DEAR CHAIRMAN POWELL

PLEASE RECONSIDER USING 3 TO 30 MHz AS PART OF THE BPL PLAN. A HUGE, ALMOST UNCORRECTABLE, MISTAKE IS ABOUT TO BE MADE BY YOUR COMMISSION. PLEASE VERIFY THE FOLLOWING WITH A TOTALLY INDEPENDENT RADIO ENGINEER.

(A.) A SINGLE, LOW POWER SOURCE, IN THE 3 TO 30 MHz RANGE, WILL NOT CAUSE OBJECTIONAL INTERFERENCE WITHIN ITS OWN NEIGHBORHOOD. - BUT - (B.) SCORES OF SOURCES GATHERED IN THE SAME GEOGRAPHIC AREA, ARIZONA FOR EXAMPLE; CAN, AND WILL, AT TIMES, RENDER LONG-DISTANCE RADIO LINKS USELESS IN OTHER PARTS OF THE WORLD, SUCH AS TOKYO, SYDNEY, AND SHANGHAI.

RESPECTFULLY YOURS

JOHN O. HEALEY
