Docket 06-121

November 8, 2007

RECEIVED & INSPECTED
NOV 14 2007
FCC - MAILROOM

Dear Mr. Martin,

It has been alleged that you are being intimidated by the big companies pushing for media consolidation. There's also speculation of your trying to keep this information hidden from the public because of your decision in December. We the people are furious & frustrated with these greedy, powerful, self-serving & whiny corporate "predators" & their enablers!!

Cable, radio, satellite, telephone, T.V. & wireless services are intended to benefit consumers (including minorities). Did you not understand why an overwhelming majority of consumers protested & spoke out against media concentration? Michael Powell did enough damage for the lack of competition!

Please search your heart & mind before making your decision.

Thanks for your attention on this matter.

Sincerely,
Judy Nelson
