The proposed merger of Echostar and Direct TV is NOT, I repeat NOT in the Public interest. You must NOT, I repeat, NOT okay approve This merger. It is NOT in the best interest of the consumer.

Echostar is a 2nd rate outfit. Direct TV is the cadillac of Satellite TV companies. This merger is against all Anti Trust laws. It's NOT good! I can readily see where Mr Ergen covets Direct TV. He has always promised alot, but usually can't deliver on his promises. That's what worries me. I personally don't like him.

Please Do not approve This merger Please
