Ms. Magalie Roman Salas
Secretary
Federal Communications Commission
The Portals
445 Twelfth Street, S.W.
Washington, DC 20554

97-160

RE: Information Request Released on July 19, 1999 /In the Matter of Federal-State Joint Board on Universal Service, CC Docket No. 96-45, and the Forward-Looking Mechanism for High Support for Non-Rural LECs.

Dear Ms. Salas:

Attached is the response of the SBC Communications, Inc local exchange companies – Southwestern Bell Telephone Company, Pacific Bell, Southern New England Telephone Company and Nevada Bell ("SBC LECs") to the Order issued by the Commission in the above-captioned proceedings on July 19, 1999. Also attached is the "Designation of Confidential Information" executed by John Schrotenboer certifying that all of the information being submitted in response to this Order is confidential within the meaning of Section 0.459 of the Commission's rules.

The line count information being submitted in response to Questions 1 and 2 of the Order for which confidential treatment is sought is commercially sensitive information which could substantially harm the competitive position of the SBC LECs if disclosed outside of the protection of the Protective Order. Exemption 4 of the Freedom of Information Act shields information which is (1) commercial or financial in nature; (2) obtained from a person outside the government; and (3) privileged or confidential. With respect to the third factor, the information is considered to be confidential if disclosure is likely to (1) impair the government's ability to obtain necessary information in the future or (2) harm substantially the competitive position of the person from whom the information was obtained. The attached information clearly satisfies these standards for confidential treatment since the provision of this information to competitors would allow them invaluable insight into the SBC LECs' marketing and service strategies. Accordingly, the SBC LECs provide this information in reliance upon the representation made in paragraph 9 of the Order that such data shall be disclosed in accordance with the Protective Order.

While the SBC LECs have responded to the information request of the Commission to the greatest extent possible, they have been unable in all respects to comply with the request at the current time. In relation to Pacific Bell and Nevada Bell, these companies

do not have processes which would enable them to retrieve Single Business access lines on a wire center basis. Procedures are being developed to access this information at this level of detail and such data will be submitted once it becomes available.

With regard to Southern New England Telephone Company, there is no process which enables the company to retrieve non-switched access lines at a wire center level. The company is developing procedures and will supplement its response when the data is obtained.

Very truly yours,

Hope Thurrott (BB)
