To FCC Commissioner
Michael J. Copps

I am writing for freedom & justice for the press. We now have media monopoly, that goes far beyond tor for the people.
The censored "Clear channels" (radio) are complete pragan-~~ganda~~, concerning human rights & abuses.
With deregulation & wide-spread popular opposition will be complete monopolies
"Media is a part, a major part, of the entire "Game" being plied against the world hurt."
James Madison said: "You can have an empire or a republic — but you can't have both."

Sincerely, I am

EX PARTE OR LATE FILED 02-277

April 7,2003

Dear Mr.Copps:

I am indeed greatly concerned by the efforts of the media monoply to grab still more control over the nation's newspapers and TV and radio stations.

There are very few indedendent operators still in the business.Bill Morsers had a program on this subject on WTTW-TV yesterday,and the American Free Press in their March 31st edition gave a good deal of space,to include their address.

I want you to know that I share your concerns,and I hope that you will continue your efforts on behalf of those of us who still value our freedom and independence.

Cordially,

Andrew B. McAllister
