CHECK the boxes below to note compliance on its five year service quality plan (pursuant to 47 CFR § 54.202(a)) and, for privately held carriers, ensuring compliance with the financial reporting requirements set forth in 47 CFR § 54.313(f)(2). I further certify that the information reported on this form and in the documents attached below is accurate.

(3010) **Progress Report on 5 Year Plan**
Milestone Certification {47 CFR § 54.313(f)(1)(i)}

Name of Attached Document Listing Required Information

(3011) ☐

(3012) Community Anchor Institutions {47 CFR § 54.313(f)(1)(ii)}

Name of Attached Document Listing Required Information

(3013) Is your company a Privately Held ROR Carrier {47 CFR § 54.313(f)(2)} (Yes/No) ☐ ☐

(3014) If yes, does your company file the RUS annual report (Yes/No) ☐ ☐

(3015) Electronic copy of their annual RUS reports (Operating Report for Telecommunications Borrowers) ☐

(3016) ☐

(3017) If the response is yes on line 3014, attach your company's RUS annual report and all required documentation

Name of Attached Document Listing Required Information

(3018) If the response is no on line 3014, Is your company audited? (Yes/No) ☐ ☐

If the response is yes on line 3018, please check the boxes below to confirm your submission, on line 3026 pursuant to § 54.313(f)(2), contains

(3019) Either a copy of their audited financial statement; or (2) a financial report in a format comparable to RUS Operating Report for Telecommunications ☐

(3020) ☐

(3021) ☐

If the response is no on line 3018, please check the boxes below to confirm your submission, on line 3026 pursuant to § 54.313(f)(2), contains:

(3022) Copy of their financial statement which has been subject to review by an independent certified public accountant; or 2) a financial report in a format comparable to RUS Operating Report for Telecommunications Borrowers, ☐

(3023) Underlying information subjected to a review by an independent certified public accountant ☐

(3024) Underlying information subjected to an officer certification. ☐

(3025)

(3026) Attach the worksheet listing required information

Northern New England Telephone Operations LLC New Hampshire
125113

Line 510: Service Quality Reporting/Consumer Protection Rules Compliance

Northern New England Telephone Operations LLC, hereby certifies that it is complying with applicable service quality standards and consumer protection rules. The Company complies with service quality and consumer protection provisions under state law. These provisions may include, but are not limited to, the following: (1) maintaining a publicly-accessible website which discloses rates, terms and conditions of service to customers in accordance with New Hampshire requirements; (2) compliance with state consumer protection provisions relating to Customer Services as identified in the Code of State Regulations, compliance with provisions for Quality of Service as identified in the Code of State Regulations, compliance with Service Objectives as identified in the Code of State Regulations, compliance with customer Inquiry procedure as identified in the Code of State Regulations, compliance with Dispute standards as identified in the Code of State Regulations; (3) compliance with truth-in-billing requirements; and (4) compliance with Federal CPNI rules, Red Flag Rules and other applicable federal and state requirements governing the protection of customers' privacy.

In establishing this certification in its *2005 ETC Order*,[1] the FCC found that an ETC must make "a specific commitment to objective measures to protect consumers." [2] The Commission found that for wireless ETCs, compliance with CTIA's Consumer Code for Wireless Service would satisfy this requirement and that the sufficiency of other commitments would be considered on a case-by-case basis. In this context, the FCC stated, "to the extent a wireline or wireless ETC applicant is subject to consumer protection obligations under state law, compliance with such laws may meet our requirement."[3]

Northern New England Telephone Operations, d/b/a/FairPoint Communications does not have any service quality reporting requirements with the New Hampshire Public Utilities Commission. The telecommunications industry was largely de-regulated on retail services in 2012, and for providers electing to file their entity as an Excepted Local Exchange Carrier (ELEC), the service quality metrics, amongst other requirements were eliminated.

If a customer has a concern about their FairPoint Communications' service or billing, he/she can contact repair service, technical support or customer service with information found on their statement. Customers may also contact agencies, through information posted in the phone directory, website, and tariff pages. All consumer complaints whether from Attorney Generals' offices, Public Utility Commissions, Better Business Bureaus, Federal Communications Commission and all other agencies are sent to the FairPoint Communications' Maine office via U.S. Mail or by electronic mail at consumer@fairpoint.com. the complaints are directed to the appropriate responsible Company Team member within FairPoint Communications for resolution and response to the customer.

Business Continuity Plan Overview

Introduction

FairPoint Communications, Inc. ("FairPoint") is committed to maintaining a vigilant state of disaster preparedness for the interests of our customers, stockholders, employees and other critical stakeholders.

The purpose of our Business Continuity Plan ("BCP") is to define the disaster preparedness and recovery protocols and procedures required to restore FairPoint's critical business support functions, inside and outside plant systems and operations within FairPoint's operating footprint.

BCP components detail FairPoint's procedures for preparing for and responding to an emergency situation affecting our ability to deliver core services to our customers and our ability to meet legal dictates, and regulatory requirements.

This document discusses the following:

- BCP Scope
- BCP Components
- Plan Maintenance

BCP Scope

FairPoint's business continuity response planning is concentrated on two critical operational areas:

- Customer Interfacing – It is recognized that a "business impact" only occurs when an *external-interfacing* element is disrupted. In essence, this means that if FairPoint experiences a disruptive event, but one that does not breach the outer-shell of the FairPoint operation and interrupt critical customer services, customer product or other external end-user, then it does not have a business impact, as defined by the BCP
- Infrastructure Integrity – Without critical infrastructure systems, the ability for all other FairPoint business operations (back / front office) can come to a halt. It is these infrastructure systems that provide the critical human-factor of our customer-interfacing services. Critical infrastructure would address such services / systems as, building space for staff and equipment, service utilities, telecommunications and data network, IT network, and related infrastructure based items.

The BCP has been developed to assure the continuity of critical customer interfacing services and systems should a physical incident or workforce disruption event occur, which affects:

- Information Technology ("IT")
- Administrative and Support Operations
- Inside and Outside Plant Operations
- Network Operations Center ("NOC")
- Enhanced 9-1-1 ("E-911")
- Dispatch
- Repair Center

FairPoint has developed response / recovery strategies addressing physically disruptive incidents and workforce related disruptive incidents. All response strategies are based on recovery time objectives of those department functions and critical infrastructure systems essential to sustain customer interfacing services.

FairPoint Communications
1 Davis Farm Road
Portland, ME 04103

BCP Components

The BCP consists of several components:

- Operational Preparedness for Expected Events (i.e. weather related events)
- Event / Crisis Communication Plan
- Redundancy Mapping
- Department Recovery Plans
- Information Technology Continuity Plan

The following is a brief summary of the plan components.

Operational Preparedness for Expected Events

Weather events such snow, ice and wind can negatively impact power and communications infrastructure. While this threat cannot be eliminated, FairPoint takes steps to mitigate a storm's impact through preparedness and response. Steps include:

- Pre-event planning based on information provided by National Oceanic and Atmospheric Administration **("**NOAA"**)**
- Coordinate planning and recovery efforts through state emergency management groups
- Engage supply chain vendors to delivery additional stock prior to the expected event
- Inspect, test and fuel emergency generators in anticipation of a power outage
- Reallocate / relocate staff in order to respond to the pending event

Event / Crisis Communication Plan

Communications is a key element to respond and recover business operations. Event / Crisis Communications are facilitated by FairPoint's Risk Management Team who assume the role of incident command from the onset of the event until normal operations are resumed.

FairPoint uses a dual level communication strategy as part the Event Communication Plan. The primary level is the workgroup comprised of both employees and vendors that are directly involved in the recovery work. The secondary level consists of internal interested parties made up of our Strategic Leadership Team. The role of the secondary level is to facilitate communications both internally and externally regarding the event and our path to response and recovery. For 2014, FairPoint has partnered with SunGard and will be deploying a hosted event communication platform in order increase our speed and reach of communications during an event.

Redundancy Mapping

The process of redundancy mapping reviews operations within the FairPoint organization to identify alternate facilities and work locations that can be used in the event a primary location is not accessible. Given the geographic spread of FairPoint's Northern New England footprint, capabilities exist to relocate operations from event impacted areas. Through the mapping process, FairPoint is able to identify single points of failure and develop alternative work processes.

Department Recovery Plans

Each department has developed a recovery plan based on its critical operations as they pertain to the deliverables they contribute to our customers. FairPoint has triaged the recovery efforts based on the concept of customer servicing impact. Federal and State regulatory requirements, along with E-911 needs, have a high level of consideration in addition to the business impact concerns. The BCP goal is to minimize the disruption duration as much as is practical and provide a level of risk mitigation that will maintain critical operations. The recovery plans are built around a 24hour to 72hours response plan. This methodology

FairPoint Communications
1 Davis Farm Road
Portland, ME 04103

focuses on the immediate steps that need to be taken to recover functional operations within short duration events (less than 24 hours) and well as long term plans to maintain functionality during an extended event (up to, or greater than 72 hours).

IT Recovery Plan
L ke most operations, FairPoint is dependent on an IT infrastructure to conduct business and serve customers. Because of its importance, FairPoint has a continuity plan established specifically for IT operations. The IT continuity plan addresses security and access control of data sites, onsite / offsite data backup methods, processes for sequencing of system(s) recoveries and ultimately the use and execution of our established Disaster Recovery Site located outside the FairPoint footprint.

Plan Maintenance and Exercising

The BCP is a so called "living" document. Updates to the plan are ongoing with changes incorporated annually at a minimum. Individual plan components are reviewed with oversight from FairPoint's Risk Management Team. In 2013, FairPoint began the process of migrating the BCP onto a cloud based solution which will allow access to the plan components from any computer, smartphone and tablet.

FCC FORM 481

Line 1010 – Voice Service Rate Comparability

The pricing of the company's voice service rate is no more than two standard deviations above the applicable national average urban rate for voice service, as specified in the most recent public notice, FCC DA15-470 released on April 16, 2015.

For Rates See Attachment: (700) Company Price Offerings (voice)

Form 481 Line 1210- Terms & Conditions for Lifeline Customers

Northern New England Telephone Operations LLC in New Hampshire provides a Lifeline Program discount for residence service for eligible low income customers. The Lifeline Program discount is applied to any month to month residence local service, package or bundle offering. The discount is intended to offset the Subscriber Line Charge and local line charge, although eligible packages and bundles may have toll calling included in the pricing for the offering.

The New Hampshire Retail Catalog pages outlining the terms of the Lifeline offering in Northern New England Telephone Operations LLC in New Hampshire is attached. The terms and conditions of residential local service can be found at http://www.tariffs.net/fairpoint/tier.asp?cid=1644.

1. Catalog Information and General Regulations

1.6 Customer Assistance Programs

1.6.1 Reserved for Future Use

1.6.2	Lifeline
A.	Lifeline is an assistance program which provides for a reduction in the monthly rate for one exchange service line per household for qualifying low income residence customers at the customer's principal place of residence.
B.	In order to qualify for Lifeline assistance, the applicant must meet one of the following certification criteria.
1.	Applicant's total gross annual income must not exceed 135% of the federal poverty guidelines.
2.	Applicant must be approved for and/or receiving aid from one of the following assistance programs:
a.	Supplemental Nutrition Assistance Program (SNAP) (f/k/a Food Stamps)
b.	Federal Public Housing Assistance
c.	Low Income Home Energy Assistance Program (LIHEAP)
d.	Medicaid
e.	Supplemental Security Income (SSI)
f.	Temporary Assistance to Needy Families (TANF)
g.	National School Lunch (NSL) free lunch program
3.	The applicant, at the time of application, must certify under penalty of perjury to be receiving benefits from at least one of the above assistance programs and identify the program(s) from which the customer receives assistance, or, if qualifying under the income criterion, present documents representing proof of total household income and certify to the accuracy of income and number of household members represented in the application.
C.	The Telephone Company will provide a credit in accordance with the following provisions.
1.	A recurring reduction of an amount equal to the End User Common Line Charge (EUCL) as per The FairPoint Telephone Companies Tariff FCC No. 1 and an additional recurring reduction applied to the monthly rate for one residence exchange service line furnished to an eligible residence exchange service customer at the customer's principle place of residence. This reduction may be applied to the monthly rate for the following services.
a.	One or two party unlimited basic exchange service
b.	Residence Measured Service
c.	Residence Measured Service Four Element (4E)
D.	The applicant, at the time of application, must certify under penalty of perjury to be receiving benefits from at least one of the above assistance programs and identify the program(s) from which the customer receives assistance.
E.	The service of an eligible customer receiving the Lifeline credit may not be disconnected for non-payment of toll charges unless a waiver of this provision is granted by the PUC.
F.	An eligible customer who elects toll blocking shall not be required to provide a service deposit to initiate the Lifeline credit.
G.	A Lifeline service customer may voluntarily choose to block toll calls and access to interexchange carriers. Blocking is provided to Lifeline customer without charge.
