In the Matter of)
)
Section 63.71 Application of) Comp. Pol. File No. _____
Grand River Mutual Telephone Corporation)
DBA GRM Networks)
For Authority to Discontinue)
Certain Services)

Pursuant to Sections 63.71 of the Commission's Rules¹ and Section 214(a) of the Communications Act of 1934, as amended,² Grand River Mutual Telephone Corporation DBA GRM Networks ("GRM" or the "Company") hereby files this application to discontinue the provision of certain local exchange services to customers that the Company serves in the State of Missouri ("Application").³ In support of this Application, GRM submits the following:

Jenni Neff
Grand River Mutual Telephone Corporation
DBA GRM Networks
1001 Kentucky Street
Princeton, MO 64673
660-748-2575
jneff@grm.net

³ As required by Section 63.71(a) of the Commission's Rules, GRM has notified and submitted a copy of this Application concurrent with this filing to the Missouri Public Service Commission, the Governor of Missouri, and the Secretary of the Department of Defense.

B. Date of Planned Service Discontinuance

GRM will discontinue certain local exchange services to its customers in the State of Missouri on or about December 31, 2017, or upon completion of all necessary federal and state regulatory approvals.

C. Points of Geographic Areas of Service Affected

Affected GRM local exchange customers are in the Company's Missouri exchanges of Parnell, Ravenwood, Conception Junction, Graham, and Laredo.

D. Brief Description of the Types of Service Affected

In the Missouri exchanges described above, GRM provides the following services which will be discontinued (collectively, "Affected Services):

1. Off-Premises Extension Service for telephone stations that require a Central Office connection due to distance from the primary line
2. Firebar Service – Central Office equipment allows for customers to dial a single telephone number which rings simultaneously to multiple volunteer Fire Department personnel, all of whom are joined to the call upon answering
3. Local Exchange Service to customers with no power source at the end user premises, either through commercial electrical power or through any other means

II. Brief Description of the Dates and Methods of Notice to All Affected Customers

Notices were sent to all affected GRM local exchange customers on September 28, 2017 in connection with October 1 billing statements. Customers who receive paper bills from GRM received written notice by method of U.S. Mail by bill message. Customers who have elected paperless billing received written notice electronically through email notification. Please reference Exhibit A which is a sample copy of the Notice sent to the affected customers. The Company deemed the bill message the most economic method of reaching its rural customers. The first page of both the paper and the electronic bills displayed text to alert customers to the important notice included with their bill in order to bring sufficient attention to the Notice.

III. Status of Carrier

GRM is an incumbent local exchange carrier and considered a dominant carrier with respect to the services that it proposes to discontinue in the State of Missouri.

IV. Circumstances of Discontinuance

The Company plans to begin network improvements through installation of fiber in the Missouri exchanges of Parnell, Ravenwood, Conception Junction, Graham, and Laredo. In conjunction with the newly deployed fiber, GRM will discontinue all of the Affected Services to customers cut over to fiber in the foregoing exchanges.

The Company's discontinuance of the Affected Services is rooted in the Company's desire to improve services to its customers through deployment of fiber facilities and will not adversely affect customers. Less than one percent of affected customers currently subscribe to distant Off-Premises Extension Service and Firebar services, and no affected customers lack a power source. GRM is directly contacting the few customers who currently subscribe to the Off-Premises Extension and Firebar Services to ensure alternative services are available to the extent feasible.

The discontinued Off Premises Extension Service that requires a Central Office connection may be substituted by installation of a second line which will allow an incoming call to ring at both the primary and secondary lines. The Firebar Service may be substituted with a similar service that provides for the placed call to ring at multiple Volunteer Fire Department numbers, and the connection made with the first person to answer the call. Firebar Service is an optional service for GRM customers, all of whom have access to 911 dialing for emergency services. These substitute services are similar in function and will be offered at similar rates to the discontinued services.

V. Certification

On behalf of Grand River Mutual Telephone Corporation DBA GRM Networks, I, the undersigned Ronald T. Hinds, Chief Executive Officer, hereby certify that the statements contained herein are true, complete and correct to the best of my knowledge and made in good faith.

VI. Conclusion

For the reasons stated herein, the Company respectfully requests grant of this Application.

Respectfully Submitted,

A handwritten signature in dark ink, appearing to read "Ronald T. Hinds", is written over a horizontal line.

EXHIBIT A

CUSTOMER NOTICE

October 1, 2017

RE: Notice of Discontinuance of Certain Services

Dear Valued Customer:

This letter is to inform you that on or after December 31, 2017, as a result of implementation of a fiber network and other network changes, Grand River Mutual Telephone Corporation DBA GRM Networks® will no longer provide certain obsolete local exchange services within the state of Missouri. Fiber optic technology has the advantage of supporting almost unlimited bandwidth and is easily upgradeable. However, fiber optic does not support services which require a power source on the circuit. The affected Missouri exchanges include Parnell, Ravenwood, Conception Junction, Graham, and Laredo. Specifically, the following services will be discontinued for customers cut over to fiber in these exchanges:

- Off-Premises Extension Service for telephone stations that require a Central Office connection due to distance from the primary line
- Firebar services
- Local Exchange Service to customers with no power source at the end user premises, either through commercial electrical power or through any other means

This discontinuance is limited to the above services and will not affect your GRM Networks® service in any other way. In addition to this notice, GRM Networks® is directly contacting customers who subscribe to an affected service.

The FCC will normally authorize this proposed discontinuance of service unless it is shown that customers would be unable to receive service or a reasonable substitute from another carrier or that the public convenience and necessity is otherwise adversely affected. If you wish to object, you should file your comments as soon as possible, but no later than 30 days after the Commission releases public notice of the proposed discontinuance. You may file your comments electronically through the FCC's Electronic Comment Filing System using the docket number established in the Commission's public notice for this proceeding, or you may address them to the Federal Communications Commission, Wireline Competition Bureau, Competition Policy Division, Washington, DC 20554, and include in your comments a reference to the §63.71 Application of Grand River Mutual Telephone Corporation. Comments should include specific information about the impact of this proposed discontinuance upon you or your company, including any inability to acquire reasonable substitute service.

If you have any questions about this notice or Grand River Mutual Telephone Corporation's discontinuance of services, please contact Jenni Neff at 800-451-2301.

We thank you for your business and look forward to continuing to serve your communications needs.

Sincerely,
Ron Hinds
CEO
