REF PROPOSAL WTB 05-235:

DELETING THE MORSE REQUREMENT FROM THE AMATEUR LICENSE TESTS WOULD BE DISASTEROUS.
MORSE WOULD BE THE ONLY USEABLE MODE UNDER BAD PROPIGATION CONDITIONS OR ENEMY-GENERATED INTERFERENCE (I.E. EMP "BLANKETING").
IT USES LOW POWER & SIMPLE EQUIPMENT & DOES NOT REQUIRE A COMPUTER TO COMMUNICATE. IN SUMMARY:
KEEP MORSE IN THE TEST,
KEEP THE CW BANDWIDTH.

VERY RESPECTFULLY
GJ Harris WB9MII.
