To Whom it May Concern,

I am deeply troubled that the FCC is thinking of changing the OTARD rule to allow wireless companies to install their powerful antennas on private homes and apartment buildings across the country.

The placement of these antennas subjects nearby residents to 24/7 radiation exposure without their consent. Chronic exposure to RF microwave radiation has been proven to cause an array of human health problems, including cancer.

I am requesting that the FCC not change its OTARD rule for the sake of public health and the preservation of local and state rights.

Thank you.

Sincerely,  
Judy Tsafir MD
