SUNSHINE PERIOD

Congratulation's on your de-regulation of Networks. It has been long in coming. Too many organizations have purchased one by one radio stations a.T.V. networks only for the purpose of making billions tax free and monopolizing the media.

Confirmed
JUN 12 2003
Distribution Center

I think networks should only allow by individual owners. No one person should be allowed to own more than one network. When someone owns several there is no control of their actions. F.C.C should govern who owns no cross ties to relations or groups purchasing networks as a monopoly

The internet is beyond control. It should have been censored from day #1.

To many people are harvesting billions both legally & illegally & should be stopped dead in their tracks.

T.V. was meant to be informative for news & entertainment. Now it is run by big business of selling junk, scams, rip offs, phoney enterprises that do not make money for anyone except its owner.

Commercials dominate T.V. 90% 10% for entertainment.

What entertainment slips through is disgusting, garbage no talent time consuming.

Shows like Jerry Springer, Ricky Lake, Maury Povitch, Montel & Jenny Jones are a disgrace to viewers Judge shows are stupid and only show the low classes problems Even cartoons are not funny any longer. T.V. holds very little to enjoy & yet the charges for cable & satellite keep getting raised. Some people will rebel & cancell cable & satellite & just rent good Video's & (no commercials at all) & use a radio for news. We do not networks who sit in their

fancy offices & laugh at us all the way to the bank. Will we ever paying for what they do not give us.

People do not catagorize programs by race but is it asking to much to expect talent from everyone who appears on T.V.? If it were not for the old Classics, Like Sanford & Son, Mr. Ed, Andy Griffith Gomer Pile, Lucy & ect what would we have nothing. New Producers & directors can't make good shows as any good movies Like Gone With the Wind, Oklahoma South Pacific. Now some one does a nude scene & they get an Oscar. Its not fair to us at home.

Give them Hell Michael the viewers are beyond you. Its about time the networks got some flack!

Sincerely yours.
