Dear Chairman Martin,

I have serious concerns about the FCC position to change the Universal Service Fund collection method to a monthly flat fee. Many of us, friends, family and neighbors including me will be unfairly impacted by the change as proposed.

It would be unfair for those of us who use very little long distance (bill runs 10.00 to 20.00 a month) to be charged the same as someone who uses thousands of minutes a month.

It is my great hope that this proposal will be discarded and soon.

Thank you.

Sincerely,

Lou O. Oliphant
(Mrs. G. William Oliphant)
