Dear Commissioner Copps,

No one at the FCC has been a bigger champion for real net neutrality than you. When the time comes for a vote on Chairman Genachowski's fake net neutrality plan, your vote will be the deciding one.

Be a hero for the Internet. Vote no on Chairman Genachowski's fake net neutrality plan.

No acceptable proposal can permit paid prioritization; can exempt wireless broadband from the protections offered for wireline; nor can it move forward without reclassifying broadband, providing the legal footing required by the courts for implementation.

There is a powerful public mandate from organizations and everyday people reflecting all America's diversity of race, class, and political opinion who want meaningful, enforceable net neutrality protections.

Thank you for everything you've done to keep the Internet open and free. Please do what's right one more time, and vote no Chairman Genachowski's proposal at the FCC meeting on December 21.

Sincerely,

Lorraine Kay Davis

Dear Commissioner Copps,

No one at the FCC has been a bigger champion for real net neutrality than you. When the time comes for a vote on Chairman Genachowski's fake net neutrality plan, your vote will be the deciding one.

Be a hero for the Internet. Vote no on Chairman Genachowski's fake net neutrality plan.

No acceptable proposal can permit paid prioritization; can exempt wireless broadband from the protections offered for wireline; nor can it move forward without reclassifying broadband, providing the legal footing required by the courts for implementation.

There is a powerful public mandate from organizations and everyday people reflecting all America's diversity of race, class, and political opinion who want meaningful, enforceable net neutrality protections.

Thank you for everything you've done to keep the Internet open and free. Please do what's right one more time, and vote no Chairman Genachowski's proposal at the FCC meeting on December 21.

Sincerely,

I, like many other people, see this as a serious First Ammendment threat. It is ludicrious to see the internet as anything but a free and protected form of speech/communication for our time. The cynic in me sees any attempt to restrict access as a political ploy on behalf of those who like to see less input from the masses. Please don't give in to the assault on the Constitution.

Dear Commissioner Copps,

No one at the FCC has been a bigger champion for real net neutrality than you. When the time comes for a vote on Chairman Genachowski's fake net neutrality plan, your vote will be the deciding one.

Be a hero for the Internet. Vote no on Chairman Genachowski's fake net neutrality plan.

No acceptable proposal can permit paid prioritization; can exempt wireless broadband from the protections offered for wireline; nor can it move forward without reclassifying broadband, providing the legal footing required by the courts for implementation.

There is a powerful public mandate from organizations and everyday people reflecting all America's diversity of race, class, and political opinion who want meaningful, enforceable net neutrality protections.

Thank you for everything you've done to keep the Internet open and free. Please do what's right one more time, and vote no Chairman Genachowski's proposal at the FCC meeting on December 21.

Sincerely,

Laurence Hellenberg

There is a powerful public mandate from organizations and everyday people reflecting all America's diversity of race, class, and political opinion who want meaningful, enforceable net neutrality protections. We have seen disasterous attacks on our democracy, from the Supreme Court decision that corporations are "citizens" to increasing disparity between the rich and the vanishing middle class. Free communication is one of the cornerstones of our democracy which has not yet been destroyed. The rich own Congress now, but free communication will allow the rest of us a voice.

Thank you for everything you've done to keep the Internet open and free. Please do what's right one more time, and vote no Chairman Genachowski's proposal at the FCC meeting on December 21.

I can't tell you how important this issue is for me. The current free and open nature of the Internet MUST be preserved. If the Telecom corporations have their way, they will destroy that in the name of higher profits. They are allowed to use the airwaves and resources that belong to and were developed by "we, the people" --don't now give them the power to lock us out.

Dear Commissioner Copps,

No one at the FCC has been a bigger champion for real net neutrality than you. When the time comes for a vote on Chairman Genachowski's fake net neutrality plan, your vote will be the deciding one.

Be a hero for the Internet. Vote no on Chairman Genachowski's fake net neutrality plan.

No acceptable proposal can permit paid prioritization; can exempt wireless broadband from the protections offered for wireline; nor can it move forward without reclassifying broadband, providing the legal footing required by the courts for implementation.

There is a powerful public mandate from organizations and everyday people reflecting all America's diversity of race, class, and political opinion who want meaningful, enforceable net neutrality protections.

Thank you for everything you've done to keep the Internet open and free. Please do what's right one more time, and vote no Chairman Genachowski's proposal at the FCC meeting on December 21.

Dear Commissioner Copps,

My job requires net access in a variety of settings, including research communications, large data flow, standard browser usage, web mail, web meetings, and much more.
One can argue that the present proposals won't affect these things, but once the pay-for-play principle is established, it will trickle down everywhere.

Allowing priorities on the web will eventually interfere with my ability to do my job.

Dear Commissioner Copps,

No one at the FCC has been a bigger champion for real net neutrality than you. When the time comes for a vote on Chairman Genachowski's fake net neutrality plan, your vote will be the deciding one.

Be a hero for the Internet. Vote no on Chairman Genachowski's fake net neutrality plan.

No acceptable proposal can permit paid prioritization; can exempt wireless broadband from the protections offered for wireline; nor can it move forward without reclassifying broadband, providing the legal footing required by the courts for implementation.

There is a powerful public mandate from organizations and everyday people reflecting all America's diversity of race, class, and political opinion who want meaningful, enforceable net neutrality protections.

Thank you for everything you've done to keep the Internet open and free. Please do what's right one more time, and vote no Chairman Genachowski's proposal at the FCC meeting on December 21.

Sincerely,

Robert G. Jones

Dear Commissioner Copps,

No one at the FCC has been a bigger champion for real net neutrality than you. When the time comes for a vote on Chairman Genachowski's fake net neutrality plan, your vote will be the deciding one.

Be a hero for the Internet. Vote no on Chairman Genachowski's fake net neutrality plan.

No acceptable proposal can permit paid prioritization; can exempt wireless broadband from the protections offered for wireline; nor can it move forward without reclassifying broadband, providing the legal footing required by the courts for implementation.

There is a powerful public mandate from organizations and everyday people reflecting all America's diversity of race, class, and political opinion who want meaningful, enforceable net neutrality protections.

Thank you for everything you've done to keep the Internet open and free. Please do what's right one more time, and vote no Chairman Genachowski's proposal at the FCC meeting on December 21.

Sincerely,

Dear Commissioner Copps,

No one at the FCC has been a bigger champion for real net neutrality than you. When the time comes for a vote on Chairman Genachowski's fake net neutrality plan, your vote will be the deciding one.

Be a hero for the Internet. Vote no on Chairman Genachowski's fake net neutrality plan.

No acceptable proposal can permit paid prioritization; can exempt wireless broadband from the protections offered for wireline; nor can it move forward without reclassifying broadband, providing the legal footing required by the courts for implementation.

There is a powerful public mandate from organizations and everyday people reflecting all America's diversity of race, class, and political opinion who want meaningful, enforceable net neutrality protections.

Thank you for everything you've done to keep the Internet open and free. Please do what's right one more time, and vote no Chairman Genachowski's proposal at the FCC meeting on December 21.

Sincerely,

James Harnish

Dear Commissioner Copps,

No one at the FCC has been a bigger champion for real net neutrality than you. When the time comes for a vote on Chairman Genachowski's fake net neutrality plan, your vote will be the deciding one.

Be a hero for the Internet. Vote no on Chairman Genachowski's fake net neutrality plan.

No acceptable proposal can permit paid prioritization; can exempt wireless broadband from the protections offered for wireline; nor can it move forward without reclassifying broadband, providing the legal footing required by the courts for implementation.

There is a powerful public mandate from organizations and everyday people reflecting all America's diversity of race, class, and political opinion who want meaningful, enforceable net neutrality protections.

Thank you for everything you've done to keep the Internet open and free. Please do what's right one more time, and vote no Chairman Genachowski's proposal at the FCC meeting on December 21.

Sincerely,

Dear Commissioner Copps,

No one at the FCC has been a bigger champion for real net neutrality than you. When the time comes for a vote on Chairman Genachowski's fake net neutrality plan, your vote will be the deciding one.

Be a hero for the Internet. Vote no on Chairman Genachowski's fake net neutrality plan.

No acceptable proposal can permit paid prioritization; can exempt wireless broadband from the protections offered for wireline; nor can it move forward without reclassifying broadband, providing the legal footing required by the courts for implementation.

There is a powerful public mandate from organizations and everyday people reflecting all America's diversity of race, class, and political opinion who want meaningful, enforceable net neutrality protections.

Thank you for everything you've done to keep the Internet open and free. Please do what's right one more time, and vote no Chairman Genachowski's proposal at the FCC meeting on December 21.

Sincerely,

The Federal government and the plutocracy is taking everything we have away from us. Please do not let them give control of the net to the big corporate players. The net has, due to its inherent neutrality, since its inception been the only real level playing field we have. It is still the one place where the 'little guy' can easily be the equal of the 'big guy.' Please do not participate in the destruction of the last bastion of freedom.

Dear Commissioner Copps,

No one at the FCC has been a bigger champion for real net neutrality than you. When the time comes for a vote on Chairman Genachowski's fake net neutrality plan, your vote will be the deciding one.

Be a hero for the Internet. Vote no on Chairman Genachowski's fake net neutrality plan.

No acceptable proposal can permit paid prioritization; can exempt wireless broadband from the protections offered for wireline; nor can it move forward without reclassifying broadband, providing the legal footing required by the courts for implementation.

There is a powerful public mandate from organizations and everyday people reflecting all America's diversity of race, class, and political opinion who want meaningful, enforceable net neutrality protections.

Thank you for everything you've done to keep the Internet open and free. Please do what's right one more time, and vote no Chairman Genachowski's proposal at the FCC meeting on December 21.

Sincerely,

E Scott Dow

Dear Commissioner Copps,

The lower income citizens should not be denied equal access to the internet just because the can't afford a higher price internet service plan. The telecom industry already has the ability to charge for different data transfer rate plans as well as bandwidth.

At any store in the country it would be considered discrimination to take another customer ahead of you because of race, creed or ability to pay more. You would be upset and rightfully so if this happened to you, so do not let the telecom industry do this to the internet users who simply cannot afford any upcharge in thier internet service.

Keep the internet which was originally set-up by the government for the use of its citizens become discriminatory for the profits of the telecom industry. the current proposal is but a backdoor way to do this. Keep the internet open and neutral.

First come, first served. The way it is now. Not sorry, if you pay me more I'll let you butt in line. Just not right, is it?

Dear Commissioner Copps,

No one at the FCC has been a bigger champion for real net neutrality than you. When the time comes for a vote on Chairman Genachowski's fake net neutrality plan, your vote will be the deciding one.

Be a hero for the Internet. Vote no on Chairman Genachowski's fake net neutrality plan.

No acceptable proposal can permit paid prioritization; can exempt wireless broadband from the protections offered for wireline; nor can it move forward without reclassifying broadband, providing the legal footing required by the courts for implementation.

There is a powerful public mandate from organizations and everyday people reflecting all America's diversity of race, class, and political opinion who want meaningful, enforceable net neutrality protections.

Thank you for everything you've done to keep the Internet open and free. Please do what's right one more time, and vote no Chairman Genachowski's proposal at the FCC meeting on December 21.

Sincerely,

Dear Commissioner Copps,

I have the right to access public information via my computer and make my own decisions as to which web sites I visit. Without net neutrality, Big Telecom is making this decision for me and that is wrong. I want information but all they want is money. I should be able to get the same search results regardless of how my computer connects to the internet and which ISP, browser or search engine I use. Any infringement on this right whatsoever is a blow to the public, to our information commons, that Big Telecom executives want to control for their own profits. You may be the only one with the power to stop this from happening. No one at the FCC has been a bigger champion for real net neutrality than you. When the time comes for a vote on Chairman Genachowski's fake net neutrality plan, your vote will be the deciding one.

Be the conscience for the Internet. Vote no on Chairman Genachowski's fake net neutrality plan, which is unacceptable because it allows paid prioritization, exempts wireless broadband from the protections offered for wired lines, and it doesn't reclassify broadband, thus ommittig the legal footing required by the courts for implementation.

Effective net regulation need to balance the right of the telecoms to charge users against the consumer's right to access. There should be no throttling or prioritization AND Comcast, for instance, should net be required to deliver broadband services fro Netflix for free. The present proposal falls shout. Please vote against it and urge the commission to fin a sensible at to balance legitimate business interests with the publics right to fair use.

Dear Commissioner Copps,

I'll keep this brief. As I'm sure you know, the reason the internet has become such an important tool for innovation is due to net neutrality. Actual net neutrality, not Genachowski's Orwellian remaking of the phrase.

The past ten years - and accelerating since the financial crisis of 2008 - has been overwhelmingly about the slow takeover of America by corporate interests that care nothing for America itself. An industry-friendly "net neutrality" would honestly be the final nail in the coffin. While I think it's cynical and often meaningless to talk about patriotism, this is a real case where voting against the corporate takeover of the internet is a patriotic duty.

Thank you for everything you've done to keep the Internet open and free. Please do what's right one more time, and vote no Chairman Genachowski's proposal at the FCC meeting on December 21.

Dear Commissioner Copps,

No one at the FCC has been a bigger champion for real net neutrality than you. When the time comes for a vote on Chairman Genachowski's fake net neutrality plan, your vote will be the deciding one.

Be a hero for the Internet. Vote no on Chairman Genachowski's fake net neutrality plan.

No acceptable proposal can permit paid prioritization; can exempt wireless broadband from the protections offered for wireline; nor can it move forward without reclassifying broadband, providing the legal footing required by the courts for implementation.

There is a powerful public mandate from organizations and everyday people reflecting all America's diversity of race, class, and political opinion who want meaningful, enforceable net neutrality protections.

Thank you for everything you've done to keep the Internet open and free. Please do what's right one more time, and vote no Chairman Genachowski's proposal at the FCC meeting on December 21.

Sincerely,

Martin Silberberg

At my home I pay over $50/month for Broadband! Paid Prioritization? Wireless Broadband EXEMPT from the protections? Which Part of this Protects or Benefits the Public?
In, 2007 Verizon charged a Parent $18K for a month INet Access. Watch a movie or Video and get charged more (ADDITIONAL BANDWIDTH CHARGES?)???

Dear Commissioner Copps,

No one at the FCC has been a bigger champion for real net neutrality than you. When the time comes for a vote on Chairman Genachowski's fake net neutrality plan, your vote will be the deciding one.

Be a hero for the Internet. Vote no on Chairman Genachowski's fake net neutrality plan.

No acceptable proposal can permit paid prioritization; can exempt wireless broadband from the protections offered for wireline; nor can it move forward without reclassifying broadband, providing the legal footing required by the courts for implementation.

There is a powerful public mandate from organizations and everyday people reflecting all America's diversity of race, class, and political opinion who want meaningful, enforceable net neutrality protections.

Thank you for everything you've done to keep the Internet open and free. Please do what's right one more time, and vote no Chairman Genachowski's proposal at the FCC meeting on December 21.

Sincerely,

Carol Sue Humphrey

Dear Commissioner Copps,

No one at the FCC has been a bigger champion for real net neutrality than you. When the time comes for a vote on Chairman Genachowski's fake net neutrality plan, your vote will be the deciding one.

Be a hero for the Internet. Vote no on Chairman Genachowski's fake net neutrality plan.

No acceptable proposal can permit paid prioritization; can exempt wireless broadband from the protections offered for wireline; nor can it move forward without reclassifying broadband, providing the legal footing required by the courts for implementation.

There is a powerful public mandate from organizations and everyday people reflecting all America's diversity of race, class, and political opinion who want meaningful, enforceable net neutrality protections.

Thank you for everything you've done to keep the Internet open and free. Please do what's right one more time, and vote no Chairman Genachowski's proposal at the FCC meeting on December 21.

Sincerely,

Dear Commissioner Copps,

No one at the FCC has been a bigger champion for real net neutrality than you. When the time comes for a vote on Chairman Genachowski's fake net neutrality plan, your vote will be the deciding one.

Be a hero for the Internet. Vote no on Chairman Genachowski's fake net neutrality plan.

No acceptable proposal can permit paid prioritization; can exempt wireless broadband from the protections offered for wireline; nor can it move forward without reclassifying broadband, providing the legal footing required by the courts for implementation.

There is a powerful public mandate from organizations and everyday people reflecting all America's diversity of race, class, and political opinion who want meaningful, enforceable net neutrality protections.

Thank you for everything you've done to keep the Internet open and free. Please do what's right one more time, and vote no Chairman Genachowski's proposal at the FCC meeting on December 21.

Sincerely,

Louise Tallarico

The internet is such a valuable resource to everyone who uses it and it needs to remain open in order to move forward and progress as a human race. We've come so far in such a short amount of time and we can't afford to have corporations step in and put a halt to our progress.

Dear Commissioner Copps,

In your position at the FCC, you have the ability to determine the future of the Internet. Net neutrality must mean the Internet is open and equally accessible for all. We cannot depend on profit-driven big corporations to regulate the Internet or decide which sites respond fastest. Chairman Genachowski's net neutrality plan doesn't really protect the Internet, it gives big corporations too much authority to do as they see fit.

Please protect the Internet and vote no on Chairman Genachowski's fake net neutrality plan.

Dear Commissioner Copps,

Please don't capitulate to these corporate interests; we (the middle and lower classes) are all paying too much for everything already. The cost of living has gone up and freedom has gone down while we are making less than before. PLEASE DON'T KOWTOW TO THESE CORPORATE PEOPLE, THEY DON'T DESERVE IT--THEY ALREADY HAVE ENOUGH.

No one at the FCC has been a bigger champion for real net neutrality than you. When the time comes for a vote on Chairman Genachowski's fake net neutrality plan, your vote will be the deciding one.

Be a hero for the Internet. Vote no on Chairman Genachowski's fake net neutrality plan.

No acceptable proposal can permit paid prioritization; can exempt wireless broadband from the protections offered for wireline; nor can it move forward without reclassifying broadband, providing the legal footing required by the courts for implementation.

There is a powerful public mandate from organizations and everyday people reflecting all America's diversity of race, class, and political opinion who want meaningful, enforceable net neutrality protections.

Thank you for everything you've done to keep the Internet open and free. Please do what's right one more time, and vote no Chairman Genachowski's proposal at the FCC meeting on December 21.

Sincerely,

Dear Commissioner Copps,

No one at the FCC has been a bigger champion for real net neutrality than you. When the time comes for a vote on Chairman Genachowski's fake net neutrality plan, your vote will be the deciding one.

Be a hero for the Internet. Vote no on Chairman Genachowski's fake net neutrality plan.

No acceptable proposal can permit paid prioritization; can exempt wireless broadband from the protections offered for wireline; nor can it move forward without reclassifying broadband, providing the legal footing required by the courts for implementation.

There is a powerful public mandate from organizations and everyday people reflecting all America's diversity of race, class, and political opinion who want meaningful, enforceable net neutrality protections.

Thank you for everything you've done to keep the Internet open and free. Please do what's right one more time, and vote no Chairman Genachowski's proposal at the FCC meeting on December 21.

Sincerely,

Dear Commissioner Copps,

No one at the FCC has been a bigger champion for real net neutrality than you. When the time comes for a vote on Chairman Genachowski's fake net neutrality plan, your vote will be the deciding one.

Be a hero for the Internet. Vote no on Chairman Genachowski's fake net neutrality plan.

No acceptable proposal can permit paid prioritization; can exempt wireless broadband from the protections offered for wireline; nor can it move forward without reclassifying broadband, providing the legal footing required by the courts for implementation.

There is a powerful public mandate from organizations and everyday people reflecting all America's diversity of race, class, and political opinion who want meaningful, enforceable net neutrality protections.

Thank you for everything you've done to keep the Internet open and free. Please do what's right one more time, and vote no Chairman Genachowski's proposal at the FCC meeting on December 21.

Sincerely,

Jennifer Kaiser

Please DO NOT let our Internet fall to the same indiscretions allowed by the so called digitalization of our once free television air waves, So called free speech in the T.V.medium now costs us FREE citizens, on average $40.00 a month thats a lot of money to some of us and internet is too expensive as it is, another $40.00 a month
Why should it cost nearly $100.00 a month just to stay informed This is Big corporate perversion at best, and will surly pollute the internet worse than it already is,
Why does Washington allow lobbyist in their doors in the first place?
THIS GOVERNMENT IS TO BE BY THE PEOPLE, FOR THE PEOPLE,
Corporations are NOT people, and they should be made to bear the brunt of the social needs of the people that they owe their very existence to.
STOP this madness and dollar driven elitism,
It will surly be the demise of our great country,

Dear Commissioner Copps,

No one at the FCC has been a bigger champion for real net neutrality than you. When the time comes for a vote on Chairman Genachowski's fake net neutrality plan, your vote will be the deciding one.

Be a hero for the Internet. Vote no on Chairman Genachowski's fake net neutrality plan.

No acceptable proposal can permit paid prioritization; can exempt wireless broadband from the protections offered for wireline; nor can it move forward without reclassifying broadband, providing the legal footing required by the courts for implementation.

There is a powerful public mandate from organizations and everyday people reflecting all America's diversity of race, class, and political opinion who want meaningful, enforceable net neutrality protections.

Thank you for everything you've done to keep the Internet open and free. Please do what's right one more time, and vote no Chairman Genachowski's proposal at the FCC meeting on December 21.

Sincerely,

Maria Gloria Gomez

Dear Commissioner Copps,

No one at the FCC has been a bigger champion for real net neutrality than you. When the time comes for a vote on Chairman Genachowski's fake net neutrality plan, your vote will be the deciding one.

Be a hero for the Internet. Vote no on Chairman Genachowski's fake net neutrality plan.

No acceptable proposal can permit paid prioritization; can exempt wireless broadband from the protections offered for wireline; nor can it move forward without reclassifying broadband, providing the legal footing required by the courts for implementation.

There is a powerful public mandate from organizations and everyday people reflecting all America's diversity of race, class, and political opinion who want meaningful, enforceable net neutrality protections.

Thank you for everything you've done to keep the Internet open and free. Please do what's right one more time, and vote no Chairman Genachowski's proposal at the FCC meeting on December 21.

Sincerely,

Robin Holzberg

Dear Commissioner Copps,

No one at the FCC has been a bigger champion for real net neutrality than you. When the time comes for a vote on Chairman Genachowski's fake net neutrality plan, your vote will be the deciding one.

Be a hero for the Internet. Vote no on Chairman Genachowski's fake net neutrality plan.

No acceptable proposal can permit paid prioritization; can exempt wireless broadband from the protections offered for wireline; nor can it move forward without reclassifying broadband, providing the legal footing required by the courts for implementation.

There is a powerful public mandate from organizations and everyday people reflecting all America's diversity of race, class, and political opinion who want meaningful, enforceable net neutrality protections.

Thank you for everything you've done to keep the Internet open and free. Please do what's right one more time, and vote no Chairman Genachowski's proposal at the FCC meeting on December 21.

Sincerely,

Dear Commissioner Copps,

No one at the FCC has been a bigger champion for real net neutrality than you. When the time comes for a vote on Chairman Genachowski's fake net neutrality plan, your vote will be the deciding one.

Be a hero for the Internet. Vote no on Chairman Genachowski's fake net neutrality plan.

No acceptable proposal can permit paid prioritization; can exempt wireless broadband from the protections offered for wireline; nor can it move forward without reclassifying broadband, providing the legal footing required by the courts for implementation.

There is a powerful public mandate from organizations and everyday people reflecting all America's diversity of race, class, and political opinion who want meaningful, enforceable net neutrality protections.

Thank you for everything you've done to keep the Internet open and free. Please do what's right one more time, and vote no Chairman Genachowski's proposal at the FCC meeting on December 21.

Sincerely,

Every day there are more attacks by corporations and the telecom industry to take away the rights of the American people. Whether it is true net neutrality or the environmental protections, etc. they are all under attack. Please put a stop to this fake net neutrality position of Chairman Genachowski.

Dear Commissioner Copps,

No one at the FCC has been a bigger champion for real net neutrality than you. When the time comes for a vote on Chairman Genachowski's fake net neutrality plan, your vote will be the deciding one.

Be a hero for the Internet. Vote no on Chairman Genachowski's fake net neutrality plan.

No acceptable proposal can permit paid prioritization; can exempt wireless broadband from the protections offered for wireline; nor can it move forward without reclassifying broadband, providing the legal footing required by the courts for implementation.

There is a powerful public mandate from organizations and everyday people reflecting all America's diversity of race, class, and political opinion who want meaningful, enforceable net neutrality protections.

Thank you for everything you've done to keep the Internet open and free. Please do what's right one more time, and vote no Chairman Genachowski's proposal at the FCC meeting on December 21.

Sincerely,

Be a hero for the Internet. Vote no on Chairman Genachowski's fake net neutrality plan.

I think this is the most important issue facing the communications industry. Our entire e-economy has grown up around a neutral net. Changing the rules now to placate service providers could be disastrous, especially in a weak economy.

As a small ISP owner/operator which has to compete with the government sponsored REA attached ISP's in rural communities it has become increasingly apparent the FCC is not interested in low cost broadband for rural communities but is more interested in feeding money to their good old boy network in the Dept. Of Ag and the REA. I have to pay dearly for substandard bandwidth in SE Arizona because the FCC will not enforce the 96/97 telecom act requiring bandwidth carriers (like Cox and Qwest communications) to provide bandwidth to competing entities in and effort to hold down consumer costs. Now I also have to compete with a government sponsored ISP Trans America Transmission Co which essentially gets free bandwidth from the government compared to my costs for the same commodity. That is a violation of restraint of trade LAWS etc., etc., etc... and eventually will drive the cost up so high the very people it was meant to server will no longer be able to afford it. The difference between my monthly rate and the government provided entities rate is still more than 50% and they have more than 60% less cost. That is the hostage taking the lack of enforcement of FTC and FCC regulations has and continues to create in the Southwest and other portions of rural america. I know, yadah yadah yadah. I'm just wasting some more of my precious time telling you something you already know and support or it wouldn't exist. Remember, Karma is unforgiving!
No one at the FCC has been a bigger champion for real net neutrality than you. When the time comes for a vote on Chairman Genachowski's fake net neutrality plan, your vote will be the deciding one.

Be a hero for the Internet. Vote no on Chairman Genachowski's fake net neutrality plan.

No acceptable proposal can permit paid prioritization; can exempt wireless broadband from the protections offered for wireline; nor can it move forward without reclassifying broadband, providing the legal footing required by the courts for implementation.

There is a powerful public mandate from organizations and everyday people reflecting all America's diversity of race, class, and political opinion who want meaningful, enforceable net neutrality protections.

Thank you for everything you've done to keep the Internet open and free. Please do what's right one more time, and vote no Chairman Genachowski's proposal at the FCC meeting on December 21.

Dear Commissioner Copps,

No one at the FCC has been a bigger champion for real net neutrality than you. When the time comes for a vote on Chairman Genachowski's fake net neutrality plan, your vote will be the deciding one.

Be a hero for the Internet. Vote no on Chairman Genachowski's fake net neutrality plan.

No acceptable proposal can permit paid prioritization; can exempt wireless broadband from the protections offered for wireline; nor can it move forward without reclassifying broadband, providing the legal footing required by the courts for implementation.

There is a powerful public mandate from organizations and everyday people reflecting all America's diversity of race, class, and political opinion who want meaningful, enforceable net neutrality protections.

Thank you for everything you've done to keep the Internet open and free. Please do what's right one more time, and vote no Chairman Genachowski's proposal at the FCC meeting on December 21.

Sincerely,

Dear Commissioner Copps,

I am a digital effects artist who grew up along side the internet. I recall AOL circa 1995 when I decided to try the service. AOL had a front end that acted as a soft barrier to non-AOL controlled web sites and services. The more geeky usually either dropped their service, or if without an alternative found ways around the buggy, annoying and banal front end. The less geeky frequently thought AOL was the entirety of the internet. AOL controlled the majority of the content their users saw. After a while, word got around to most people and the service failed against market forces. The internet is the untimate vehicle of freedom and people want to use and read whatever serivices and content they like. It is my firm belief the ultimate goal of the largest internet power players is to turn the internet into television and protect their position of power from compatition.

The internet was largely developed on the back of our taxes. birthed at DARPA, developed by universities and first put to modern-day use by government organizations and small buisnesses and individuals. The majority of the software the internet runs on is open source software. Please don't hand the greatest communications medium ever conceived to these greedy and fearful corporations. The internet has always stood for freedom. Please keep it this way.

I hope I can count on you to vote NO on Chairman Genachowski's net neutrality proposal, which will not result in the true net neutrality which this country needs.

1) Wireless broadband must not be exempted from protections.
2) Broadband must be reclassified.
3) Paid prioritization is absolutely unacceptable.

I believe that corporate control of communication and media has already severely damaged our democracy. We are in desperate need of fairness for the American people. You can help by doing the right thing and voting against Chairman Genachowski's proposal.

Dear Commissioner Copps,

No one at the FCC has been a bigger champion for real net neutrality than you. When the time comes for a vote on Chairman Genachowski's fake net neutrality plan, your vote will be the deciding one.

Be a hero for the Internet. Vote no on Chairman Genachowski's fake net neutrality plan.

No acceptable proposal can permit paid prioritization; can exempt wireless broadband from the protections offered for wireline; nor can it move forward without reclassifying broadband, providing the legal footing required by the courts for implementation.

There is a powerful public mandate from organizations and everyday people reflecting all America's diversity of race, class, and political opinion who want meaningful, enforceable net neutrality protections.

Thank you for everything you've done to keep the Internet open and free. Please do what's right one more time, and vote no Chairman Genachowski's proposal at the FCC meeting on December 21.

Be a hero for the Internet. Vote no on Chairman Genachowski's fake net neutrality plan.

No acceptable proposal can permit paid prioritization; can exempt wireless broadband from the protections offered for wireline; nor can it move forward without reclassifying broadband, providing the legal footing required by the courts for implementation.

There is a powerful public mandate from organizations and everyday people reflecting all America's diversity of race, class, and political opinion who want meaningful, enforceable net neutrality protections.

Thank you for everything you've done to keep the Internet open and free. Please do what's right one more time, and vote no Chairman Genachowski's proposal at the FCC meeting on December 21.

Sincerely,

Dear Commissioner Copps,

Please step up to the plate and defend internet freedom: vote NO on Chairman Genachowski's "fake" net neutrality plan.

No acceptable proposal can permit paid prioritization. Period. You and I both know this to be true.

Once the slightest corporate toe-hold is established in this arena, our country is only a few free-market steps away from China-style censorship and control of the internet.

Thank you for everything you've done to keep the Internet open and free. Please stay the course and vote no Chairman Genachowski's dangerous proposal at the FCC meeting on December 21.

Thank you in advance for your voice, which as you probably already know represents the vast majority of American people.

Sincerely,

Dear Commissioner Copps,

I've appreciated your efforts to insure net neutrality and I hope you will continue that support by voting against Chairman Genachowski's net neutrality plan, which will not provide true neutrality.

I have published articles, given speeches and written a book in support of net neutrality and the concept that no corporation should be able to control content on the Internet, as well as control the conduit..

For true net neutrality, the proposal should not permit paid prioritization; exempt wireless broadband from the protections offered for wireline. It should not proceed without reclassifying broadband, providing the legal footing required by the courts for implementation.

Diversity is needed, not gatekeeping by powerful corporations.

I urge you tovote no on Chairman Genachowski's proposal at the FCC meeting Dec. 21.

Dear Commissioner Copps,

The internet must not be controlled by Corporations. There would have been no Google, Facebook, YouTube, Yahoo (to just name a few) if the internet was not free and Chairman Genachoski's plan will make internet NOT free.

Please stop this. You are our only hope now.

No one at the FCC has been a bigger champion for real net neutrality than you. When the time comes for a vote on Chairman Genachowski's fake net neutrality plan, your vote will be the deciding one.

Be a hero for the Internet. Vote no on Chairman Genachowski's fake net neutrality plan.

No acceptable proposal can permit paid prioritization; can exempt wireless broadband from the protections offered for wireline; nor can it move forward without reclassifying broadband, providing the legal footing required by the courts for implementation.

There is a powerful public mandate from organizations and everyday people reflecting all America's diversity of race, class, and political opinion who want meaningful, enforceable net neutrality protections.

Thank you for everything you've done to keep the Internet open and free. Please do what's right one more time, and vote no Chairman Genachowski's proposal at the FCC meeting on December 21.

Sincerely,

Sanjiv Manifest

No one at the FCC has been a bigger champion for real net neutrality than you. When the time comes for a vote on Chairman Genachowski's fake net neutrality plan, your vote will be the deciding one.

Be a hero for the Internet. Vote no on Chairman Genachowski's fake net neutrality plan.

No acceptable proposal can permit paid prioritization; can exempt wireless broadband from the protections offered for wireline; nor can it move forward without reclassifying broadband, providing the legal footing required by the courts for implementation.

There is a powerful public mandate from organizations and everyday people reflecting all America's diversity of race, class, and political opinion who want meaningful, enforceable net neutrality protections.

Thank you for everything you've done to keep the Internet open and free. Please do what's right one more time, and vote no Chairman Genachowski's proposal at the FCC meeting on December 21.

Sincerely,

Dear Commissioner Copps,

Anyone and everyone in the know realizes that you've been the strongest, most consistent proponent of real Net neutrality on the FCC, ever since the Obama Administration came into office.

That's why those of us in the general public, and those of us who care for the genuine public interest, are counting on you to vote "NO" on Chairman Genachowski's watered-down psuedo Net neutrality proposal - which really amounts to a tremendous giveaway to the giant telecoms and ISPs - not real Net neutrality in any meaningful sense.

We simply can't accept any new rules or regulations that will permit paid prioritization; will exempt wireless broadband from the protections offered for wireline; nor should the FCC proceed without reclassifying broadband, providing the legal footing required by the courts for implementation. Just as importantly, new rules must have clear, inexpensive, and rapid procedures, and meaningful penalties, so that innovators and citizens can effectively seek redress and legal clarity.

Dear Commissioner Copps,

No one at the FCC has been a bigger champion for real net neutrality than you. When the time comes for a vote on Chairman Genachowski's fake net neutrality plan, your vote will be the deciding one.

Be a hero for the Internet. Vote no on Chairman Genachowski's fake net neutrality plan.

No acceptable proposal can permit paid prioritization; can exempt wireless broadband from the protections offered for wireline; nor can it move forward without reclassifying broadband, providing the legal footing required by the courts for implementation.

There is a powerful public mandate from organizations and everyday people reflecting all America's diversity of race, class, and political opinion who want meaningful, enforceable net neutrality protections.

Thank you for everything you've done to keep the Internet open and free. Please do what's right one more time, and vote no Chairman Genachowski's proposal at the FCC meeting on December 21.

Sincerely,

Dear Commissioner Copps,

No one at the FCC has been a bigger champion for real net neutrality than you. When the time comes for a vote on Chairman Genachowski's fake net neutrality plan, your vote will be the deciding one.

Be a hero for the Internet. Vote no on Chairman Genachowski's fake net neutrality plan.

No acceptable proposal can permit paid prioritization; can exempt wireless broadband from the protections offered for wireline; nor can it move forward without reclassifying broadband, providing the legal footing required by the courts for implementation.

There is a powerful public mandate from organizations and everyday people reflecting all America's diversity of race, class, and political opinion who want meaningful, enforceable net neutrality protections.

Thank you for everything you've done to keep the Internet open and free. Please do what's right one more time, and vote no Chairman Genachowski's proposal at the FCC meeting on December 21.

Sincerely,

Dear Commissioner Copps,

No one at the FCC has been a bigger champion for real net neutrality than you. When the time comes for a vote on Chairman Genachowski's fake net neutrality plan, your vote will be the deciding one.

Be a hero for the Internet. Vote no on Chairman Genachowski's fake net neutrality plan.

No acceptable proposal can permit paid prioritization; can exempt wireless broadband from the protections offered for wireline; nor can it move forward without reclassifying broadband, providing the legal footing required by the courts for implementation.

There is a powerful public mandate from organizations and everyday people reflecting all America's diversity of race, class, and political opinion who want meaningful, enforceable net neutrality protections.

Thank you for everything you've done to keep the Internet open and free. Please do what's right one more time, and vote no Chairman Genachowski's proposal at the FCC meeting on December 21.

Sincerely,

Dear Commissioner Copps,

When an American citizen purchases internet services, he or she believes that they are gaining access to all the information on the internet, free of editing or prioritization. The practical result of paid prioritization will in effect control the content that is available to the average internet subscriber. This is tantamount to private, corporate control of speech and information. In newspapers and magazines, the corporate or political influences of the publication are known to subscribers, and readers have a choice of many different sources of information. People only subscribe to one internet provider, and the advertisers--possibly with varying political and social agendas, will be unknown to the subscriber. THIS IS NOT NEUTRALITY!

No one at the FCC has been a bigger champion for real net neutrality than you. When the time comes for a vote on Chairman Genachowski's fake net neutrality plan, your vote will be the deciding one.

Be a hero for the Internet. Vote no on Chairman Genachowski's fake net neutrality plan.

No acceptable proposal can permit paid prioritization; can exempt wireless broadband from the protections offered for wireline; nor can it move forward without reclassifying broadband, providing the legal footing required by the courts for implementation.

There is a powerful public mandate from organizations and everyday people reflecting all America's diversity of race, class, and political opinion who want meaningful, enforceable net neutrality protections.

Thank you for everything you've done to keep the Internet open and free. Please do what's right one more time, and vote no Chairman Genachowski's proposal at the FCC meeting on December 21.

Sincerely,

Dear Commissioner Copps,

Thank you for your work to maintain real net neutrality for internet users.

Please be sure to vote NO on Chairman Genachowski's paid-prioritization net neutrality plan.

To be acceptable: NO paid prioritization; wireless broadband providers must abide by the protections offered for wireline; must reclassifying broadband to have the legal footing required by the courts for implementation.

We must put an end to the creeping rent-seeking behavior in every aspect of troubled nation. We can take a step here, with the internet.

No one at the FCC has been a bigger champion for real net neutrality than you. When the time comes for a vote on Chairman Genachowski's fake net neutrality plan, your vote will be crucial.

True net neutrality is vital for the health of the Internet. Dear Commissioner Copps,

This is an extemely important issue that will determine and shape the future of our country. It extends deeply into our economic well-being that many are too short-sighted to see now, but it will become evident in the near-future. The net must be truly neutral and not sold off to the highest bidders. Innovation will stop, communications controlled and our democracy will become only a sham. The fake neutrality plan makes it obvious what will follow.

No one at the FCC has been a bigger champion for real net neutrality than you. When the time comes for a vote on Chairman Genachowski's fake net neutrality plan, your vote will be the deciding one.

No acceptable proposal can permit paid prioritization; can exempt wireless broadband from the protections offered for wireline; nor can it move forward without reclassifying broadband, providing the legal footing required by the courts for implementation.

There is a powerful public mandate from organizations and everyday people reflecting all America's diversity of race, class, and political opinion who want meaningful, enforceable net neutrality protections.

Thank you for everything you've done to keep the Internet open and free. Please do what's right one more time, and vote no Chairman Genachowski's proposal at the FCC meeting on December 21.

I live in an area with limited options for Internet access -- there is no cable provider and DSL is not available either. I am presently stuck with dialup. My only other option is satelite internet, but that has its own problems. I would really hate to be forced into even more limited internet options. Please vote no on the industry-friendly 'fake' net neutrality regulations. The telecom industry does NOT need 'friendly' regulations. The FCC needs to be fair, but tough.

Dear Commissioner Copps,

Over the past two decades corporations have manipulated and pressured our government to give them everything they wanted--even it meant destroying the rights and lives of individual citizens.

This current corporate restrict and "prioritize" the Internet is yet another step--and a very damaging step for free speech and open communication--in their march toward total control.

You have been been a champion for real net neutrality. Small businesses like mine that rely on open access to the internet need you to continue your fight.

I am a Democrat who voted for President Obama in 2008, and I am a supporter of "pure" net neutrality. The Internet is, and should remain, an open medium, not a commercial medium. We do not need any more compromises with Republicans and communications industry lobbyists.

I understand that you too are a strong supporter of real net neutrality. When the time comes for a vote on Chairman Genachowski's impure, inadequate net neutrality plan, your vote will be the deciding one.

Dear Commissioner Copps,

No one at the FCC has been a bigger champion for real net neutrality than you. When the time comes for a vote on Chairman Genachowski's fake net neutrality plan, your vote will be the deciding one.

Be a hero for the Internet. Vote no on Chairman Genachowski's fake net neutrality plan.

No acceptable proposal can permit paid prioritization; can exempt wireless broadband from the protections offered for wireline; nor can it move forward without reclassifying broadband, providing the legal footing required by the courts for implementation.

There is a powerful public mandate from organizations and everyday people reflecting all America's diversity of race, class, and political opinion who want meaningful, enforceable net neutrality protections.

Thank you for everything you've done to keep the Internet open and free. Please do what's right one more time, and vote no Chairman Genachowski's proposal at the FCC meeting on December 21.

Sincerely,

Dear Commissioner Copps,

No one at the FCC has been a bigger champion for real net neutrality than you. When the time comes for a vote on Chairman Genachowski's fake net neutrality plan, your vote will be the deciding one.

Be a hero for the Internet. Vote no on Chairman Genachowski's fake net neutrality plan.

No acceptable proposal can permit paid prioritization; can exempt wireless broadband from the protections offered for wireline; nor can it move forward without reclassifying broadband, providing the legal footing required by the courts for implementation.

There is a powerful public mandate from organizations and everyday people reflecting all America's diversity of race, class, and political opinion who want meaningful, enforceable net neutrality protections.

Thank you for everything you've done to keep the Internet open and free. Please do what's right one more time, and vote no Chairman Genachowski's proposal at the FCC meeting on December 21.

Sincerely,

Katherine Werner

Dear Commissioner Copps,

No one at the FCC has been a bigger champion for real net neutrality than you. When the time comes for a vote on Chairman Genachowski's fake net neutrality plan, your vote will be the deciding one.

Be a hero for the Internet. Vote no on Chairman Genachowski's fake net neutrality plan.

No acceptable proposal can permit paid prioritization; can exempt wireless broadband from the protections offered for wireline; nor can it move forward without reclassifying broadband, providing the legal footing required by the courts for implementation.

There is a powerful public mandate from organizations and everyday people reflecting all America's diversity of race, class, and political opinion who want meaningful, enforceable net neutrality protections.

Thank you for everything you've done to keep the Internet open and free. Please do what's right one more time, and vote no Chairman Genachowski's proposal at the FCC meeting on December 21.

Sincerely,

Karla Guererri

Michael Copps
Commissioner

December 10, 2010

Dear Commissioner Copps,

No one at the FCC has been a bigger champion for real net neutrality than you. When the time comes for a vote on Chairman Genachowski's fake net neutrality plan, your vote will be the deciding one.

Be a hero for the Internet. Vote no on Chairman Genachowski's fake net neutrality plan.

No acceptable proposal can permit paid prioritization; can exempt wireless broadband from the protections offered for wireline; nor can it move forward without reclassifying broadband, providing the legal footing required by the courts for implementation.

There is a powerful public mandate from organizations and everyday people reflecting all America's diversity of race, class, and political opinion who want meaningful, enforceable net neutrality protections.

Thank you for everything you've done to keep the Internet open and free. Please do what's right one more time, and vote no Chairman Genachowski's proposal at the FCC meeting on December 21.

Sincerely,

Joseph Tangney

Dear Commissioner Copps,

THANK YOU! No one at the FCC has been a bigger champion for real net neutrality than you. I can only imagine what kind of pressure you are facing from other commissioners, the administration and the giant industry players. It's a real fight, and you may take some hits, and I want to thank you now for your toughness on my behalf and on behalf of all of us who believe in an open and neutral internet.

Chairman Genachowski's fake net neutrality plan seems to be a cave in to corporate demands: paid prioritization AND wireless broadband exemptions! Neither is net neutrality.

Instead, the commission must reclassify broadband to provide the legal footing required by the courts for implementation of enforceable permanent internet neutrality.

There is a public mandate from organizations and everyday people reflecting all America's diversity of race, class, and political opinion who want meaningful net neutrality protections.

Please vote no Chairman Genachowski's proposal at the FCC meeting on December 21.

Sincerely,
