**WC Docket No. 10-90**  
**WT Docket No. 10-208**

The Rural Broadband Auctions Task Force (Task Force), in conjunction with the Wireline Competition Bureau and the Wireless Telecommunications Bureau (the Bureaus), today provides the fifth update about the Mobility Fund Phase II (MF-II) challenge process. As of September 30, 2018, a total of 105 entities have access to the Universal Service Administrator Company (USAC) MF-II Challenge Process Portal to participate in the MF-II challenge process. Of these entities, 38 are mobile service providers required to file Form 477 data; 19 are state government entities; 26 are local government entities; 16 are Tribal government entities; and six are other entities that have filed petitions requesting, and have each been granted, a waiver to participate.<sup>1</sup> While the number of speed tests on file varies on a daily basis, given that participants can add, remove, and reupload data files during the filing window, a total of over 6.6 million speed tests have been submitted during the course of challenge process.<sup>2</sup>
