Dear Mr. Powell,

It has come to my attention that the FCC may intend to add USF fees to the cards I now purchase for a Trac Fone. You need to know that many of us senior adults have this phone strictly for "local emergencies". It is the most economical by monthly fee, but the actual price per minute is so costly, we Never use it for interstate calls. We pick up the landline for interstate calls, one on which we're already paying USF fees.

Please don't burden seniors with another tax on our emergency Trac Fone.

Sincerely,
Blanche Williams
