(RE: "THE POSSIBLE SIRIUS AND XM SATELLITE MERGER.)

RECEIVED & INSPECTED
JUN 18 2007
FCC-MAILROOM

DEAR SIR (OR MADAM),

I trust this letter finds you and yours enjoying good health.

I'm resubmitting my letter of FEB 26th, 2007 in response to your request for comments regarding the satellite merger.

"I believe in our capitalistic system but I have selfish reasons for opposing the merger:

1. I took XM to get away from Howard Stern. This "entertainer" hasn't been funny for the past ten years.
2. The music offerings will be consolidated. I took the service because NYS WCBS-FM 101.1 screwed their loyal fan base by adopting a package called "JACK" radio.

Truth be told - it's more like they hi-"JACK"ed good oldies and replaced it with the current drivel they play.

3. I worry about paying higher prices and innocent people losing their jobs. That's not fair - not in this economy. I worry about a "monopoly"!!!

I realize there are insignificant reasons but look at the airline industry. We have fewer competitors, obscene delays, lost luggage and total contempt for the flying public. A by-product of mergermania!!!

I rest my case. Please don't let the merger happen.

Thank you for reading my letter and expediting this matter.

Take care of yourself. I hope you'll honor me with a timely response and a "no" vote on the proposed merger.

MAY GOD BLESS YOU AND YOURS.
MAY GOD BLESS AMERICA, NOW MORE THAN EVER.

WITH ALL GOOD WISHES,
HAROLD JOHN COMPPER
