ORDER NO. 3
NOTICE OF APPROVAL FOR DESIGNATION AS AN ELIGIBLE TELECOMMUNICATIONS CARRIER

Procedural History

On September 12, 2012, Global Connections Inc. of America d/b/a Stand Up Wireless (Stand Up or the Applicant) filed with the Public Utility Commission (Commission) an application for designation as an eligible telecommunications carrier (ETC), pursuant to 47 U.S.C. § 214(e) and P.U.C. SUBST. R. 26.418 for the limited purpose of providing Lifeline service to qualifying Texas households. No parties sought intervention in this proceeding.

On September 13, 2012, the Commission issued Order No. 1 in this proceeding, which established a procedural schedule, including deadlines for comment, motions to intervene, and publication of notice in the *Texas Register*. Notice was published in the *Texas Register* on September 28 and a revised notice on October 5, 2012. The Applicant provided a copy of the application to the Office of Public Utility Counsel on September 13, 2012. Pursuant to P.U.C. SUBST. R. 26.418(g)(2)(A)(i), the effective date shall be no earlier than 30 days after the filing date of the application or 30 days after notice is completed, whichever is later.

On September 24, 2012, the Applicant filed a supplement to the application. In the supplement, Applicant clarified the proposed designated service area. Applicant seeks ETC designation for the limited purpose of providing Lifeline Service in certain wire centers of the non-rural ILECs AT&T Texas, Verizon, and Central Telephone of Texas d/b/a CenturyLink, as listed in Exhibit 6 of the application. Order No. 2 issued on September 25, 2012, revised the

procedural schedule to accommodate re-publication of *Texas Register* notice required by the supplement to the application.

On October 31, 2012, Commission Staff filed its final recommendation requesting administrative approval of the application for ETC status for the Applicant based on the following:

Designation as Eligible Telecommunications Carrier (ETC)

To qualify for ETC status, a carrier must meet the following criteria:[1]

1. The carrier must be a common carrier, as that term is defined by the Federal Telecommunications Act of 1996 (FTA), Section 3(10).

2. The carrier must offer the following voice telephony services[2] using its own facilities or a combination of its own facilities and the resale of another carrier's services:[3]
   (a) voice grade access to the public switched network or its functional equivalent;
   (b) minutes of use for local service provided at no additional charge to end users;
   (c) access to the emergency services provided by local government or other public safety organizations, such as 911 and enhanced 911, to the extent the local government in an eligible carrier's service area has implemented 911 or enhanced 911 systems; and
   (d) toll limitation for qualifying low income customers.

3. The carrier must advertise the availability of the above services and charges for the services in a media of general distribution.[4]

4. The carrier must provide Lifeline and Link Up support, and may not collect a deposit from a customer receiving such support if the customer also elects toll blocking.[5]

The Applicant meets all of the requirements to be designated as an ETC. In addition, the Applicant commits to meeting all of the additional ETC requirements as listed in 47 C.F.R.

[1] 47 C.F.R. § 54.201(b)-(d).

[2] 47 C.F.R. § 54.101.
