Dear Mr. Copps,

Thank you so much for raising the issues around the June 2nd vote on media ownership. I object to the increasing monopolization of the airwaves and fear their long-term effects. The public doesn't seem to understand that they own the airwaves, and I like the idea of more town-hall meetings and an extension of the deadline for the June 2 vote. Thank you for your leadership on this issue

Dear Mr Powell:

I object to the increasing monopolization of the media. The public needs to have its interests protected and served, and we need more town hall meetings to inform the public. Please include the owners of the airwaves, the public, in pursuing these important matters, even if that means putting the June 2 vote back to a later date. This will affect Americans long-term. We deserve due consideration.

Thank you.

Judith Sime
