Dear Commissioners:

Re: AT&T's Proposed Merger of T-Mobile USA Under Review in the 11-65 Docket

I am writing to offer my support for the proposed merger of AT&T with T-Mobile USA.

It is a challenge to operate my business without sufficient access to wireless broadband because it is difficult to market my company online without access to wireless broadband. This is the reason I support the merger.

With the merger of T-Mobile USA assets with AT&T, AT&T would be able to provide a more efficient widespread wireless performance and providing progressive data applications. This would make my business a stronger competitor in the market place because my business would be fully connected. Most importantly, this merger will help keep more than 20,000 T-Mobile employees keep their jobs.

I humbly ask you to please seriously consider this merger. It would help small businesses tremendously in this competitive market place.

With regards,

Vira Jones
