Sir:

I object strenuously your consideration to permit a media mogul to add additional media types to its ownership.

These moguls control too much of what is available to me for different viewpoints in order for a more balanced choice on my part. They are so big, so wealthy, so intrusive, so demanding, so controlling, so powerful, that no one can fight them.

I want the right to have news from many sources, including the democratic viewpoint, not just the conservative side!

Do NOT permit increased control by the moguls in communication.
