Tommy	Tolson	200 Dobie Dr.	Wimberley	TX	78676	Because of significant harms caused by robocalls from debt collectors, I strongly support the consumer protections proposed by the FCC in regulating robocalls and those who make them. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned number, will be allowed. In order to ensure that citizens in good standing are protected from psyops barrages of calls, I believe that the FCC should limit the number of robocalls or texts to 3 calls per servicer or collector, or less. Without this limitation, citizens with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phones. 1 each day, forever. That only makes sense to those who have never run out of money. No one owns the right to wreck citizens' quality of life, and no one owns the right to hate a person for being in financial trouble. A robocall campaign is war declared against a person who's already beaten down by not being able to pay what they owe, and the last thing they need is to become an Other; to live in perpetual open season for legal harassment. If the banks that caused the economy to crash can be bailed out by government money, then citizens get to be treated like humans if they fall into budgeting circumstances where they can't pay what they owe the federal government. If the US can overfund the Defense Department, it can cut citizens some slack. Thank you for the opportunity to have my say about this issue. May you always be able to pay your bills on time. Sincerely, Tommy Tolson

Pamela	Lehto	3228 laurel	Longview	WA	98632	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. I have had to personal deal with this type of harassment, because of a unpaid hospital bill for my daughter who was still living at home, they would call 7 to 10 times a day, I found out the calls were coming from a local credit agency, and I drove down there and confront Ted them in person, then found out there number and started calling them, which blocked there line from making any out going calls, all of this because a health insurance provider determined that a kidney stone was a pretty existing condition, that was before The Affordable Care Act. I kept up my harassment of them for a full month, after that I never heard from them again and they settled the claim also. I pay good money for my cell phone service and I don't think they should have the right to call. I don't let any one else use a car I purchased, why is a cell phone any different. I purchased it for my use not anyone elses.

Jacob	Johnson	4400 White Acres Rd, Montgomery AL	SCOTT AIR FORCE BASE	IL	62225	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. In my experience, my wife had a past bankruptcy before we were married, and though she had filed for bankruptcy and thought it was closed out, the collector continued to harrass her. Later, they filed another case and served notice to an address they knew we didnt live at. They then took the debt to court and tacked on fees resulting in a debt double the original amount. We found out after it closed and they took it out of her paycheck. Earlier in our marriage, she had told me about the bankruptcy, and later I would receive several calls from her debt collectors on my phone. I knew that her husband had left her penniless and barely managing. I never imagined it would come to this or that you in Washington DC would handle things in the manner you are now. This will have severe repercussions for you in the future.

Linda	Schneider	808 S. 26th Street	ARLINGTON	VA	22202	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. While I am not a debtor under a student loan or others likely to be impacted directly, I don't want my cell phone voice mail clogged up with "wrong numbers," because a stupid computer has made mistakes or is fishing for pay dirt in debt collection. Moreover, permitting multiple calls to debtors is especially unfair, because it's the debtor, not the creditor, that gets stuck with the big cell phone bill! The money charged on cell phone calls like that could be used toward paying back the loan! Harrassment is counter productive and doesn't make good business sense! I use my cell phone only for emergencies, and it is not my main telephone line! I resent the very notion of robotic computerized calles on either my land line or my cell phone!

Carolyn	Moser	4554 N Avenida Polacca	TUCSON	AZ	85749	We have a superior credit rating still we get robocalls telling us we owe money and threatening us with legal action. So not only are there the debt collectors there are also scammer debt collectors. Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone.

Liz	Amsden	5158 Almaden Drive	Los Angeles	CA	90042	I had my identity stolen - do I need the damage compounded by sleazy lawyers calling me at 4:30 in the morning saying they will steal my house because someone got information off a juror form and charged $1,700 worth of cable TV services? When I work nights why can I be woken up a half dozen times a week by contractors illegally calling me (I've been on the DoNotCall list from the very beginning) and with ill relatives and/or being on call for business purposes turning my phone off is not an option. And why should I have to? I didn't ask them to call. I have no interest in their services and I CERTAINLY don't merit multiple calls back (27 one time) when I hang up on them. Ban telemaketers outright! And you can be sure that because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone.

Greg	Koshak	8709 Cattail Ln	Larsen	WI	54947	Unsolicited Robocalls should be stopped entirely. I have been getting multiple calls every week from 'Card Holder Services' for YEARS. I pay the entire balance every month on the ONE card I have. At this point, I would suggest a random member of Congress be shot every week until the calls stop. Politicians and sketchy 'charity' groups also pelt me several times a week. I am on EVERY 'DO NOT CALL LIST'. The callers just don't give a fuck about this list or may be using it for a call list as it identifies active numbers. Kochsucking politicians take bribes to allow this eternal harassment of citizens. The rest of this letter states the position of some group that in no way goes far enough but it would be better than nothing. Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone.

Beth	Bintrim	1520 Benshoff Hill Rd	JOHNSTOWN	PA	15906	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. I have been harassed for the past 9 years by people trying to collect debts incurred by a person whose phone number was reassigned to me. My phone rings more often for this dead-beat than it does for anyone in my family. My family's cell phones are also being hit by marketing text messages. AT&T's GoPhones do not allow for any blocking of texts, and I have to call and sit on hold for a long time before I can get my $.20 per text refunds. We can block only a very limited number of voice calls. Over time this eats up our account balances. I don't want unsolicited calls from anybody. The people who cannot afford unlimited calls and texts are the people who end up paying for calls to collect other people's bad debts.

						Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone.
Michael	Klein	733 w mrktstr	AKRON	OH	44303	IT HAS RETURNED TO THE TELEPHONE HELL PRIOR TO THE "DO NOT CALL" LIST. COMPANIES DO NOT EVEN TRY TO ABIDE NOW. OHIO STATE ATTORNEY GENERAL WILL NOT EVEN TRY TO PROSCUTE AND STOP THE ABUSERS. THE OPT OUT BUTTONS DO NOT WORK. SOME MARKETERS CURSE AT ME WHEN I ASK THEM TO TAKE ME OFF THEIR LISTS AND MANY CALL MULTIPLE TIMES A DAY. I CAN NO LONGER ANSWER MY PHONE. IF I DO, THEY CALL MORE. I HAVE TO GO TO MY PHONE MACHINE IN ANOTHER ROOM TO HEAR IF IT IS SOMEONE I WANT TO TALK TO!!!! WHY SHOULD THE PHONE COMPANY PROFIT FROM SELLING MEASURES AND COUNTER-MEASURES BOTH TO COMBAT THE CALLS AND DEFEAT CALL BLOCKING. IT IS TIME TO SERVE THE PRIMARY CUSTOMERS!!!

Diane	Moss	39-65 52 Street-7H	Woodside	NY	11377	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. I receive calls from all over the country--some from 'private' and 'unavailable' callers that don't even provide a number. The calls begin in the morning and sometimes don't end until after 9:30 pm. They are constant and seemingly unstoppable. Legislation must be enacted to stop this most unwelcome and invasive practice against which the citizenry has no power to stop. Often when an a number appears in the ID, it is a phony one and ergo, one is unable to contact the caller and to make a request to be unsubscribed. I am outraged by the invasion of my privacy without any obstruction. Put a final end to this disgusting abuse.

Michael	Thomas	4211 Castleman Avenue	Saint Louis	MO	63110	In the days before cellphones were widespread, I was repeatedly called on my landline about a debt owed by someone else with a similar name. My wife still gets occasional debt collection calls intended for someone else with her first and last names but a different middle initial. We can testify that debt collectors, by and large, do not care about the real, live human beings on the other end of the phone line, and will not listen to reason or pay attention to facts unless they are forced to do so by consumer protection laws. Having such harassing calls follow you throughout the day on your cellphone must be far worse. Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone.

Jan	Gillespie	3425 Stony Brook Rd	Bakersfield	CA	93306-2449	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. I am being harassed by these and I don't even HAVE any delinquent debts! Every day I get a robo call from some woman's voice that says "please return my call at...whatever number". I am on the "Do not call" list and have sent requests to stop it to no avail. My landline is my sacrificial phone number that I never answer. I have to keep the landline for all the unsolicited offers, messages from the "IRS", various threats about "civil cases against me" and Nigerian princes who need money, etc. just so I don't have to put my cell phone numbers on any forms. For this I pay $24/month. I am really sick of it!!!!! In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone.

						Because of the significant harm caused by robocalls from debt collectors, this concerns me because it is known, and proven, that a significant amount of "debts" are not accurate, and frequently are mistakenly reported to credit agencies. Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed.
Sydney	Wright	12 Stoneridge	BALTIMORE	MD	21239	In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. Moreover, I do not believe frequent calls will force anyone to pay. I believe many are not being paid because they are not accurate and sadly because the person does not have the means to pay. Frequent calls will add undue stress to many that are still recovering from the "Greatest Recession since the Great Depression" and or doing their best to become gainfully employed.

Chelle	Snail	Australia	South Australia	50000	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. I will NOT support being harrassed ever!!! Do this and many of us will make it very difficult! Not all of us have loads of money like you debt collectors do!!!! Many of us are infact in poverty now thanks to all the corporations taking money and charging stupid ridiculous high prices that are unjustified for all services like yours, electricity, gas, furniture, food, phone, etc. Suggestion, if you don't want to call us to demand money from us, THEN lower ALL the prices everywhere, otherwise your bullying will NOT get you anywhere! We are all sick of it and will stand up against you! AT LAST!

Kathryn	Burns	12610 Riata Trace Pkwy, Austin #1018	TX	78727	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. Fortunately, I've never had debts that required a debt collector to chase me. But I did live with someone whose sister was being chased down by a debt collector for a gym membership she could no longer afford or even use. (During treatment for her mysterious weight gain -- which doctors found stemmed from some hormonal disease -- she had a stroke.) The collector kept phoning our house, while her brother was away on business. When I complained to her parents, they said they'd already talked to the gym, and everything was supposedly settled. Too bad they hadn't told the collector.

Marge	Loberger	34 Johnson Court	Appleton	WI	54915	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. If payments are being made the calls need to stop immediately until nonpayment would resume. Companies... especially those related to health care are quick to send bills to collection. This needs to stop! If someone can pay even $20 a month, that should be accepted without harassment. My belief is that if the company turns it over to a debt collector than you no longer owe that company anymore. We as consumers need to know what rights we have in these situations. Some people don't think they can do any thing to prevent their bills get going to collection.

Therese	de Vet	392 S. Convent Ave.	Tucson	AZ	85701	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. PERSONAL EXPERIENCE: I have students house-sit for me over the summers, and they have given my personal house phone # to creditors when filling out forms. Now I am inundated with phone calls of pseudo-friends of said house-sitters, who claim to be 'a friend' looking for the student. This is FALSE and UNETHICAL. They are Debt Collectors pretending to be "Melany" who breathlessly is looking for "her friend". I object to their ability to call me two/three times a day or a week. They should call maybe ONCE, say who they REALLY are, and then QUIT.

Clifford	Philllips	176 Main Street	NORTHFIELD	MA	1360	I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. I understand these protections are to apply to cell phones. I do not use a cell phone, but over three quarters of the incoming calls to my land line are solicitations (in spite of my being in the feckless "do not call" registry) and collections calls, being divided about equally. For this harassment and impingement of my time and privacy, I pay the rapacious VERIZON about $60/month. I have no federal loans, but receive collections calls for a sibling's child, an unrelated man with the same last name, and another individual I have no connection to. I have received hundreds of calls for these three individuals. This has gone on for several years. I do not answer my phone anymore, but must keep paying my phone bill in order to maintain service and anticipate the day something is done to stop the harassment. I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector.

Edward	Lemon	373 Summit Circle	Brattleboro	VT	5301	My wife and I used to have an apartment in Chicago, and one year we let a friend stay there because we were living in Arizona. Our friend had bad credit problems, part of why we gave her the place for free. When we returned, we found that we were receiving harassing calls from debt collectors, and that they wouldn't take our word for it that our friend didn't live there anymore. This kind of behavior is unacceptable: it should be considered criminal harassment, the same as any other malicious use of telephone service. Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone.

Douglas	Godfrey	n/a	GEORGETOWN	MA	1833	I get harassing robocalls more than 2 times a day 7 days a week. Some callers do not even abide by the laws forbidding calls between 10pm and 8am. Some robocallers are using illegal hacking methods to show a false caller ID. All of these abuses should be prosecuted and the abusers should face heavy fines and even jail time. One robocaller falsifies his Caller ID as the Austin Independent School District. I very much doubt that a school is in the business of robocalling people 8 days a week for 3 years. Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone.

						debt collectors must use the courts and PROVE the debt is owed!!! stalking, bullying, harassing and pirating people's services and hardware is unlawful for everyone for good reason. if someone doesn't want to be phone-bullied they can switch numbers, phone providers or get someone else to get a phone for them. people, (including me, with a lifeline phone), get harassed by debt collectors after the previous number holder. there is NO excuse for tolerating bullying, especially about unproven debt!!!
Star	Star	home	SOMERSWORTH	NH	3878	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone.

George	Erhard	2832 Dawn Spring Dr.	Little Elm, TX	TX	75068	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. In addition, robocalls should be required to post Caller ID information along with their call. Nothing is worse than getting call after call that come up "Unknown" or "Caller ID Blocked". It's as if the people setting up the robocalls don't want the caller to discover who is calling until they're already listening to the pitch. This is ridiculous - if there is an honest business need, then that business should have no qualms about identifying themselves using Caller ID.

						Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed.
Sandra	Goodstone	24 Steeplechase Road	Millstone Twp	NJ	8535	In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. I get calls from companies on my mobile that I have to pay for. I'm charged for these calls! Why should I have to pay my cell company for calls from random solicitors I have no business dealings with? They're calling me to advertise their products. This needs to stop! As it is they used to text me and I had to pay for those texts until I put a block of all texts coming to my cell. That prevents me from texting or receiving texts from people I do want to hear from.

Kelli	Reid	14597 Whitman Ct	Addison	TX	75001	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. I have personally been affected by such calls, for debt that was not mine. My cell phone number was sold again and again. I was repeatedly threatened with arrests, having a sheriff or constable show up at my house or work, told that I would be arrested within the hour... the list goes on and on. It is absolutely ridiculous for American tax payers to be harassed. YOU are responsible for this. Put an end to robocalls and unfair debt collection practices NOW.

Robert	Beggs	1073 Schumacher Ave	AKRON	OH	44307	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. What bothers me most is that they consider my time worthless. If someone (or something) makes me interrupt my day to answer the phone, they should at least have the courtesy to be ready to talk, and not put me on hold. I have had times when I waited for several minutes only to have the machine apologize that all their operators were busy and suggest that I call back. It had called me, and had not said what it was about or given a return number.

Tom	Sharkey	2 Arrowwood Court	Granby	CT	6035	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. This is a huge problem and needs to be addressed! It's not only debt related calls but a myriad of telemarketing and outright scam calls that are in practicality a form of harassment. At this point having a functioning telephone is becoming more of a liability rather than a useful tool of communication. At what point does a reasonable person decide to simply not have a land line phone .....although cell phone harassment is on the rise as well.

Beth	Carr	8759 Morganville Stafford Rd.	NY	14143	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. I also receive them from scam sources about fake credit card services etc. or from some sales source in spite of my being on the national do not call list. My land line is in my kitchen and I can't tell you how many times I have made the dash from upstairs to that phone and hurt myself on the staircase getting to that call to find it is but another robo call. For many of us these unnecessary calls are unsafe! I am begging you to end them

Beverly	Morris	3352 Willow Lake Circle	Chattanooga	TN	37419	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. I am also being harassed by the "card services" robocalls claiming to be Rachel or some other name. I have tried to get my number removed from their call list, but still receive about two calls a day from them on my land line. I am hoping you can do something to eliminate these calls too, in addition to the calls to collect debts. They do not listen to requests to stop calling, simply hanging up when my request is made!!

Richard	Fischer	656 Molony Road	Bernard	IA	52032	My wife and I were receiving robocalls between 3 -5 am each night. I contacted the local phone company to get the number they were calling from and was told I needed a court order for them to release it. The only recourse was to lace our phone on a timer that turns it off at 9 p.m. and on at 9 a.m. The emotional stress of going to bed each night was taxing until we unplugged the phone. Please do all you can to stop robocalls. Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone.

Ben	Solnit	364 Bantam Lake Rd	Morris	CT	6763	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. Not only do I hear from my clients about this scourge, my family has been afflicted as well- when we moved to our current address, my wife changed her cell phone no. Little did we know that that number had been previously been the number of someone with a lot of debts. Six years later, the misdirected robocalls are still coming in! Please do all you can to limit this abusive practice. Sincerely yours, Ben A. Solnit

Brian	Coppola	400 Merrimack Street	METHUEN	MA	1844	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. I also do not welcome cocky activist groups using robocalls to harass us into taking their side on issues of interest to them. Examples of such. 1. The transgender people calling it and e-mailing us every day or every other day. Another example is the animal activist group that got their way through legislatures through violence against the people back in the early 1990's without spending some real hefty jail time.

bob	Snodgrass	731 West Washington Blvd.	PASADENA	CA	91103	Because of the significant harm caused by robocalls from debt collectors, I am strongly support the consumer protections proposed by the FCC in this rulemaking. In particular, I urge the limitation that calls will only be permitted to be made to the debtors themselves, not to anyone else; that callers be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, is allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 2 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. Finanicailization has caused many Americans to be jailed for inability to pay traffic tickets and has demoralized our culture. I am not a debtor, but I am besieged with daily robocalls that only make me paranoid and inclined to distrust everyone. I got no cell phone robocalls five years ago. I want all robocalls stopped including those from supposedly nonprofit organization asking for money or votes. They do much more harm than good.
Peter	Hickey	100 D Sunshine Lane	WINTERVILLE	NC	28590	Here is the problem with robo calls: they use the public airways for very private communications. They are intrusive. It's safe to say that no one receiving these calls is delighted by them or the anticipation of getting them. The companies sending the calls are assaulting our peace and privacy. If they have something trenchant to convey , let them have the courtesy and respect to call in person. Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone.

Lizzie	Vierra	2021 Irvine Avenue	Costa Mesa	CA	92627	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. CA Builders called (after being asked several times to remove from their list) while I was caring for my dying mother. I said that they had called the day before and I asked to be removed from the list ~ the woman on the other end of the phone said that if she had a daughter like me she would commit suicide. I do not pay for a phone to be derided and harassed from 8 in the morning until 9 at night.
Rosemarie	Ceaser	223 Merselis Avenue	Clifton	NJ	7011	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. I have had my line phone number for over 15 years, and still get collection calls for someone that must have had the number before that. If these went to my cell, I would be charged, which I can ill afford. I also get calls for people that used to live downstairs. They keep calling, even though the listing shows a different name. Again, if these were coming to my cell, it would cost me money.

Richard L Davis	1816 Luzerne	Gatlinburg	FL	33434	I received 19 calls today and all but one of them was some sort of fraud or scam, from Medicare back braces to Microsoft calling to "fix" my computer, from the "IRS" demanding I buy a pre-paid Visa to settle my alleged debt, to someone in Nebraska wanting to clean my a/c vents. Someone should stop this and the people nominate the FCC, the people already responsible for stopping it. STAND UP! Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone.

karl	meller	1806 third ave so	Minneapolis	MN	55404	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. DEBT COLLECTORS USE A VARIETY OF TACTICS TO TRY TO GET PEOPLE TO PAY UP. MANY OF THESE TACTICS IF NOT ILLEGAL ARE LITTLE MORE THAN HARASSMENT THERE ARE ALSO TOO MANY CASES WHERE DEBT COLLECTORS GO AFTER PEOPLE WHO HAVE MADE THE PAYMENT. DEBT COLLECTORS HAVE BEEN KNOWN TO MAKE THREATS. PERSONALLY, I WOULD LIKE TO SEE DEBT COLLECTORS NOT BE ABLE TO MAKE ANY ROBO CALLS.

EA	Sabo	x	New York	NY	10014	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. I have had clients over the years who have been consistently harrassed by debt collectors, and in one case, it was not even his debt. Harassing calls do nothing but further stress an already stressed individual, perpetuating an endless cycle. We call to you to put more protections in place for people who, often through uncontrollable external circumstances, are in dire financial straits.

Jeri	Groves	28867 Cedar Circle	Evergreen	CO	80439	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. I have represented homeowners facing foreclosure since 2007, and I can assure you, the unbelievable volume of robocalls is beyond belief. I've had to have homeowners send registered letters to their lenders telling them to cease and desist. These are not homeowners who were able to pay their mortgages and no amount of robocalls could change that. It's outright harassment. Thank you--

Glenn	Lambert	1535 Winding Trl	Springfield	OH	45503	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. I have no problems paying my bills. My credit rating is consistently above 800. Yet I still get robo calls about reducing my debt. I also get calls from a so called Canadian pharmacy trying to sell me pills I don't want and don't need. I hate these robo calls. They are not only a nuisance, but they harm people's lives and service as a destructive force on families. Make them stop.
Anita	McInnis	9160 Sonrisa St	Bellflower	CA	90706-1838	I ran into debt problem a few years ago, when I become very ill and permantly disabled. When I told the deebt collectors that I was not able to pay, they set up robocalls. Some of them called me seven days a week, and a couple called me twice a day. It was almost a year of harassment before someone informed me that I could put them on notice to cease and desist. Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone.

Marsha	McCroden	5051 W. 220th Street, Cleveland, OH 444126	Fairview Park, Ohio	OH	44126	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. I've received seven calls a day from the same robocall center. Whether Jennifer or David, they just keep calling. I've asked them to put me on a Do Not Call list, but I still get calls from them. They're trying to sell me a reverse mortgage. I've also gotten calls from Payday Lenders. No thank you! Please don't gut these protections. We need them.

Jamie	Legon	61 Frances Avenue	Larkspur	CA	94939	We receive an endless onslaught of phone calls from all over the country, trying to sell us products, scare us into some kind of debt response (we have no debt) or have us "enter to win a cruise". There are never messages or ways to get off these lists, regardless of enrolling in all the "do not call" lists. This is insane, not to mention insulting... Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone.
Gordon	Wilson	11814 N Anna J Drive	Spokane	WA	99218	For years we received robocalls on our land line for a debt that was not ours. We received calls multiple times per week at nearly any time of day. Some calls included veiled threats--court actions that were not specified. We were finally able to get the calls stopped. Imagining this kind of harassment on a mobil phone would be even more obtrusive. Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone.

John	Kelly	3124 Sunnywood Drive	Ann Arbor	MI	48103	Every day I get calls I don't recognize and I don't answer them because often it's a robocall or Mumbai salesman trying to make a sale. As a doctor, I sometimes miss important calls about patients, hoping they will leave a message, but sometimes that isn't left because of HIPPA fears. Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. I have been called in error repeatedly as I have a widespread name. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone.
Letha	Marshall	5481 Bradfordville Rd	Tallahassee	FL	32309	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 2 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. Seniors are especially vulnerable to robocalls that threaten them with arrest or confuscation of property. I request that all calls placed the caller must identify themselves, what the call is about and who they are calling on behalf of. Many debts are privatized out to other companies and many people don't recognize the company that is calling.

Jeanette	Wheat	4306 Fawn Ct.	Cross Plains	WI	53528	I have had calls from debt collection agencies in the past, in spite of a credit rating in the 680 range, because they were looking for a Janet Wheat who lived in Milwaukee. My name is Jeanette and I had just moved to Milwaukee for the first time in my life. I could not be the same person, but they ignored that information and continued to call. Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone.
Rick	Andrews	3440 W 95 Ave	WESTMINSTER	CO	80031	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. In addition to these types of calls I also get on a regular basis calls telling me that I owe the IRS and unless I take immediate action I will be subject to further action. Of course these calls don't come from IRS and are total BS. I don't know how to make them stop. I've contacted all of my congressional reps and just get ignored! WTF!!!!!

David	Weber	2 Folsom Street	Exeter Town of	NH	3833	More protections are needed than the current debate envisions. It is too difficult for citizens to know which charities are trustworthy and which are halfway to being scams. Please consider a rule to ban calls by 501c3 organizations for which the recipient has no history of support. I also support the limitations on calls by debt collectors. Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned number, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit the number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone.
Susan	Hayward	776 Bronx River Rd	Bronxville	NY	10708	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. While my sister was in the hospital undergoing open heart surgery, I stayed at her house to care for her pets. There were at least 10 robocalls and other dunning calls every day (and night), and the callers (when they were human beings) didn't want to hear anything about the situation. I had to leave the phone off the hook to get any sleep.

Gloria	Cole	808 Hobson Street	GREENSBORO	AL	36744	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. I am a 76 YEAR OLD PERSON AND SINCE IM HARD OF HEARING, I USE MY PHONE ONLY FOR EMERGENCIES. STILL I WAS GETTING 4 TO 5 ROBO CALLS A DAY. FINALLY MY AT&T PHONE DEVELOPED NOISE ON THE LINE WHICH AT&T REFUSED TO FIX. NOW I HAVE NO PHONE AT ALL, UNTIL I CAN FIND ANOTHER LAND LINE PHONE PROVIDER. ROBO CALLS (AND AT&T) MADE MY PHONE USELESS.
Teresa	Carstensen	2423 Indiana Ave.	Columbus	OH	43202	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. For people on services like Tracfone that charge a hefty fee per call or text, that gets expensive. It's bad enough for the debtor, but what a crock of manure that family members or even completely unrelated people who just happened to get the reassigned number should have to be hit with that expense on top of the sheer annoyance value.

Charles	Aylworth	3851 Seneca Ave. Salem SE	OR	97302	I was the victim of a debt collector who got my number by mistake. For months we got calls at all hours of the day or night, demanding that we call them back, to settle "our" debt. When we called, the person refused to believe that we had been called in error, and made escalating threats. No one should have to endure this harassment. Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone.

Stacey	Gray	4786 Sandy Lake Rd	CARLTON	PA	16311	I pay for telephone services for my convenience, not for the convenience of those who would make money by calling me. My time is precious, much too precious to be harassed by a machine. Robo calls should be illegal. If their people can't be bothered, why should I be? Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made by human beings and to the debtors themselves, not to family and friends; that callers will be required to immediately honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC eliminate all robocalls and texts. Without this limitation, consumers are forced to pay, by the minute, for multiple, up to 30 to 45 robocalls a month to their cell phone accounts. I should not have to pay for their harassment. Turn them OFF!
Laura	Baumer	7767 Wildcat Rd	Dayton	OH	45424	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. Hey, I've gotten these calls from bill collectors erroneously. I didn't owe anything, but I kept getting calls. I called the place they said I owed and they said I did'nt owe anything and apologized. But the stupid robocalls continued. This needs to be stopped. There is no excuse to let it continue as it is. Do your job!

del	ericson	11635 Gowanda State Rd	North Collins	NY	14111	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rule making. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls all day long, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. I get multiple daily recorded solicitations for new bank cards and home security systems. When I stay on the line and wait for a human to request a manager to get my name removed from their call list they hang up on me. The demon dialers totally ignore the "DO NOT CALL" list. Ban demon dialers and robocallers.
Lara	Wright, MD	1165 Santa Fe Ave.	Albany	CA	94706-2343	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in rulemaking. Now, the situation has occurred where consumers are often paying for the calls they receive. If debt collectors are allowed to use computers to call people, robocalls, the person receiving the robocall might be paying to be called, or harassed. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. Thank you for taking the time to read my letter and consider my comments.

Dyanne	DiRosario	1430 Randall St	Glendale	CA	91201	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. I help my 90 year old AMERICAN DREAM father. He has alzheimers and OMG_ the scammers and harassing phone calls he gets are just HORRENDOUS! He is on the Do Not Call registry and he still gets multitudes of calls from these jerks EVERY DAY! This must stop. Corporations are not people and scammers are less than subhuman.
stacy	rauch	30 park avenue	New York	NY	10016	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. I hope that these rules can be tracked for enforcement. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. Considering that we are the only country whose cell phone incoming calls are charged against our minutes, it is effectively making the recipients pay for being harassed! It is likely that people who owe money are paying dearly for cellphone access to begin with.

Tammy	Barr	4222 Garden St	Winston Salem	NC	27105	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. Cell phones users are often on limited minute plans, and that sometimes includes time spent listening to voicemail. To harass someone who is already having trouble paying their debt by burning through their phone minutes is unfair. Please help regulate the robocall situation to help debtors get back on their feet.

L.	Johns	587 Hweroiul St	SF	CA	94133	I write because I observed a patient dying of leukemia being harassed by debt collector calls. Such calls cause significant harm. I am therefore very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I urge that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. May I also urge,reflecting the above experience, that no debt collector calls be allowed to anyone in the hospital or other compromised situation. (Ask your lawyers to be more specific here, but I hope you get my point.) Thanks and good luck.

Nancy	Stamilio	10 Seders Walk	The Woodlands	TX	77381	When I moved to The Woodlands, the phone number I was assigned had been held by several people with debts. Three quarters of the calls I received were from debt collectors looking for those people. I tried to stop the calls, but they always started again when they sold the debt to a different collection agency. Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone.
Hugh	McFadden	1418 Cherry Dr	Bozeman	MT	59715	I have, and pay for, a phone for my convenience. Not for anyone else's. When I get robocalls, they are stealing time I've paid for on the phone. That's theft. I do not want to receive robocalls. I want no calls from anyone I don't know. Please do not allow anyone to make robocalls on my cell phone. Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone.

Ronald	Wharton	3611 Keeper CT	Upper Arlington	OH	43221	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. Even with the Do Not Call registry, I am bombarded on my landline by companies and their robocalls that force you to listen to their entire spiel before you can remove yourself from their list. If they don't respect the law on landlines they will inundate everyone's cell phones with their unwanted calls.
Carolyn	Whiting	17 Chestnut Rd	Reading	MA	1867	I have been receiving a lot more calls from unknown numbers recently, so I am writing to ask that something be done about robocalls. It is especially annoying to be unable to ask to have my number removed from the call-list because it is a robocall. In addition, because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. Thank you for your consideration.

Chris	Kunig	5762 Dupont PKY	Smyrna	MO	19977	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. If you can't do that, then you must take on the difficult task of protecting me, the innocent, who has never defaulted on a debt in my life, from telemarketer robocalls, distinguishing them from debt collectors. Do you have any idea what happens to me and the other good guys if WE don't do our jobs?
Chris	Hicks	1419 Clifton NW	Washington	DC	20009	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 1 call per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. The servicers and debt collectors contracted by the Department of Education have not shown the competence to be allowed this free rein. Investigations by various federal and state agencies has uncovered numerous instances of wrongdoing, which must be kept in mind when drafting rules on this issue.

Sibyll	Gilbert	41 Game Farm Road	Pawling	NY	12564	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. Many of our homes are occupied by seniors, like myself, or who are disabled, and have difficulty in answering phone calls. It is actually hazardous to have a senior trying to run to a phone, expecting a call from a doctor or a family member, and get a robocall! It happens to me all the time.
Elaine	Cefola	1528 Saran Ct.	OCEANSIDE	CA	92056	I get too many phone calls, not only from vendors but also taped calls to sell solar, security and many miscellaneous calls. Needless to say, it interrupts my work during the day and it is such a bother. I then try to block the phone number but the calls just use a different phone number!! Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone.

Joyce	DeLutis,	790 North Manasota key	Englewood	FL	34223-9757	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. I have no debt, never have, but still receive 2-5 calls per week regardless of the fact that I have informed them repeatedly that I have no knowledge of the people they are pursuing so diligently. Stop this intrusion. It is my phone. I pay for it. They have no right to harass me.
Barbara	Piszczek	2100 Doral Ct.	OXNARD	CA	93036	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. I myself ignore these calls if I do not recognize the number, but I don't enjoy having my phone held hostage. It is especially irritating to deal with text messages that count against my plan for a message I didn't even want to receive. Thank you for your consideration.

s	brownell	7054 29th Street	Berwyn	IL	60402	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. I don't have a debt but I recently experienced a robocall nightmare. I'm slow at pulling my phone out of my pocket so no one would answer by the time I opened it. This went on with many, many calls for 3-4 weeks. This level of robocalling is harassment, plain and simple.
Sharon	Baker	Box 181	Palmer Lake CO	CO	80133	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. They don't just harass people who have debts but also those who now have the phone numbers from the debtors who used to have those numbers. I have experienced those calls up to six years after I received my phone number which apparently belonged to a debtor previously.

James	Perkins	525 West 58th Street	Los Angeles	CA	90037	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 2 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. Unless they are calling to provide assistance or alternate and helpful information these calls amount to nothing but harassment of the citizens and provide no solutions to the problems that plague the middle class and the poor. Enough is enough; stop the madness!!!
Sam	Haleem	16213 Debra	OAK FOREST	IL	60452	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. My personal experience occurred when I as a newlywed had suddenly received a harassing call from a furniture store at my place of employment, even though the error wasn't on my part but the store's for failing to send out a payment book to guide us on the payment plan !

Georgia	Kahn	2 Balra Dr	Novato	CA	94947	They are driving me crazy, interrupting conference calls with clients, and calling me all day long! When I try to call them back, I get a recording that says the number is out of service. What's up with that? So infuriating! It should be illegal! Please make it so! Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone.
Susan	Breckon	3001 Old Annapolis Trl	FREDERICK	MD	21701	Because of the significantharm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. my husband and I have been receiving hundreds of calls a month from some collection agency. Although we have blocked the phone numbers it is still annoying to get the ring. We have no debt, no reason for calls and you never hear a live person so way to cancel them.

David	Hurley	2010 Elm Street	Bel Air	MD	21015	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned number, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. Robocalls are impersonal, invasive, and foster an environment conducive to scam artists who use robocall "freedoms" as a gateway to harass people, even in cases where no debt collection issue exists. Please rein in abusive robocalling practices. Thank you.
Jim	Wilson	3247 Fort Jim Road	Placerville	CA	95667-7915	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. Forget limiting the discussion to just debt collector robocalls. ROBOCALLS ARE AN INVASION OF PRIVACY, no matter the purpose of the call. Phones are private property, and a privilege only, for anyone calling the owner of any phone. Just STOP ALL ROBOCALLS.

Rick	Croix	6510 Pebble Beach Dr.	Houston	TX	77069	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 1 call per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. I get too many robocalls already and being on the DoNotCall list does not help!! I just verified my number is on the list! Debt collectors should NEVER be able to harass people that should not have been given loans to begin with! The entire system is corrupt!
Paul & Ginny	Shanabarger	PO Box 455	New Middletown	OH	44443-9721	I pay for my phone and should have some say on who can call me. While I have not had any calls from debt collectors I have been getting 3 to 10 calls each day from every other pests in the world. I even received a call that was identified as coming from 911. Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone.

Robert and Rosalie	Murray	PO Box 524	Blairstown	NJ	7825	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. While we have been lucky enough to never have been subjected to such harassment, I can see no good which could come from such calls. It would bring no reaction except dismay and despondency, certainly nothing positive or helpful in repaying any debt owed.
Sally	Willett	P. O. 32394	Phoenix	AZ	85064	I'm plagued by calls for am individual I do not know. My 1st Amendment right of free speech includes the right to be free from speech by and for strangers. My rights are as important as corporated rights. I have NO relationship to any party involved. HELP!! Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone.

Dan	Mack	706 1st ave north	MINNEAPOLIS	MN	55403	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. I'm opposed to robocalls completely. The financial industry has already automated the money making process beyond belief and I think robocalls are just lazy. Considering the profit these people make off of us, they can afford to put real people on the phone. The timing and number of calls must also be restricted and considering the number of people using pre-paid cell services, they may not be able to afford multiple calls, especially wrong numbers. These debt collectors should have to reimburse those folks for the wrong numbers that use their limited minutes.
Lance	Vilter	PO Box 26094	Los Angeles	CA	90026	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. I'm not involved with debt collection, but I switched my service to a VOIP (voice over internet service ... Time Warner) so I could take advantage of "nomorobo" to stop the robocalls that (I understand) were mostly unfair offers. And it works well for me.

Susan	Ebershoff-Coles	PO Box 725	Danville	IN	46122	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. I HATE ROBOCALLS. With my home phone I just don't answer them. If I do by accident I hang up ASAP. The pests are bad enough on my home phone but I REALLY REALLY DO NOT WANT THEM ON MY CELL. SURELY THERE IS SOME RIGHT TO SAY "DO NOT CALL ME!!" EVER.
Knud H	Padborg	1614 S Patton Ave	SAN PEDRO	CA	90731	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. Because of some unpaid debt of one of my relatives, I have been receiving robocalls, sometimes 5 times a week, from the same 6 or 7 debt collectors for more than 6 years. Please stop this kind of legal harassment of innocent people by these scumbags.

Janet	Fairchild	2432 - 10th Street	Berkeley	CA	94710	Robocalls from debt collectors cause significant harm. I am personally aware of several cases in which debtors feel unable to answer their phones at all for fear of debt collectors. This is particularly harmful for the elderly, who are thus deprived of what is often their most supportive social medium. So I strongly support the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned number, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phones, at their own cost!
Mercedes	Lackey	16525 E 470 Rd	Claremore	OK	74017-4445	Jeez Louis I am tired of them. They call me even though I am not the person they are trying to collect from. Over and over and over, ruining my sleep, interrupting my work. I cannot imagine the hell they put people who actually owe money through. Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone.

A.	Polangin	Broad st	BETHESDA	MD	20814	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. I find these robocalls come at the most inconvenient times: early in the morning on weekends or when we are winding down in the evening during the week. Our phones are our private property, not the property of those robocallers !!! This is unfair !
Stephanie	Jacobs	14348 41st Ave.	Flushing	NY	11355	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned number, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit the number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phones. I don't have personal experience with robocalls from debt collectors (thankfully), but I do get a large number of robocalls from businesses and phishing enterprises looking for personal information. I wish you'd do something about that too!

Kent	Wilson	1711-F Wildberry Dr	Glenview	IL	60025-1745	Because of the significant harm caused by robocalls from debt collectors as well as others wanting to sell me stuff I do not want, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. Much stronger sanctions are needed to discourage to ovals and other unwanted solicitations, and it should be much easier to enforce those sanctions. The Do Not Call has been ineffective. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone.
Charles	Mullen	6100 Ronald St. NW	Canton	OH	44718-1070	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. I constantly receive robocalls from debt collectors regarding debts of my son. I have written to them explaining that I want my phone number removed from their records but they simply ignore my request. This is harassment and it needs to stop.

Don	Dieckmann	4614 Wisteria Drive	alton	IL	62002	I generally get about 25 robocalls a day, most of which I don't even answer after hearing the caller ID. And since the primaries began, that number has more than doubled. Out of those numbers, only 1 or 2 leave messages, and even they are robos! Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone.
Tracey	swanson	14518 e sweetwater ave	Scottsdale	CO	80906	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. I have a problem with all types of robo calls I do not see why I have to put up with the business of selling my private info to these con men. These are businesses that offer nothing. I did not ask to have my phone number sold. Stop this.

Robert	Officer	818 Lafayette	St. Louis	MO	63104	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. I have been on the state "do not call" list for years and it has become less and less effective because, according to the atty. general, many of these calls, like the internet gambling sites, originate outside the U.S. Something must be done.
Alexander	Rabun	PO Box 241985	Montgomery	AL	36124	Reasonable privacy and freedom from undue harassment should be a right that every American is entitled to, but currently many consumers are constantly inundated with Robocalls or other types of harassing telephone calls. This type of treatment is unAmerican. Because of the significant harm caused by robocalls from debt collectors, I support the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, the FCC should limit the number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone.

Pamela	Bejam	8008 Bluebonnet Blvd.	BATON ROUGE	CA	LA	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. My husband and I had a reassigned phone number in Baton Rouge, LA, for 9 years until recently, on which we were still receiving debt collection calls for the previous owner of that phone number. Why is such abuse allowed? Please help stop it.
Jerald Vinikoff	Vinikoff	P.O. Box 288	MECHANICVILLE	NY	12118	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. I get too many robocalls and I don't owe anyone anything that is past due or in the hands of any debt collector. You need to strengthen the entire robocaller protection regime. Remember the Do Not Call List? Please enforce it. Thank you.

Karen	Neander	36 Paradowski Rd	Glenville Town of	NY	12302	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. First of all I don't have any debts. PAY DAY LOANS are relentless. They don't stop once they have your number and they have mine. Phone company wants the #'s but they change them so it doesn't help to block them. Do I want a phone that bad?
Walter	Pinkus	1097 Leisure World	MESA	AZ	85206-2475	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. We have had our current phone number since 2008, yet are still receiving robocalls about debts owed by at least three previous holders of this number! Every six months, when a new collection agency is assigned, the calls start up again. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone.

Kristina	Cliff-Evans	621 Wadsworth Ave	Philadelphia	PA	19119	Robocalls take up a significnt part of every single day, including weekends. They start before 9 am and continue till 9 pm. This is a ridiculous assault on every person with a landline. Don't allow it to do the same thing to cell phones. Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone.
Joan Merlin	Palmer	5549 S. Dorchester Avenue	CHICAGO	IL	60637	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. I get these calls fairly often because I have a common first and last name. The debit collectors call everyone in the area who has a similar first name, just fishing for a match. It is really a terrible nuisance and disrupts my day.

Evelyn	Chorush	1340 W Gray St	Houston	TX	77019	I do not have any outstanding loans. And yet I keep getting harassed by robocalls - from student loan calls to reverse mortgage calls to Medicare supplement plans etc etc. Please stop these ne'er do wells from any robocalls. Thanks Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone.
M.E.	Scullard	650 West End Avenue	New York	NY	10025	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. These people are thieves preying on the elderly, because they are the ones without caller id who answer their phones. The robocallers must be stopped in the same way we stop other thieves, by making and enforcing laws against them.

Delaina	Foster	12402 Broken Arrow St	Houston	TX	77024	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. I personally have received multiple calls per day on my cellphone from a debt collector, who had my cell phone number under someone else's name. Even after explaining this multiple times, they continued to call me over and over!
Flora	Greig	2054 E. Lemon Creek Rd	Berrien Springs	MI	49103	In today's busy life, it is maddening to be subjected to robocalls. This is especially true when these are sent to one's cell phone. Unlike landline phones, cell phones take off minutes which one has paid for when these happen. Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone.

Larry	Hansen	741 28th street	DES MOINES	IA	50312	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. I have always been debt free and receive anonymous robo calls each month to my cell phone. I believe that this practice should be illegal and restricted in whatever form to discourage the misuse of our communication systems.
John	Dalton	563 Pike Ave.	MANASQUAN	NJ	8736	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. We received a new phone number ten years ago when we moved. The prior holder of that phone number had incurred significant debts and we have been receiving calls for those persons up until very recently. That's unreasonable.

Carl	Anderson	907 Bullock Avenue	Yeadon	PA	19050-3714	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned number, will be allowed. With a common name like mine, I get landline calls all the time for other people with a similar name. I want the regulations to assure that calls are made to specific, targeted numbers, and not to anyone with a similar name. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone.
Frank	Hill	11509 Hatteras Street	North Hollywood	CA	91601-1623	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. This overuse of robocalls is essentially drone warfare waged against the American people. Will they eventually start sending drones over people's homes with loudspeakers blaring or even dropping bombs? Where will it stop?

Clarissa	Kripke	78 Westwood De	San Francisco	CA	94112	We have been hounded with frequent robo calls for ten years asking for a person we don't know and we have been unable to stop it by calling back multiple times. We basically don't answer our own phone anymore because of it. Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone.
L	Bresnan	665 Turfwood Dr	Ballwin	MO	63021-6236	Innocent people are interrupted many times daily by these calls; people who are ill, have formerly sleeping children, people who work nights all have much-needed rest broken. It is cruel. Because of the significant harm caused by robocalls from law dodging sales businesses and debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone.

Alan	McLemore	3580 Calder Ave.	BEAUMONT	TX	77706	These sleazy organizations use tactics that tread on the line between being legal and illegal--and increasingly cross over it. Take strong action to stop these harassers and punish those severely that broke the rules! Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone.
Sonia	ImMasche	730 Cottonwood Drive	Fort Collins	CO	80524	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. I get repeated calls on my land line and my cellphone - both of which are on the Federal and State Do Not Call lists. I don't have any student loan debt or credit card debt but still get these calls on a daily basis!

Monica	Smith-Braun	899 Professional Dr	Yountville	CA	94599	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. I am being harassed for a bill I do not owe to Oxygen supplier/Apria. I return the O2 and have faxed and sent written copies of the pickup paperwork to no avail. I don't answer my phone, leave a message and I call back!
Melanie	Alexander	813 Gayety Ct	Denver	CO	80231-4294	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. Anyone trying to make a living and PAY their debts requires focus. One status call per month, and perhaps one followup if a promised payment does not appear should be enough. Most of us dearly want to pay our bills.

Tom	Pipal	7632 S. Winston Ave.	Tulsa	CO	80112-7031	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. Please make collectors play by the same rules as most businesses: if someone owes money and doesn't pay, take them to court. Harassment is not a valid method of settling a dispute. Thank you for your consideration.
Theresa	Scherf	147 Barrett Lane	Berea	KY	40403	Since the robocall law was passed, I have been receiving MORE robocalls than previously--now typically on both my lines simultaneously! Clearly this law is not effective and needs to be made more effective. I do not receive robocalls from debt collectors--don't have unpaid debt. However, because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone.

Alana	May Davis	1328 Prospect Drive	WILMINGTON	DE	19809	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls to 3 calls per servicer or collector. Texts should be outlawed outright so as not to burden consumers with unexpected overages. Without these limitations, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. I personally do NOT owe any debts that are in collection but still receive multiple calls every week, often more than one a day.
Howard	Czoschke	2919 Barlow St	Madison	WI	53705	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. Since i have limited minutes on my cell phone, I think creditors should be paying me for the call time. Maybe have callers set up a system of giving the called credit for double the minutes the robocall makes.

Linda	L. Sharkey	P.O. Box 7813	Columbia	SC	29202	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. This is a problem even for people like me, whose only debt is a mortgage (payments current). I have no other outstanding debts but get robocalls about student debt that I do not have. It is VERY annoying.
P.	Ross	PO Box 86	Fairmont	WV	26555	We receive constant harassment daily (NO DEBT COLLECTORS)with unsolicited offers, threats, and other harassment. We pay 180 dollars per month in cell phone base charges and THEY use our phones to harass us. Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone.

Christmas	Leubrie	1001 No Address	Monte Rio	CA	95462	It should be obvious that the do not call list means ALL commercial non desired callers . This bill is a no brainer that everyone would want passed. Are you listening to voters in an election year or not????Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone.
Michael	Madden	13161 Liberty Square Dr	Orlando	FL	32828	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. We are being besieged and held to ransom in our own homes. Whatever happened to the inviolability of one's castle(home)? These people are unscrupulous sewer rats preying on ANY vulnerability they can find.

Kiwibob	Glanzman	1220 NE 90th	SEATTLE	WA	98115	IN 2015 I GOT RID OF MY LAND-LINE OF OVER 37 YEARS DUE LARGELY TO ROBOCALLS! DAMNED IF I'LL PUT UP WITH THAT CRAP ON A CELL PHONE. Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC BAN ALL ROBOCALLS TO ANY PHONE INCLUDING CELL PHONES AND LAND LINES. IT IS THE CUSTOMER WHO PAYS FOR THEIR PHONE SERVICE AND AS SUCH THE CUSTOMER SHOULD BE ABLE TO REJECT CALLS FROM ANYONE AT THEIR SOLE DISCRETION AND NOT HAVE TO BE BOTHERED WITH THE INVASION OF THEIR PRIVACY!!!
Patsy	Shafchuk	P.O. Box 38	San Antonio	FL	34654	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. Those are calls they will have to pay for unless they have unlimited accounts, which doesn't seem likely. It's ridiculous to ask people to incur more debt by calling and asking them to pay another one.

Lea	Morgan	135 Allengate Avenue	Pittsfield	MA	1201	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. Ending robocalls just has to happen! I get them at my business and it takes me away from patients as I'm a one-person office and I find it so annoying! This is a gross misuse of the telephone system!
F L	Gillespie	900 Glarner Drive/ Apt.110	NEW GLARUS	WI	53574	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. I do not have cell phone since i quite driving. The way I deal with robo calls is if name, business, or clue shows in my caller ID I wait see if a message shows identity so I can take call or ignore.

Bruce	Petrik	249 E. 2nd. Ave. #15	TRUTH OR CONSEQUENCES	NM	87901	Please stop this abuse by debt collectors and scammers. My Mother is afraid to answer her phone because even though she is on the "do not call list" she receives numerous calls daily from scammers. Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone.
Howard Davidson	Davidson	640 42nd Ave	San Mateo	CA	94403	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. The debt collection industry has a well documented history of abusive behavior, and sneaky attempts to evade legal limitations. Strong penalties for violations of the rules should be implemented.

John	Ray	485 N. Vinson Ave.	FAYETTEVILLE	AR	72701	Please eliminate ALL robocalls. They are ALL a waste of time, an invasion of privacy, and a nuisance. Please do your job to protect consumers from ALL robocalls. Thank you, John Because of the significant harm caused by robocalls from debt collectors and marketers, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone.
kathryn	liss	11 Von Ruck Ct	Asheville	NC	28801	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. And I get them both to my home and cell phone although I have no debt and am not related to the person they claim to be calling. They are disruptive and annoying and should be forced to stop!

						Cell phones are expensive enough so we dont need robocalls eating up our minutes. Its bad enough automated systems do that. Those need to go as well and allow people to be hired instead.
Gina	Caracci	2532 Cocoanut Dr	COCOA	FL	32926	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone.
RIna	Rosenberg	2897 Country Squire Ln.	DECATUR	GA	30033	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. I have repeatedly received calls for someone I emplot=yed twenty years ago, though I have no way of knowing where she is now. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone, or owrse, to someone else's who cannot help with the situation.

Jeff	Roush	974 Weinreich Rd.	Las Cruces	NM	88007-4841	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. Corporations are not people if you think business has the same or more rights than the individuals that received your oaths then you may consider that you do have my permission to resign!
deb	stringham	45 High St	Sharon	MA	2067	I was once harassed by robocalls from a debt collector trying to collect not on my own student loan, but that of my friend's son!! This shows how ridiculous some of these calls can be. Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone.

						I DO NOT WANT ANY ROBOCALLS EVER IF I WANT SOMEONE TO HAVE MY HOME OR CELL PHONES NUMBERS I WILL GIVE IT TO THEM. I DO NOT GIVE OUT MY NUMBERS UNLESS I KNOW THE PERSON. "PERIOD"
Jeff	Beesley	9411 Michigan Ave	North Fond du Lac Village of	WI	54937	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone.
Julie	Adelson	2810 6th St	Santa Monica	CA	90405	If I am on the do not call list - I should get paid by the phone company everytime I get a solicitation call. Then it will stop. Stop selling me out. I am sick of all the calls. Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone.

Glenda	Lilling	395 Westchester Ave	Port Chester	NY	10573	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per service or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. Customers need to be protected since these calls are harassing all the time. No one wants calls day and night. It is very annoying if you are getting calls for someone else.
Joyce	Greenberg	12441	HIGHMOUNT	NY	12441	Robocalls are an intrusion and annoyance. While recovering from a broken leg, a struggled to pick up a ringing telephone only to find it was a sales call. Get rid of robocalls. Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone.

Karen	Kallay	530 GEORGE ST	Fredericksburg	VA	22401	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. Many of the people I volunteer to help have mental illnesses, are poor and in debt, and avoiding answering the phone. This adds to their social isolation and illness and anxiety. So I especially support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone.
Patrick	Smit	91403 Kellogg Ln	Coos Bay	OR	97420	Consumers need protection from Robocalls. Since when is it okay to have a mindless machine endlessly hassle people. And the bigger question, does this actually achieve anything? Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone.

Terry	Elliott	96 Maximus Lane	Wysox	PA	18854	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. you have to remember, cell phone companies reuse cell phone numbers. So many people are getting robot harassment for people that no longer have that number!!! that is NOT right...
John	Crowgey	1233 Copper Stone Circle	CHESAPEAKE	VA	23320	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. If a call is of such importance that it must be made, and in particular in reference to debt or credit, I further request that the call be required to be made by a live operator who can make proper notes reflecting the wishes of the recipient of the call, who can determine if the call has been received from the proper party and what proper follow up is necessary. Robo calls of any nature are intrusive, in most cases unnecessary and in cases regarding consumer debt, inappropriate.

Jeffrey	Starr	3300 N 77th St	Milwaukee	WI	53222	I pay 20 cents a minute to use my cell phone, I can't afford to have a bunch of useless calls eat up that money I put in my cell phone account. These calls accomplish nothing. Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone.
Victoria	Urias	14001 35th Avenue NE	Seattle	WA	98125	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. I am Tired of getting repeated phone calls from serviers and when I try to call back it says the number if out of service. This is Harassment!! And I don't owe anybody money!

Kenneth	Jones	9058 Forestview Road	Skokie	IL	60203	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. It is clear based on my horrendous experience that these companies never make any effort to conduct research on who is currently assigned to the telephone number in question! In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone.
Robin	Rohrabacher	waltham	WALTHAM	MA	2451	I do not pay to initiate and maintain my telephone access so that anyone else can use that access to market their products and services or to terrorize me with threats. Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone.

Wayne	Eaton	ave re LA reina	TEMECULA	CA	92592	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. Worse, this always seemmms to lead to consumer phone numbers being shared with a host of 3rd parties. Many of whom are unscrupulous and care nothing about law and rules.
Mana-Jean	Wagnon	2834 Johnson Ave	Alameda	CA	94501	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. Actually, I support the concept that the person being called has the right to speak to the party who alleges a problem so a dialog may happen and the situation resolved.

Allan	Malkis	977 Goodrich avenue	St Paul	MN	55105	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. While I believe that debtors should honor their debts, I am concerned about the potential for harassment that ahs already been exhibited by these collection agencies.
Derek	Watkins	205 Pauline Ct	Arnold	MD	21012	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. I have no debt collector trying to collect from me but have been harassed for years now by those trying to collect from the gentleman who had my phone number before me. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone.

Catherine	Adams	7903 8th Ave S	Seattle	WA	98108	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. I despise robocalls, period. This should not be allowed at all. I don't get calls from collectors, myself however there is absolutely no reason for this industry.
William	Schoene	1519 Oak Street	Santa Monica	CA	90405	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. Robocalls for cold sales calls can also be a serious annoyance and phone companies should be required to supply their customers with a mechanism to block robocalls. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone.

Robert	SHUGARTS	3424 Oak Ridge Rd	NEW MILLPORT	PA	16861	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. This is something consumers can certainly live without. Life is sometimes rough and people certainly have enough to deal with without these harassing,endless calls.
Philip B	Fregeau	423 Williams Street	LONGMEADOW	MA	01106-2059	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. We are on the no call list, the COMCAST no robo call list and we still receive robo calls. These no call lists seem to be ineffective. Your attention is needed.

Jan	Kimbrough	5129 Goodland Avenue	VALLEY VILLAGE	CA	91607	I get at least half a dozen robocalls or telemarketer calls every day, often early in the morning or late at night. They are very intrusive and inconvenient. Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone.
scott	chapman	pob 13043	san luis obispo	CA	93406	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. Incessant and targeted robocalls are a intimidation technique which doesn't speed the process(es), is psychological harassment, and ultimately ineffective!

Valerie	Justus-Rusconi	1005 Summit Road	Watsonville	CA	95076	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. I myself have received robocalls and so has my husband. We have by-the-minute phones and I deeply resent MY PAID FOR PHONE TIME being used by telemarketers!
Marcia	Miller	3090 N Morton St Lot 108	Franklin	IN	46131	As someone who has received multiple calls on my cell phone for a person who had the phone number I did, it is extremely annoying that my number can be robocalled in the effort to collect a debt. My phone is a prepaid phone which costs me roughly .50 a minute to retrieve the voicemail message. I also learned that even though I requested my number be removed that I would in all likelihood receive calls again because of getting the number from a person's credit information with one of the 3 major credit agencies like TransUnion etc. If the person with the debt never updates information then robocalls for debt collection purposes will be a never ending hassle for the person who is assigned the number that the person who has the debt once had. We need very strong protections from the extreme practices for collecting a debt and most especially allowing only one wrong number call for those of us with reassigned numbers.

Kim	Kensler-Prager	5215 Secor Rd #8 Toledo	OH	OH	43623	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. But you need to differentiate between the debt collector robo calls and companies like Maritz or Peter Hart who use the auto dialer to do important research.
Roanne	LeBrun	15-405 Puni Makai Loop S.	Pahoa	HI	96778	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. There are 3 people who I don't know that I keep getting calls about. I tell them that each person they are looking for are not here, but they keep calling!

Jennifer	Steffen	2215 Graham Ave	REDONDO BEACH	CA	90278	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. I would actually prefer NO robocalls! I stopped using my landline, because I was getting both live and robocalls, even though I'm on the do not call list.
Janice	Thompson	DONOTUSE 1543 G Avenue East	COUNCIL BLUFFS	IA	51501	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. Robocalls are irritating and interrupting. I cannot answer the phone when I am driving down the road and I won't. I do not want to endanger anyone.

J.	Ross	PO Box 86	Fairmont	WV	26555	We pay for our cell phones so robo callers can call our phones with crap. We do not want to finance our own harassment by unknown untraceable criminals! Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone.
Michael	Daniels	320 Gold Ave. SW #1400	Albuquerque	NM	87102	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In my law practice I see so many people harassed into bad financial decisions, and suffering family turmoil for no good reason. Robocalls must stop. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone.

Maren	Kentfield	223 S Fresno Spring Way	Tucson	AZ	85748	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. I fully support this because I get a lot of calls for other people. I tell them that the person they are looking for does not have my number.
Barry	Johnson	5157 Maybee Road	CLARKSTON	MI	48346	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. I have no debts in collection. Yet I have been receiving robocalls from a debt collector for years. They refuse to even say who the calls are for.

Christie	Gesler	3007 Gilmore Avenue	PITTSBURGH	PA	15235	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. I currently have no debts but someone getting a loan gave my cell phone number and now I get calls from collectors who won't believe I'm not him!
Jane	Ritzinger	PO Box 881113	San Diego	CA	92168	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. Telemarketers & robocallers should be prohibited from calling anyone. These calls force me to turn off my phone whenever I want to work or sleep.

John	Barton	101, Coventry Road, ATHENS, GA	ATHENS	GA	30605	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. Apart from anything else, these calls are a major disturbance and timewaster; we have virtually given up answering the phone because we get so many!
David R.	Eckman	2546 Nesmith Lake Blvd.	Akron	OH	44314	Please do something about Card Member Services! And about the Indians pretending to be Internal Revenue Service agents or Windows Technical Dept. Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone.

Gavi	Stevens	460 Deville Dr	LARGO	FL	33771	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. This protection should not be limited to cell phones or for debt collecting. It should be expanded to land lines and political calls as well.
Patricia M.	Williams	9 Enfield Lane	Lewes	DE	19958	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. My mother, in her eighties, was subjected to this harassment. She stopped answering her telephone. There was no way to check up on her safety. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone.

Jerry	Ravnitzky	124 Hill Street	Mahopac	NY	10541	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. I don't have any debts but I get 5 to 10 robocalls per day. If I ask them to stop the robocalls, they increase the number. This must stop.
Kayleen	Reynolds	PO Box 502	Vermillion	SD	57069	If your relative screws up you can find yourself fielding call after call for a debt that is not yours. Please protect us, it's only right. Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone.

Charles	Blume	17018 Troy Ln	Westfield	IN	46229	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. More and more people are electing to drop phone service or just don't answer the phone because it is most likely to be a ROBO or chatbot .
Diane	Dellicarpini	73 vinton pond road	West Townsend	MA	1474	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. It is not only debt collectors now but companies seem to outsource to India and I get all kinds of robo sales calls.Extremely frustrating.

Ed	Parks	3314 NW Liberty Ave. Lawton OK	LAWTON	OK	73505-5135	Because of the significant harm (and irritation) caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I respectfully suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. Please adopt this limitation in the interests of fair play. Thank you for your time and consideration.
Jo Ann	Duman	5803B Sidney Drive	Texarkana	TX	75503	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. Personally I want you to require that a person make the call not automated equipment. I have NEVER had a loan that would allow a debtor to call my on-the-do-not-call list mobile number, yet robocalls harassed me with no way to get it to stop by informing a person that the wrong number was being called. Let them contact debtors by mail or have some person call the number so problems can be corrected instead of harassing harmless consumers.

Kaaren	Stoner	2225 Coleman MT. RD.	Waynesville	NC	28785	I consider robocalls to be an invasion of my privacy. I pay for my telephone service for my convenience, not the convenience of companies that want to sell me something or frighten me with credit card scams. I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone.
Nathan	Hall	555 Ramirez Street Suite B10	PASADENA	CA	91104	6.3.16 How often do we have to ask for this ? . I get 5 + calls a day and I owe no one anything . PLEASE make it stop . -Nate Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone.

Yara	Mello	12525 Morris rd	Yelm	WA	98597	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. And to top of all this BS. Google has been giving out my home number as a business for over two years. Clean Up and Fly Rite.
B	Comer	7315 SE 16th Ave	Portland	OR	97202	End Robo Calls on Cell Phones PERIOD. No use, no point, waste of time. If it is important, hire a human being to make the call. Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone.

Merelyn	Dolins	10 Brookside Rd	Maplewood NJ	NJ	7040	I get robot calls from "credit card" organizations from which I do not have any credit cards!!!! Because of the significant setting up of fear and possible harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone.
Robert	Edwards	163 Willow Street	Wilkes-Barre	PA	18702	In spite of current laws, and the availability of "No Call List" - I'm still getting robocalls, including the IRS SCAM calls. Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone.

William	McKenzie	1860 Interlake	NATIONAL CITY	MI	48748	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. I don't have debt and am getting scam robocalls, it's time to totally end robocalls including political and charity requests.
Martin	Maner	3640 Colonel Glenn Hwy	Dayton	OH	45435	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. I have personally had credit agencies break the law in attempting to pursue a non-existent debt. Please limit their activity.

Kenneth	Bullard	Charlotte	CHARLOTTE	NC	28211	Sometimes do to trying to ignore a robocall, I have missed a significant legitimate call. Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. We get several unwanted every day.
Frankie	Winchester	7070 Cradlerock Way #427	Baltimore	MD	21045	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. Robo calls are a particular problem for those who are elderly and disabled as well as those who have limited phone service.

Leslee	McPherson	3200 Monterey St	SAN MATEO	CA	94403	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. Even those without debt who happen to be home to answer the land line (ie.retired) get an inordinate number of robocalls.
Chandra	Holsten	2008 A. Calle Lejano	Santa Fe	NM	87501	Robocalls are an invasion of privacy and a disruption of our work. They are not invited into our homes and must be abolished! Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone.

Lawrence	McFarling	16045 SW Audubon Street, unit 103	Beaverton	TX	97003	We pay the bills for our phones ... and they (our phones) should not be used to harass "us" (the public) without limits! Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone.
David	Gordon	5650 Tobias Avenue	Sherman Oaks	CA	91411	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. The present practices can become abusive and serve no purpose other than to harass people who already know they owe money.

George	Churchill	11439 Applegrath Way	Germantown	MD	20876	Every time I'm just a little bit late with my Discover student loan, they begin robo-calling me 3-5 times a day. ... Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone.
Jeff	Thayer	3073 Jemez Dr	San Diego	CA	92117	I am SICK of robocalls, and so is everybody else in the US! This abuse must stop. It is a severe invasion of privacy. Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone.

Mary	Mobley	6722 52nd Ter	LIVE OAK	FL	32060	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. It is enough already. STOP THEM. My husband is a heart patient and this has been horrible that they call all the time!
Richard	Phillips	4221 King Edward Ct			NC	STOP ALL COMMERCIAL ROBOCALLS... COMPLETELY... BAN ALL COMMERCIAL, FUNDRAISER, POLITICAL ROBOCALLS OF ANY KIND...!!! Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone.

Penny	Hammack	7101 Meadow Park N	NORTH RICHLAND HILLS	TX	76180-6623	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. All robocalls to cell phones need to be eliminated. I got a robocall at 3:00AM from what was probably a prostitute.
John	Hampton	W. Cherry St.	GLASGOW	KY	42141	THIS HAS GOT TO STOP!! I GET CALLS EVEN THOUGH I AM ON THE DO NOT CALL REGISTRY! DO SOMETHING TO STOP THIS NONSENSE. Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone.

Jan	Churchwell	1708 B Northfield Sq	Northfield	IL	60093	I am very supportive of ALL consumer protections proposed by the FCC concerning robocalls. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. Further, I suggest the FCC develop and implement EFFECTIVE ways to collect debts. It should also make repayment terms stricter and the consequences of non-payment clear and unequivocal.
John	Lawler	6584 Tikker Ln	MAGALIA	CA	95954	I believe all unsolicited advertising/solicitation needs to stop. It's a complete waste of resources/bandwidth Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone.

Henry	Hodes	1655 Chestnut Street	San Francisco	CA	94123	I have a new cell phone number, and at ;east weekly I receive a robocall. Why do you allow these? Furthermore, because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone.
Rebecca	Saunders-Maziarz	71 Jay St	Cambridge	MA	2139	Stop these annoying nuisances! I ignore all of them and once in a while one may actually be an important call. Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone.

Carol	Hester	915 Dante St	NEW ORLEANS	LA	70118-1123	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. ROBO CALLS from politicians should also be controlled if not outlawed... they are an out and out annoyance.
Dan	Richman	4229 21st st	SAN FRANCISCO	CA	94114	ROBO CALLS, LIKE CAR ALARMS, ARE ONE OF THE MOST OBNOXIOUS AND INTRUSIVE ELEMENTS OF MODERN SOCIETY. Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone.

Barbara	P:robert	1522SW 35th Place	GAINESVILLE	FL	32608	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. Frankly I believe that there should only be personal/ non business calls on my cell phone and on others too.
Patricia	Silver	901 Arlington Ave	Berkeley	CA	94707	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. I ADD TO THE ABOVE; CALLS FROM ROBOTS SHOULD CEASE ALTOGETHER. HIRE HUMANS IF YOU WANT TO INFLUENCE A HUMAN.

Arnold	Rochlin	P.O. Box 83645	Portland	OR	97283	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. All unsolicited robo calls should be banned, excluding only emergency announcements from government agencies.
David	Rubin	259 West Oak St	RAMSEY	NJ	7446	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. In addition, robocalls from unsolicited businesses with whom the recipient has no relation should be banned,

Johanna	Fears	1281 Willow Avenue	Louisville	KY	40204	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. I have been harassed by CBE for sometime. I do not have debt but they keep calling. I want them to stop.
James	Norgrove	Winter Park	Winter Park	FL	32789-3340	This is called "stalking" and clearly illegal. Let them file the papers. They have no right to harass you. Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone.

Robert	Victoria	1600 9th Ave Apt 316	Longmont	CO	80510-0066	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. Tell your staff, Thank You for their hard work. You are doing a tough job, with many conflicting interests.
Mr.	Shelley Dahlgren, PhD	4449 242nd ave. S. E.	Issaquah	WA	98029	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. Robocalls drive me nuts. I never buy anything from them so why do I have to put up with the calls? SDD

Ari	Robic	1108 Wind River	ALBUQUERQUE	NM	87110	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that no one wrong number call, such as to a reassigned numbers, will be allowed. I got a reassigned cell phone number and for years got robocalls from debt collectors multiple times per day. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone.
Carla	Babrick	1311 N. Third St., Apt. B	St. Charles, MO	MO	63301	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. Repeated calls for which the debtor must pay will not make him or her more solvent and able to comply. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned number, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone.

Mary Ann and Frank	Graffagnino	10207 E. Calle Pueblo Estrrella	Tucson	AZ	85747	Because of the significant harm caused by robocalls from debt collectors, my husband and Iare very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, we support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, we suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. PLEASE TAKE THE RIGHT, FAIR, JUST, HUMANE AND HEALTHY ACTION AND LIMIT ROBOCALLS.
Mark	Meeks	399 Blackbird Dr.	Bailey	CO	80421-2077	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. There is such a thing as abusing people for being in debt. Debt is a highly problematic part of our culture and those most vulnerable, most in critical need, must be respected and protected both if we are to be a just and sane society. We must not allow forces that falsely drive people to deeper trouble to remain free and active. Limits are critical to protect rights, including the humanity of us all.

Margaret and Patricia	Sellers/Deviine	61 Red Bridge RD	NORTH GROSVENORDALE	CT	6255	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. We strongly support strong rules limiting the number of times calls can be made to cell phones.
D.B.	Pope	2083 Rock Springs Rd	Varnville	SC	29944	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. My phone is for mine and my family's convenience. I shouldn't have to screen numbers, but I do.

Toby	Rhodes	1111 Ash	WeHo	CA	90046	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. I personally have had 8 calls in one morning starting before 7AM. Please stop this harassment.
Stephen	Courim	1600 Brookls Ave.	Brownwood	TX	76801	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. I personally received at least two calls a day every day for five years, and I have no debt.

Richard	Welsh	4214 Alcove Avenue	STUDIO CITY	CA	91604	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. Please limit this harassment which is harmful, and probably largely ineffective anyway.
MaryAnn	Brown	1608 Rolling Brook Dr	ALLEN	TX	75002	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone.I HAD TO DISCONNECT MY LANDLINE because robo callers were threatening me. Please stop them.

Jonathan	Blaine	1544 Spring Hill Rd # 4772	Mc Lean	GA	30355	Due to the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. Depending on the cell phone calling plan, this could cause much financial harm to consumers.
Rick	Fogg	6323 n charles	BALTIMORE	MD	21212	We are getting 5 to 10 Robo calls a day and more than half of them come to our cell phones Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone.

Frank	Dwyer	768 Canyon Wash Drive	Pasadena	CA	91107-2016	Robocalls from debt collectors are in some ways worse than the old debtors' prisons: they make one's own home a kind of prison, with repeated ringing torture. I urge the FCC to implement the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone.
Frank	Cassianna	1636 Maple St.	MYRTLE POINT	OR	97458	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. Sincerely, Capt. Frank Cassianna 1636 Maple st. Myrtle Point, OR. 97458

Margaia	Forcier-Call	PO Box 43	Jemez Springs	CO	NM 87025	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. Thank you for enacting the above as a consideration for the citizens of our country!
Dennis	Vieira	36 Summit Avenue	NORTH DARTMOUTH	MA	2747	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. I may not receive such calls, but calls fom telemarketers in general are a nuisance!

t	logan	logan	AUSTIN	TX	78704	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. Consumers pay for phone service - it is not intended for unsolicited harassment calls
Ira	White	1435 sw 18th St	Pendleton	OR	97801	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. Robo calls are a distracting disturbance and need to be stopped or at least limited.

Fanette	Stewart	621 East 40th Avenue	Spokane	WA	99203	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. I PAY for my cell phone calls and I do NOT want to pay for unwanted and sales calls.
David	Edwards	291 Limerick Ave	EUGENE	OR	97404	This being a form letter does not negate the fact that it represents my feelings. Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone.

Gerald	Kelly	1137 18th St.	SANTA MONICA	CA	90403	Robocalls are used for harassment and intimidation, acts of psychological violence. Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone.
Timothy	Beitel	Villa Avenue	PITMAN	NJ	8071	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. Thank you for providing the public with the opportunity to voice their concerns.

Emily	Van Alyne	6749 Whitestone Street	West Richland	WA	99353-7405	I can't even tell them because it's a robot and it is just eating up my minutes! Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone.
Reverend Sandra	Mackie	335 Ridge Ave	Gettysburg	PA	17325	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. I work at home and I am sick of constant interruptions from these robocalls.

G	Caviglia	PO Box 1954	MORGAN HILL	CA	95038	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector, total. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. These proposed rule changes should also be applied to land line phones.
Laura	Horowitz	6544 Darlington Rd	Pittsburgh	PA	15217	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. Taking out a loan should not leave you open to endless invasion by robocalls.

Cathy	Hardymon	12562 Garnet. St.	Garden. Grove	CA	92845	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. Mandy's the day when I get 18 to 20 of these calls which is intolerable.
Mary	Luketich	78620-4281	DRIPPING SPRINGS	TX	78620-4281	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. Its out of control. Please do something before it gets worse. Thanks.

h	hawkins	21 west oregon av	PHOENIX	AZ	85013	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. Thank you so much for your time and consideration of this issue. Rex
sherry	lewis	PO Box 31331	Santa Fe	NM	87594	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. It's not just debt collectors but all robocalls should be eliminated.

Ed	Sutton	2823 W 27 AVE	Stillwater	OK	74074-2252	Stop solicitors from monopolizing the phone service I have paid for! Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone.
Carlin	Wenger	4804 Winsford Road	Harrisburg	PA	17109	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. It is imperative that the FCC take this action to protect consumers.

Camille	Hall	7175 NW Mountain View Drive	Corvallis	OR	97330-9118	As a person who has received far too many purported financial services robocalls, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In addition to supporting strong robocall controls, I support the requirements that calls only be permitted to be made to the debtors themselves, not to family and friends. I strongly support the requirement that callers be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I urge the FCC to limit the number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone.
William	Boggan	228 2nd Ave SE	ATLANTA	GA	30317	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. It is time to stand with us, the people, and abandon the predators.

L	Nelson	PO Box 1954	Morgan Hill	CA	95038	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. These changes should also apply to robocalls made to land line phones.
Claudia	Gibson	169 Cascade Dr., 94930	Fairfax	CA	94930	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. I'm 70 & they're 40 & 41- And they still call me! It's harassing

greg	nichols	p. o. box 1213	Lawrence	KS	66044	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. Nothing as irritating, time-wasting, and useless as these calls.
Pamylle	Greinke	P.O. Box 456	Southold Town of	NY	11958	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. ALSO - we with landlines deserve protection from ALL robocalls !

Richard	Koda	409 Main Street	Ridgefield	CT	6877	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. This is unacceptable. Thank you for considering this letter.
Peggie	Feddersen	401 Elm St	Raleigh	NC	27604	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. If people could earn a living wage, they could pay their debts.

Maria Celia	Hernandez	54 Orleans St. Apt. 317	Boston	MA	02128-2142	To The Federal Communications Commission With due respect , Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone.
Richard	Lutes	23670 McAllister St	Southfield	MI	48033	I support the requirements that robocalls to debtors will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned number, will be allowed. In addition, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. Although I am not a debtor, I find all robocalls to my home to be a useless harassment. I never ask for or respond to these calls, but usually I have no way to stop them from recurring. Limiting robocalls to debtors is a good first step to cleaning up this telephone pollution.

Vincent	Murante	512 Mayfield school Rd	BELTON	SC	29627	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. Thank-you very much, V.J.Murante
James	Brydon	1355 Bethlehem Rd.	OAKLAND	MD	21550	Robocalls, by nature, are a violation of our civil rights. Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone.

Wendy	Emlinger	11432 Lake Nasser Dr	EL PASO	TX	79936	No one likes being disturbed by robocalls and it needs to stop on all levels. Robocalls cause significant harm from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone.
Joseph	Ostrow	P. O. Box 250	Belvedere Tiburon	CA	94920	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. Consumers need strong protection from robocall harassment.

Lewise	Busch	750 Weaver Dairy Rd. 1223	Chapel Hill	NC	27514	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their phone. If you received this number of calls,think how you would feel.
James	Rice	1807 Kansas	BAYTOWN	TX	77520-6315	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. This has been a problem for too long. Please take action!

Ruth	Potts	405 Cedar Grove	EDGEWATER	MD	21037	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. And that may then cost more money they already can't pay.
Robert	Whitney	5231 S Lake Dr Apt 2	United States	WI	53110	[Just more boilerplate, but I believe in the cause.] Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone.

c p	saul	711 Amsterdam AV	NY	NY	10025	Because of significant harm caused by all robocalls but especially from debt collectors, I am very supportive of the FCC's proposed consumer protections proposed by the FCC in this area. In particular, I support the following requirements: --that calls may only be permitted to be made to the debtors themselves, not to family and friends --that callers will be required to honor a request for the calls to stop --that only one wrong number call, such as to a reassigned numbers, will be allowed. I have a further suggestion. In order to protect consumers from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this imposed limit, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone.
Duncan	Duchov	32 Mechanic St	Winchester	NH	3470	Because of the harm caused by robocalls from debt collectors, I am supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends, that callers will be required to honor a request for the calls to stop, and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I encourage the FCC to limit number of robocalls or texts to three calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. Thank you very much for your attention and your consideration.

Brian J.	Barrett	441 Lotus Lane	Glenview	IL	60025	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. And, I don't want to pay and subsidize corporations.
philip	Rich	400 Hudson Ave. #117	Albany	NY	12203	Because of the significant harm caused by robocalls from debt collectors, I am supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be allowed to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with many federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. I dislike being interrupted by these annoying calls. Thank you.

Michelle	Mehlhorn	6359 Kensington Ave.	Richmond	CA	94805	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. I'd like to just be able to answer my phone again.
jon	longsworth	jon@longsworth.com	Aptos	CA	95001	I AM JON LONGSWORTH AND I APPROVE THIS MESSAGE. Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone.

Lee	Schondorf	678 Charles St	Yoncalla	OR	97499	Politician Corporate Shills must be imprisoned! Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone.
Dee	Halzack	318 Pawtucket St	Lowell	MA	1854	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. And many of them will be charged for those calls.

Eugene	Gorrin	2607 Frederick Terrace	Union	NJ	7083	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. To ensure that consumers are protected from a barrage of calls, I respectfully recommend that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. Thank you for considering my comments.

In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. Or can we expect visit with a baseball batâ€¦?

June	Lovejoy	1634 9th St N	FARGO	ND	58102	ROBO CALLS ARE A NASTY FORM OF INTIMIDATION. Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone.
Carol	Fletcher	1331 S Zeeb	Ann Arbor	MI	48103	I have been harassed by unwarranted robocalls. Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone.

Donna and Ken	Bubb	7450 S Eastern Ave Unit 2094	Las Vegas	NV	89052	Because of the significant harm caused by robocalls from debt collectors and the pain in the butt harassing for no reason, we support the consumer protections proposed by the FCC in this rulemaking. In particular, we support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, we suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone.
V.	Webster	Silver Saddle	LAMY	NM	87540	Robocalls often take the form of harassment. Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone.

Donna	Murphy	2134 NE 37	Portland	OR	97212	These calls worsen the mental health of people at the receiving end of the phone which is also paid for by that person! I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone.
Kristen	Soothill	1444 SW 27th Ct	Ft Lauderdale	FL	33315	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone, including Sundays, holidays and at 8:00am!!!

Kathleen	Hopkins	671 Vernon Street 101	Oakland	CA	94610	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. These robocalls are stressful and excessive!
Nancy	Warlick	1221 Falcon Dr.	Orlando, FL	FL	32803-2208	I'm so tired of getting so many robocalls. Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone.

Linda	Hubbard	PO Box b70069	Pasadena	CA	91117	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. Thank you for your consideration.
Valerie	Heinonen	205 Ave C	NY NY	NY	10009	Because of the significant harm and pressure caused by robocalls from debt collectors, I support the consumer protection proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I further suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could receive some 30 to 45 robocalls a month to their cell phone. Robocalls are very annoying as well.

David	Whelchel	725 SE Derby Street	Pullman	WA	99163	I endorse the following comments. Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rule making. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone.
Regina	Hamaker	415 S Farmer	Princeton	WI	54968	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone, or even their place of employment

Joyce	Lewis	3084 Galena DR	Camano Island	WA	98282-8226	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. SICK SICK SICK OF ROBOCALLS!!!
A.J.	Averett	4585 68th St.	La Mesa	CA	91942	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rule-making. In particular, I support the requirements that calls will ONLY be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of intrusive calls, I suggest that the FCC limit the number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. Thank you.

Tiffany	Snyder	175 South 35th Street Boulder CO	BOULDER	CO	80305	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned number, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone, and paying the accompanying fees.
CAROL	HEMING WAY	420 North Ontare Road	SANTA BARBARA	CA	93105	Protect my from robocalls!!! Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone.

Anthony	Baldwin	95 Pardee St Fl 2	New Haven	CT	6513	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. Tony Baldwin New Haven, CT
sandra	stein	11 Cornell Walk	Ithaca	NY	14850	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. Please do not let this happen.

Quinta	Wilkinson	5278 Professional Dr	WICHITA FALLS	TX	76302	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. All ROBO calls should go! In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone.
Susan	Lupton	302 W. Main St.	Durham	NC	27701-3216	Please address this problem! Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone.

Bonnie	Rudolph	5364 Arroyo St.	COLORADO SPRINGS	CO	80922	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. Sincerely, Bonnie Rudolph
Alex	Oshiro	1508 Pensacola St. Apt. #309	Honolulu	HI	96822-5824	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. Make robocalls illegal.

arlene	merryman	2951 derby st.	berkeley	CA	94705	Please cease the robocalls.Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone.
Mariann a	Tomasino	178 Jersey Ln	Staatsburg	NY	12043	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. Please assist consumers.

Thomas and June	Esposito	897 E York Way	Sparks	NV	89434	Because of the significant harm caused by robocalls from debt collectors, we are extremely supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, we strongly support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, we also suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone.
Paul	Mayer	108 Rainbow Dr #825	Livingston	TX	77399	NO ROBOCALLS, EVER. Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone.

alvaro	garza	1721 morning dove circle	modesto ca	CA	95354	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned number, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. And that isn't right.
Lynne	Treat	674 NE Franklin Ave	Chehalis	WA	98532	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per account service associate or debt collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone.

Ed	Maas	28758 Glenwood	Flat Rock	MI	48134	Because of the significant harm caused by robocalls from businesses and debt collectors alike, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone.

In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone. I AM SO TIRED OF THESE CALLS!
Wanda	Willey Halpin	219 N Main St	Milbridge	ME	04658-3413	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rule-making. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per service provider or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone.
Nancy	Thompson	1740 Central Ave	WHITING	IN	46394	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit the number of robocalls or texts to three calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone.

PAUL	YODER	5541 E HWY 126	CUBA	NM	87013	Stop robocalls from debt collectors. Because of the significant harm they cause - immense volumes of harassment - I support the consumer protections proposed by the FCC. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone.
Bonnie	Earls-Solari	171 West Bowling Green	Port Hueneme	CA	93041	Because of the significant harm caused by robocalls from debt collectors, I am extremely supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone.

Jacqueline	Carter	1207 Mackie Dr	Carrollton	TX	75007	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone.
Mary B.	Schneider	3 Tioga St.	ELYSBURG	PA	17824	Because of the Grate significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone.

Roberta	Richardson	11647 Brook Road	Golden	CO	80403-8585	Because of the significant harm caused by robocalls from debt collectors, I am extremely supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone.
Timothy	A. Spong	75 Sunset Ave	HOUSTON	DE	19954	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong-number call, such as to a reassigned number, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit the number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phones.

Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone.

Henry	Weinberg	835 Puente Dr	Santa Barbara	CA	93110	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone.

Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone.

David	Harralson	3629 Lakershim Blvd	Hollywood	CA	91604	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone.

Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone.
Erica	Schmitt	665 Overhill Dr	Hayward	CA	94544	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone.

Brian	Jeffery	59 Washington Street #325	SANTA CLARA	CA	92592	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone.

Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone.
Greg	Tomlin	2087 ascot dr	MORAGA	CA	94556	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone.

Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone.

Barbara	Harper	13535 Agua Dulce	Castroville	CA	95012	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone.

Lalena	Butler	26365 Only Court	Cornelius	NC	28031	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone.

Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone.
Daniel	Bryan	1475 Main St	INDIALANTIC	FL	32903	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone.

Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone.

Jennifer	Waters	PO Box 26347	Tempe	AZ	85285	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone.

Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone.
Mari	Mcshane	333 Lucille St	Pittsburgh	PA	15218	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone.

Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone.
george	courtney sr	1040 quail hollow rd	MARATHON	NY	13803	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone.

Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone.

Sarah	Barton-King	1 East 93rd Street	New York	NY	10128	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone.

Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone.
Wade	S		2 MINNEAPOLIS	MN	55455	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone.

Sycamore Ave	Orange	CA	92866	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone.

April	Hutt	8182 W. Louisiana Place	DENVER	CO	80232	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone.

In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone.

Carol	Carson	13343 mt castle dr	DALLAS	TX	75234	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone.

Chad	Nester	812 Helen St.	Wapakoneta	OH	45895	Because of the significant harm caused by robocalls from debt collectors, I am very supportive of the consumer protections proposed by the FCC in this rulemaking. In particular, I support the requirements that calls will only be permitted to be made to the debtors themselves, not to family and friends; that callers will be required to honor a request for the calls to stop; and that only one wrong number call, such as to a reassigned numbers, will be allowed. In order to ensure that consumers are protected from a barrage of calls, I suggest that the FCC limit number of robocalls or texts to 3 calls per servicer or collector. Without this limitation, consumers with multiple federal loans could be receiving between 30 to 45 robocalls a month to their cell phone.
