Re: Lifeline and Link Up Reform and Modernization, WC Docket 11-42, WC 09-197, WC 10-90

Dear Ms. Dortch,

The California Emerging Technology Fund (CETF) is filing these comments in the public record on behalf of consumers who, from our website, sent an email with the comments, to each Commissioner and asked for it to be part of the public record. The consumers' name, city, and state are attached and email addresses are available on request.

Comments for the Public Record

We urge you to enact a Broadband Lifeline Program to augment the existing program so that all low-income families and households can afford Internet service at home to harness the power of technology to help them escape concentrated and persistent poverty.

The 5 recommendations below will do this because they address the 3 primary barriers to broadband adoption: (1) Cost; (2) Relevance; and (3) Digital Literacy.

1. Require all Internet providers to offer an affordable high-speed Internet unbundled service with a wi-fi router in the range of $10/month. The Broadband Lifeline Program should augment the Telephone Lifeline and not force consumers to choose between the two necessary technologies and programs.

2. Establish a streamlined national process for third-party verification of eligibility.

3. Capitalize an independent fund with proportionately-fair contributions from Internet providers to award performance-based grants to non-profit community organizations, schools and libraries (as the "trusted messengers") for outreach, digital literacy training and assistance in signing up low-income customers.

4. Authorize and encourage states to implement their own statewide broadband lifeline initiative to complement and augment the FCC program.

5. Focus on results with specific numeric goals for broadband adoption that are monitored by an oversight advisory council.

It is wiser to invest a little today than to condemn another generation to being stuck on the wrong side of the Digital Divide without 21st Century tools to tackle the wall of poverty and become self-sufficient. Please support these recommendations to give everyone a fair chance at America's opportunities.

There are 64,417 people to date who have sent this message from across the country. For the record CETF has previously sent letters on behalf of consumers related to this proceeding.

Letter Number	**Submission Date**	**Number of Comments**
CETF Letter 1	October 15, 2015	10,000
CETF Letter 2	October 17, 2015	10,368
CETF Letter 3	October 18, 2015	10,000
CETF Letter 4	October 19, 2015	12,024
CETF Letter 5	October 21, 2015	10,000
CETF Letter 6 (this)	October 22, 2015	12,025

The list of 12,025 consumers represent the diversity of the country is attached.

Sincerely,

Susan E. Walters
Senior Vice President
California Emerging Technology Fund
