Other Documents: Original Appeal Letter and Backup Information

Summary: When I filed my form 470 in early 2016, I selected "Basic Maintenance of Internal Connections" as opposed to "Internal Connections". Prior to the electronic system we have checked "Basis Maintenance of Internal Connection", unfortunately this was not caught until the review process. Upon review we were told that we checked the wrong box, however, they could not uncheck this box and check the right box. I received notice on 9/2/2016 in regard to this issue. On Sept. 9th, I drafted a letter and responded to USAC indicating the mistake and asking to have this clerical issue resolved. For several months I contact USAC and did not get any resolution, finally I decided to appeal this decision to the FCC as this was the process I was told to follow.
