October 22, 2006

Dear Chairman Martin,

I write to protest the steps that are being brought up to relax the media ownership rules.

These valuable assets, the airwaves and all the concurrent hardware belong to all of us. To allow media concentration to continue in the path it is going is to set up a future where all media is in one two or three hands.

We cannot have a free and democratic country without the government protection at the highest levels to see that the airwaves, remain accessible, the internet remains "free" and the newspapers and radio stations are not allowed to to be in few hands.
