I believe — especially in our democracy that it's immoral to stifle ~~creativity~~ — as is being done — by allowing the homogenization of the media — as has happened in the malling of America. I decry the loss of the mom & pop est.

You know in your heart that slavery is the legal fiction that a person is property — and corp personhood is the legal fiction that property is a person!!!

I'm a member of WILPF, and we believe the root cause of our cultural & political problems stem from abusive corp. control

We want to abolish corp personhood!!!
