Gentlemen;

Last night on Ore. Public Ch 10, I heard an interview of Mr. Copp By Bill Moyer

I object to the Loosening of Rules allowing the media to stifle competition

I Really appreciate Mr Copp's Efforts to make the American people aware of this very important issue

I feel your Final Decision of next month should Be postponed until it is thoroughly aired & Discussed By the American People. The Air waves Belong to us, the American People

Sincerely, Edith Brooks
