## AMERICANS WITH DISABILITIES ACT REQUEST

To Whom It May Concern:

This is an official request under The Americans with Disabilities Act (ADA) that you discontinue the legislative process pertaining to the Over-the-Air Reception Device (OTARD) rule. I am learning there are many health consequences to this technology which apply to my conditions. I attest and confirm that I am diagnosed with epilepsy and four other major diagnoses. Almost all of my conditions, especially the epilepsy, involve my central nervous system, which includes the brain.

Epilepsy is a brain dysfunction where there is abnormal electrical activity. The microwave radiation from these antennas will utilize pulsed millimeter waves and will be pulsing 24/7. This pulsing from these wireless facilities will cause an increased frequency of seizures by interfering with my brain function, interrupting my electrical impulses, and causing damage to my compromised central nervous system. My mother has spoken to another parent whose daughter's seizures increased when they were exposed to RF from a smart meter. This use of antennas which produce microwave radiation on homes will be more pernicious, and in conjunction to the exposure of the smart meters.

My mom and dad work tirelessly to protect me from exposure to things in my environment. They have hardwired our computers and we do not use a microwave.

Continual exposure to microwave radiation would increase my seizure frequency, cause physical impairment due to the increased number of seizures, and further damage my central nervous system and brain; all of which will negatively affect my quality of life and ability to function. I would not be able to be a part of society as wireless, microwave radiation will be pervasive.

I request you not change the OTARD rule so no one in the US will suffer ill health or have to live in an unsafe environment, which includes me and my family.

Please inform me of your intent to comply with this ADA request.

Signed October 2, 2019,

McKenzie Jennings (written by my mom for me)
