FCC Commissioner Jonathan ***S.*** Adelstein

Dear FCC Commissioner Jonathan ***S.*** Adelstein,

The FCC must consider the unique needs of children in its upcoming rulemaking on broadcast ownership rules

Children consume almost five and a half hours of media per day. Research has shown that media, particularly television, play a unique and powerful role in children's development.

The FCC should consider how further relaxation of media ownership rules would impact children's programming. Deregulation may reduce competition, increase commercialism and result in less original programming for children.

Before making any regulatory changes to existing media ownership rules, the FCC must consider how children will be affected.

Sincerely,

Susan Shapira

Dear FCC Commissioner Michael J. Copps.

The FCC must consider the unique needs of children in its upcoming rulemaking on broadcast ownership rules

Children consume almost five and a half hours of media per day. Research has shown that media, particularly television, play a unique and powerful role in children's development.

The FCC should consider how further relaxation of media ownership rules would impact children's programming. Deregulation may reduce competition, increase commercialism and result in less original programming for children.

Lack of content standards results in "toxic" and inappropriate programming that is traumatizing our youth. Promiscuity and violence in widely broadcasted commercials and programs is influencing future generations resulting in a de-sensitized and less humane society.

Before making any regulatory changes to existing media ownership rules, the FCC must consider how children will be affected.

Sincerely,

Beverly Odom
