My experience with Trader Publishing is great. I enjoy the opportunity that is given to me to assist people in fulfilling their goal of selling his/her vehicles/merchandise. I get a great satisfaction from providing good customer service.

The products that are offered to our customers are something that I believe in and feel comfortable and secure in selling the packages that Trader Publishing has to offer.

Trader Publish is great place to work. Working here allows me the flexibility & financial support to continue working on my degree and also to provide the necessary financial support to feed & clothe my children while allowing me the opportunity to continue my degree. If I did not have the job I would not be able to complete my degree nor support my self or my children.

I Milagros Nido Burgos Residing at 604 Central Circle Apt #105, Orlando, FL. 32825 and work at Trader Publishing Company at 1615 A Herdon Ave, Orlando, FL. 32803.

My experience at Trader Publishing Company so far has been a Career Change that has benefited my Life style as a Single Mom. I work just enough hours to still be home in time to spend with my Son. Coming from the administrative assistant Position to a telemarketing environment has improved my Communication Skills and the Services that this Company provides are well welcomed by the Customers who are being targeted.

My initial hesitation was the Concern that Prospective Customers would be annoied and that I was not sure if I could actually be able to support myself and Son. Well My experience so far has been that Customers not only welcome the Call but are at times glad because they were thinking of Calling. The Product that Trader provides is more of an assistance Customers are glad to get.

I am able to financially support my Son and I with part time hours but full time Pay. I get to spend time with my Son even though I work daily the hours allow me to be positively active in his well being with out jeperodizing my financial Stability —

I am greatful that I choose to take a chance to change Career Paths at this time in my life the benefits have been very Positive If for some reason I were to loose this Particular job at this time in my life the ramifications long term will effect my child and his stable environment. I would have to be away for longer Periods of time not to mention the additional expenses of Child Care, travel and hours away from Home. My expenses would increase and the financial circumstances would vary greatly. Not to mention the Possible Long term Effects to my Son. Time away from him I could not replace.

I am a Senior citizen and I enjoy my job very much. It enables me to pay my bills and maintain my home. Trader Publishing Company is a good company. Very fair and helpful for its employees. The service I offer is helpful to many people. The people who use our service are from varied backgrounds. And our prices are very reasonable.

My job is very important to me. I have enough income to maintain a home for my family, our animals, and myself. I am not on welfare.

Should I lose this job, I would apply for unemployment. This would take tax dollars.

The product and services that I sell to the people that I call are helping to keep the economy semi-stable and the customers are mostly obviously satisfied because most of them return.

My job helps me by providing a secure stable position and income without it I would be at the unemployment [illegible] for sure.

If I would lose this job my economic situation would become greatly unstable and I would possibly lose my home.

Auto Trader is a company that provides a service that people need, day in and day out. People needing to sell their cars want to do so quickly and efficiently. The easiest way to do that is to advertise, and we provide that service. Contacting future customers by the telephone is the easiest and most efficient way of informing them of what we provide. Most times, upon hearing about what we do, they are glad they were contacted.

Trader Publishing has provided me with a living and a good way to support myself. I've been able to consider seriously other opportunities to expand my well-being, like going back to school and other opportunities, that wouldn't be there without my employment at Trader.

Losing the job at Trader would not only sever those opportunities, but mean starting all over again to build a life.

Working at Trader Publishing, I feel comfortable helping customers with a excellent service to help them sell their cars, boats, trucks, rvs, and items that would be another persons treasure. Most of the consumers we offer feel very pleased when they get a call from Auto Trader or the Bargain Trader. The customers are happy that we got a hold of them before they called us. Working at Auto Trader aids me paying my college tuition @ UCF pay rent, and also pay my car payment. My job at Auto Trader is very important because it earns money for me to be productive, and has a very great hours for me to work. Trader Publishing is a great company that has been around for many years that services people with a great service, if I didn't have this job, I wouldn't be able to pay for college to earn my degree in psychology, also I wouldn't be able to pay my car note or rent. This is a great job that offers flexible hours that allows me to go to school and also make a living for myself.
