RECEIVED DEC 31 1998 FCC MAIL ROOM

I was a radio ameteur in CUBA for many years, my call letters were CO2VI

I continue to keep in touch with all that is related to amateur RADIO and continue to monitor the bands.

I wish to express my opinion that based on the present technological advances I do not think that a Code Examination should be required for new Amateurs however they should pass a technical examination in accordance to the entry level for which they are aplying

I believe this is the only way we will be able to increase the number of new RADIO AMATEURS
