DOCKET FILE COPY ORIGINAL

I understand that there are hearings regarding allowing the use of cell phones on airplanes. I cannot imagine a WORSE IDEA! Flying is stressful enough without having to listen to someone on their cell phone during a flight. I'm sure that the flight attendants are against this crazy idea. They have enough to do with their cabin duties and dealing with unhappy passengers right now. Having the added burden of angered non-cell phone passengers and those using the phones is unconscionable. How did people survive all these years without using them? We can do so even longer.

Please do not allow this to happen.

Nancy Schlegel
