Before the
Federal Communications Commission
Washington, D.C. 20554

In the Matter of	)	
Establishment of a Class A	)	MM Docket No. 00-10
Television Service	)	

To: The Commission

MOTION FOR ACCEPTANCE OF LATE-FILED

PETITION FOR RECONSIDERATION

Larry L. Schrecongost, licensee of WLLS-LP, Indiana, Pennsylvania hereby respectfully requests that the Commission accept and substantially consider the attached Petition for Reconsideration, which is being filed one business day (three total days) beyond the filing deadline, which was Friday June 9, 2000. As good cause therefore, petitioner states as follows:

1.) These comments were drafted, ready for filing late in the day Friday June 9, 2000. On that day, petitioner tried several times to access the FCC's ECFS by way of my local internet service provider but was unsuccessful in making contact. Several attempts were made on Saturday June 10 and Sunday June 11 but again were unsuccessful. While not completely sure, I believe the problem may have been with my local internet service provider rather than the Commission's ECFS system. The reason for this uncertainty is that, during this time I was able to access some regularly used web sites, but for unknown reasons, not others.

2.) I have filed both Comments and Reply to Comments in this proceeding, and in respect for the Commission's process, both were filed timely.

3.) The problem in connecting to the ECFS system was completely outside my control and I respectfully request the Commission to determine that good cause has been clearly shown for the acceptance of the filing and to accept my Petition for Reconsideration in this proceeding.

Respectfully submitted,

/s/ Larry L. Schrecongost
