I am a ~~satellite TV~~ subscriber. It is my understanding that we could lose our programming because of some new regulation.

We live in a mountainous area in Middle Tennessee appropimately 75 miles from Nashville which is the nearest "local" station to us. I have lived here all my life (50 yrs) and have never had good reception, especially of CBS. We tried every ~~att~~ antenna + booster ~~of~~ available to no avail. If we could receive programming without paying for it, believe me we would.

Also, we live in an unpopulated area where we have no access to cable + have been told we never will.

Please help us keep our programing

Sincerely,
Wynette Ballard
