Yak Communications (America) Inc. Petition for Extension and Limited Waiver	)	

PETITION FOR EXTENSION OF TIME AND LIMITED WAIVER

I. INTRODUCTION AND SUMMARY

Yak Communications (America) Inc. ("Yak"), pursuant to Section 1.3 of the Commission's Rules,[1] requests that the Commission grant a limited waiver extending the time for it to comply fully with the obligations imposed on Yak pursuant to Commission Rule 9.5(b) and (d) adopted in the *First Report and Order* in the above-captioned proceedings.[2] As explained in detail below, despite having made substantial progress toward meeting the requirements of the *VoIP E911 Order*, Yak will be unable to comply fully for all of its customers by the November 28, 2005 deadline. Accordingly, Yak requests an 18-month extension of time to comply with those obligations. Yak also requests expedited consideration of this Petition.

---

[1] 47 C.F.R. § 1.3.

[2] *IP-Enabled Services, E911 Requirements for IP-Enabled Service Providers*, First Report and Order and Notice of Proposed Rulemaking, WC Docket Nos. 04-36 & 05-196, FCC 05-116 (released June 3, 2005) ("*VoIP E911 Order*"). Commission Rule 9.5 (b) and (c), 47 C.F.R. §§ 9.5(b) and (c), implementing the *VoIP E911 Order* are scheduled to take effect on November 28, 2005.

II. DESCRIPTION OF THE PETITIONER

Yak is owned by Yak Communications Inc. ("Yak"), a Florida incorporated telecommunications company that offers a full array of local, long distance, calling card, and cellular services to residential and small and medium business customers in North America. Yak's services are primarily offered in Canada, through a subsidiary company, but it has recently expanded its operations to include portions of United States as well. Yak offers residential long distance, calling card and cellular services (two-stage dialing for long distance from cellular phones) throughout the continental U.S. In addition to conventional telephony services, Yak also has begun offering a VoIP product that may be used by customers at either fixed or portable locations.

Pursuant to the definitions adopted in the *VoIP E911 Order*, Yak is a provider of interconnected Voice over Internet Protocol ("VoIP") services, as the company: (1) enables real-time, two-way voice communications; (2) requires a broadband connection from the user's location; (3) requires Internet protocol-compatible customer premises equipment ("CPE"); and (4) permits users generally to receive calls that originate on the public switched telephone network and to terminate calls to the public switched telephone network.[3] Yak currently provides two-way interconnected VoIP service to 163 customers.

Since the release of the *VoIP E911 Order*, Yak has taken a number of steps to comply with the Commission's new rules. Yak has substantially met the affirmative acknowledgment requirements set forth in 47 C.F.R. § 9.5(e).[4] Yak has also taken significant steps to implement

---

[3] *See* 47 C.F.R. § 9.3.

[4] Pursuant to Commission Public Notices, Yak has filed four status reports concerning the Company's efforts to notify its customers of the limitations associated with the Company's VoIP 911 service, and to obtain affirmative acknowledgments from those subscribers stating that they fully understand those limitations. These reports were filed in WC Docket No. 04-36 on August

the E911 service requirements established in 47 C.F.R. § 9.5(b) and (c). Specifically, Yak determined it did not have the resources to independently deploy full E911 service for all its VoIP customers by the Commission's deadline. After months of discussions and negotiations, Yak contracted with a wholesale VoIP provider, CommPartners, to provide the Company with the underlying VoIP network services, including 911 services. The Company is still in the process of interconnecting with CommPartners and expects to have the interconnection completed by January 2006. In the interim, the Company has stopped marketing and accepting any new two-way interconnected VoIP customers. The Company will not re-commence these marketing activities until it is interconnected with CommPartners, and will do so only in those areas in which it has achieved full E911 compliance.

Moreover, despite its efforts, Yak will not be in full compliance with the requirements of the *VoIP E911 Order* by the Commission's November 28, 2005 deadline. Yak therefore requires additional time to implement an E911 solution for its customers. Based on the representations of its third-party vendor, Yak estimates that as of January 2006, approximately 71**%** of its current interconnected VoIP subscriber base will be able to receive E911 services that comply fully with the *VoIP E911 Order*, and an additional 18 months will be required to make E911 service available in all areas in which the Company operates.

III. <u>SPECIFIC WAIVERS REQUESTED</u>

Yak respectfully requests a limited waiver allowing it an 18-month extension of time to implement the following requirements of the *VoIP E911 Order*:

10, September 1, September 22, and October 25, 2005. The Company's October 25, 2005 status report informed the Commission that, as of October 25, 2005, Yak had obtained affirmative acknowledgement from approximately 57% of its subscriber base. As requested by the Commission, Yak will inform the Commission when the 100% threshold is met.

1) The requirement to transmit all 911 calls, in all geographic regions served by the Wireline E911 Network, along with the ANI and the caller's Registered Location for each call, to the PSAP, designated statewide default answering point, or appropriate local emergency authority.[5]

2) The requirement to route all 911 through the use of ANI and, if necessary, pseudo-ANI.[6]

3) The requirement to provide the Registered Location to the appropriate PSAP, designated statewide default answering point, or appropriate local emergency authority from or through the appropriate automatic location information (ALI) database.[7]

4) The requirement to obtain from each customer, prior to the initiation of service, the physical location at which the service will first be utilized and provide end users one or more methods of updating their Registered Location, including at least one option that requires use only of the CPE necessary to access the interconnected VoIP service.[8]

IV. STANDARD OF REVIEW

Section 1.3 of the Commission's Rules states that the Commission may waive its rules for good cause, which has been interpreted to exist when the facts of a particular case make strict compliance inconsistent with the public interest and when the relief requested will not undermine the policy objective of the rule in question.[9] To prevail, a petitioner must demonstrate that application of the challenged rule would be inequitable, unduly burdensome, or contrary to the public interest.[10]

---

[5] *See* 47 C.F.R § 9.5(b)(2).

[6] *See* 47 C.F.R. § 9.5(b)(3).

[7] *See* 47 C.F.R. § 9.5(b)(4).

[8] *See* 47 C.F.R. § 9.5(d).

[9] 47 C.F.R. § 1.3. *See Wait Radio v. FCC*, 418 F.2d 1153, 1159 (D.C. Cir. 1969); *see also Northeast Cellular Tel. Co. v. FCC*, 897 F.2d 1164 (D.C. Cir. 1990).

[10] *Wait Radio*, 418 F.2d at 1159.

The Commission's approach to requests for waivers in the wireless area is illustrative. Section 1.925(b)(3) of the Commission's Rules is comparable to Section 1.3 and provides that the Commission may grant a request for waiver if:

> (i) The underlying purpose of the rule(s) would not be served or would be frustrated by application to the instant case, and that a grant of the requested waiver would be in the public interest; or
>
> (ii) In view of unique or unusual factual circumstances of the instant case, application of the rule(s) would be inequitable, unduly burdensome or contrary to the public interest, or the applicant has no reasonable alternative.[11]

The Commission has also made clear in the wireless E911 context that technical infeasibility and delays beyond the control of the carrier, including the inability to obtain required products or services despite good faith efforts by a petitioner, is reason to grant a waiver.[12]

V. PETITIONER MEETS THE STANDARD FOR GRANTING A WAIVER

A. Unusual Factual Circumstances Justify the Requested Waivers

Yak has long sought a means to provide E911 service to its customers. Because its service is offered over the public Internet, however, Yak cannot practicably limit the geographic locations from which its customers might use the service; therefore, a complete nationwide solution is required for E911 coverage. This poses a much greater challenge for Yak than is faced by traditional telecommunications carriers whose networks have a more defined geographic footprint. Even before the issuance of the *VoIP E911 Order*, Yak had investigated and determined that it would be logistically impossible for Yak to contact, negotiate, and directly

---

[11] 47 C.F.R. § 1.925(b)(3).

[12] *Revision of the Commission's Rules to Ensure Compatibility with Enhanced 911 Emergency Calling Systems; E911 Phase II Compliance Deadlines for Tier III Carriers,* CC Docket No. 94-102, Order, FCC 05-79, released April 1, 2005 ("*Wireless E911 Tier III Second Waiver Order*") at P 10.

contract with all the necessary parties to implement and manage a nationwide network-based E911 solution. Yak also contacted several third-party vendors offering limited geographic solutions and considered a number of different solutions offered by a variety of providers. However, there were a variety of limitations associated with each service offering, and it quickly became apparent that none of these vendors had a complete solution.

After months of discussion, Yak entered into an agreement with CommPartners in to provide the Company with the underlying VoIP network services, including 911 services. This service, as noted in the *Yak Compliance Report*, provides 911 service using direct call routing to PSAPs including the use of 10-digit telephone numbers approved by the relevant PSAP. CommPartners, through Intrado, Inc. ("Intrado") works with PSAPs to determine the appropriate telephone numbers for routing 911 calls. However, the solution does not provide ANI and Registered Location information to all applicable answering points. CommPartners, through Intrado, provides ANI and Registered Location information when routing 911 calls in the majority of the top 20 MSAs in the continental United States and a few areas outside the top 20 MSAs. CommPartners, through Intrado, is currently working to deploy this solution in more MSAs, and thus expand its coverage to a wider proportion of Yak's customers and nationwide service area. Given the lack of complete coverage by CommPartner's VoIP E911 network solution, it is not a complete solution. Through discussions with CommPartners, Yak estimates that as of January 2006, this solution will cover approximately 71% of Yak's interconnected customers, whose registered locations are in the majority of the top 20 Metropolitan Statistical Areas ("MSAs") in the continental United States and a few areas outside of the top 20 MSAs. CommPartners, through Intrado, is working to deploy this solution in more MSAs, which will provide coverage to a greater proportion of Yak's customers.

Given the time and effort Yak has expended prior to and since the issuance of the obligations of the *VoIP E911 Orde*r, the Company has demonstrated its commitment to providing its customers full E911 services as soon as possible. In addition, Yak, like many VoIP providers, is not able to self-provision a complete E11 solution and must rely on third-party vendors for compliance. As noted above, Yak selected CommPartners as its primary E911 vendor because CommPartners, through Intrado, provided a solution that met Yak's specifications. However, like all other industry participants, CommPartners and Intrado do not yet provide a nationwide VoIP E911 service and still must arrange for interconnection with a significant number of PSAPs.

Another complicating factor is that CommPartners and Intrado are dependent on the efforts of third parties to deploy an E911 solution, including RBOCs and PSAPs. Circumstances beyond their control impact Yak's ability to deploy an E911 solution to its customers. For example, to deploy a VoIP E911 solution for nomadic VoIP services, Intrado requires access to pseudo-ANI ("p-ANI"). As described in multiple *ex parte* filings with the Commission,[13] the lack of the appointment of an interim Routing Number Authority has made it impossible for Intrado to access p-ANI in certain areas of the country impeding the deployment of a VoIP E911 solution. Also, in certain areas, PSAPs are either declining or being advised to decline entering into agreements with VoIP providers due to the lack of legislation protecting VoIP providers and PSAPs from any liability that may result from mistakes that may arise in the routing or handling of 911 calls. As the Commission is aware, wireline and wireless carriers are legally protected

[13] *See, e.g., Ex Parte* Letter from Robert C. Atkinson, NANC Chair to Thomas Navin, Chief Wireline Competition Bureau, FCC (filed Sept. 8, 2005); *Ex Parte* Letter from David F. Jones, President, National Emergency Number Association, to Marlene H. Dortch, Secretary, FCC, WC Docket No. 04-36 & 05-196 (filed Nov. 4, 2005); *Ex Parte* Letter from Tom Goode, Associate General Counsel, Alliance for Telecommunications Solutions', to Marlene H. Dortch, Secretary, FCC, WC Docket No. 04-36 & 05-196 (filed Nov. 2, 2005).

from mistakes that may occur with the routing and handling of 911 calls. Neither CommPartners, Intrado nor Yak has the ability to resolve these issues.

The Commission also recognized in the *VoIP E911 Order* that the timeframe for requiring the deployment of an E911 solution was "aggressive."[14] In fact, deployment of an E911 solution for a new technology within 120 days is without precedent. VoIP providers, third-party solution providers, VoIP positioning companies, state and local E911 officials, and RBOCs are faced with unique issues to resolve and in the midst of developing a standard for the delivery of VoIP E911 calls.[15] Further, each RBOC has demonstrated a different level of cooperation in deploying a VoIP E911 solution and has adopted different implementation procedures. The 120-day implementation timeframe has not allowed enough time for the industry to resolve all of these disparate issues in order to develop a comprehensive solution. Given the novel issues that arise in deploying a VoIP E911 solution, coupled with the 120-day timeframe, it was simply not possible for the industry to develop a comprehensive VoIP E911 solution.

As the Commission has found previously, delays that are beyond the control of a provider or the inability of a provider to obtain required products or services despite good faith efforts, provides reason to grant a waiver.[16] In this case, Yak has made good faith efforts to obtain an E911 solution that complies fully with the *VoIP E911 Order*, and in fact has made substantial

---

[14] *VoIP E911 Order*, ¶ 37.

[15] *See IP-Enabled Services, E911 Requirements for IP-Enabled Service Providers*, Reply Comments of NENA, WC Docket Nos. 04-36 & 05-196 (filed Sept. 12, 2005) (stating that NENA was still in the process of developing the standard, and has sought industry comments on a preliminary proposal).

[16] *Revision of the Commission's Rules to Ensure Compatibility with Enhanced 911 Emergency Calling Systems; E911 Phase II Compliance Deadlines for Tier III Carriers*, CC Docket No. 94-102, Order, FCC 05-79, released April 1, 2005 ("*Wireless E911 Tier III Second Waiver Order*") at P 10.

progress toward full compliance, but will not be in full compliance by November 28. Under these conditions, Yak respectfully submits that the unusual factual circumstances associated with the deployment of a VoIP E911 solution justify the limited relief Yak seeks in this Petition.

B. Grant of an Extension of Time and Limited Waiver to Yak is in the Public Interest; Strict Enforcement of the November 28 Deadline Will Thwart the Purposes of the Commission's Rules

Strict adherence to the requirements of the *VoIP E911 Order* is inconsistent with the public interest with respect to Yak. Yak has made good faith efforts to comply with the requirements and has made progress toward compliance. Moreover, it has a plan in place that ultimately will enable it to comply fully with the Commission's rules. However, for reasons that are largely beyond its control, Yak will not be able to provide full E911 service to all of its customers by the November 28 deadline. Demanding strict compliance with the *VoIP E911 Order* will not change the fact or further the Commission's goal of providing E911 to all consumers, but will only punish Yak for its efforts to date. It could result in the suspension of service to a Yak's customers. The result very well could be that Yak will be less able to comply with the *VoIP E911 Order*. Customers will remain without E911 service, as Yak will not have adequate resources to deploy a ubiquitous E911 solution, and Yak's ability to compete in the VoIP market will be weakened. Such a result would not serve the public interest and would thwart the goals of the *VoIP E911 Order* and the Commission's mandate to foster competition. Accordingly, a limited waiver of the requirements of the *VoIP E911 Order* with respect to Yak is necessary and is in the public interest.

1. Yak's Plan to Achieve Full Compliance

In addition to the steps that it has already taken to implement the requirements of the *VoIP E911 Order*, Yak has taken steps to achieve full compliance within a reasonable period. Grant of this Petition will give Yak the time and resources to carry out its compliance plan. As

previously discussed, Yak has contracted with CommPartners, who is relying on Intrado, to provide an E911 solution to Yak. Pursuant to materials distributed by Intrado, Yak understands that 93% the U.S. population is currently served by PSAPs operating off an E911 Selective Router. While the areas not served by a PSAP operating off an E911 Selective Router are not included within the *VoIP E911 Order* and are not required for compliance, it is Yak's understanding that Intrado is actively contacting these areas to determine technical options for VoIP E911 native call delivery. Also, Intrado has indicated that it is currently aware of four States and a Territory that have native Selective Routing functionality but will only provide Automatic Number Identification (ANI)-only service (not Registered Location information) to the PSAP. In New Jersey, Intrado has indicated that it has gained permission from the State to deploy a voice only service that enables the call taker to receive ANI on the VoIP 911 caller, but the State ALI system is not capable of full dynamic ALI updates and will require an upgrade. Intrado has indicated that Ohio and Hawaii have not granted permission to Intrado to deploy a voice only solution, and these States' ALI systems are not capable of full dynamic ALI update. Further, Intrado has indicated that Puerto Rico has not granted permission to Intrado to deploy a voice only solution, and the ALI systems are not capable of full dynamic ALI update.

Attached as Exhibit 1 to this filing is a map and spreadsheet distributed by Intrado. It depicts Intrado's planned rollout of E911 services from November 28, 2005, to June 30, 2006. Based on these materials, Yak estimates that as of January 2006, the Company will have E911 coverage for approximately 71% of its VoIP customers. Yak will implement the Intrado provided solution throughout its network as soon as possible after CommPartners makes it available to Yak.

2. The Relief Yak Seeks is in the Public Interest

In light of the circumstances described above, grant of a limited waiver and extension of time to Yak is in the public interest. Yak has made good faith efforts to comply with the requirements of the *VoIP E911 Order*. It has met the requirements of Rule 9.5(e) for over 57% of its customers and estimates that it will met the requirements of 9.5(b) and (c) for approximately 71% of its customers by January 2006. In addition, Yak is working closely with its third-party vendor to ensure that all of its customers have full E911 access within a reasonable amount of time.

In the meantime, for customers that do not have access to a 911 service that complies with the *VoIP E911 Order*, Yak, through CommPartners, plans to offer an interim 911 service that provides for the 10-digital routing of 911 calls to the appropriate PSAP until such time as a VoIP E911 solution is deployed to Yak's customer's base. Yak is working to have the CommPartners 10-digit routing solution in place by January 2006.

By demanding full compliance with the *VoIP E911 Order* by November 28, the Commission will make it more difficult for Yak to come into full compliance. Strict adherence to the VoIP E911 Order could require Yak to discontinue its services to its customers, [17] which would deprive those customers of access to Yak's VoIP services and destroy Yak's relationships with those customers. The loss of current customers will deprive Yak of the ability to maintain or expand its user base and revenues. This would cause Yak extreme economic hardship. More important. for purposes of this Petition, the loss of those revenues would limit Yak's ability to

[17] While the Enforcement Bureau has indicated that it is not "requiring" providers to disconnect current customers, the full Commission has not addressed this issue, Commission Rule 9.5 remains fully in effect, and even the Bureau has made no commitment not to pursue enforcement actions against providers that continue to provide service. Thus, the fact remains that non-compliant VoIP providers are in the untenable position of courting an enforcement action if they do continue to provide service to existing customers.

pay for the deployment of E911 service and make it less likely that Yak will be able to comply in a timely manner with the requirements of the *VoIP E911 Order*. Such a result would not be in the public interest.

C. Grant of the Petition will not Undermine the Policy Objective of the *VoIP E911 Order*

As discussed above, Yak has worked, and is continuing to work, to implement an E911 solution that meets the requirements of the *VoIP E911 Order*. Grant of the Petition will not undermine the policy goal that customers of interconnected VoIP providers have access to emergency services. Yak is not requesting an exemption from or indefinite waiver of the rules. Rather, Yak is merely seeking additional time so that it can meet those requirements fully for all of its customers. In other contexts—for example, wireless E911 and CALEA—the Commission has routinely issued limited waivers and extensions of time despite the significant public interests in the recognition that such limited waivers do not undermine the objectives of those rules. The situation here is no different. Yak's limited request for relief does not impair the public safety goals that underlie the Commission's new rules. Accordingly, the Commission should grant this Petition.

VI. CONCLUSION

For the reasons set forth above, Yak respectfully submits that grant of this Petition for extension of time and limited waiver serves the public interest.

Respectfully submitted,
