Re: ***Ex Parte, IP-Enabled Services,***
E911 Requirements for IP-Enabled Service Providers;
WC Docket Nos. 04-36, 05-196

Dear Ms. Dortch:

This is to inform you that, on September 12, 2007, Stephen Collins, Senior Director, Government and Regulatory Affairs - Global, and Christopher Libertelli, Senior Director, Government and Regulatory Affairs – North America, of Skype Communications, S.A.R.L. ("Skype"), and the undersigned met with Derek Poarch, Bureau Chief, Public Safety & Homeland Security Bureau (PSHSB), and Carol Simpson and Timothy Peterson, also of PSHSB. The purpose of the meeting was to discuss Skype's evolution as a multi-faceted Internet communications tool — including a bundle of services ranging from social networking, voice and video calling, web presence, instant messaging, and money transfer — that is not designed, marketed, or used as a replacement telephone service. We also discussed the ways in which Skype users utilize the software, confirming our view that Skype users do not view it as a replacement telephone service.

Please direct any questions regarding this matter to the undersigned.

Respectfully,

Henry Goldberg
Attorney for Skype Communications, S.A.R.L.
