comments on the FCC's NPRM
in WT 05-235.

My comment is that I am a disabled person with some hearing problems and I just did pass my tech test and I have taken the General written three times and failed it. I have been taking morse code study classes and I am not able to make out all the sounds to catch on to even try and take the morse code test, so I am for dropping the code requirement.

Thank you
Glenn Brumit
