Dear Mr. President,

You sure made one damn fine move putting Kevin Martin on the F.C.C.

Chairman Powell was on the right track untangling the telecom. mess in this country. Martin siding with the democrats to continue forcing the Bells to provide facilities to competitors below cost just about destroys our telecom infrastructure and is confiscation.

You will now have no investment this backs up into the providers such as Cisco, Ciena, Lucent etc.

What a disaster one man can create.

As ever, yours truly

Ted Simis

Dear Governor Bush.

The enclosed letter to President Bush tells it all.

Your Florida Public Utilities Commission has stipulated lease rates to competitors of Verizon which are below actual fully distributed or fully allocated costs to Verizon.

As a Verizon shareholder I hold that is confiscation of my property.

I intend to pursue this legally.

Very truly yours

T. Simis
