WC Docket No. 12-344

Application of Affordable Phone Ser. Inc Sat.
reference to the § 63.71 October 13, 2012

To Whom This May Concern,

I and my spouse are on Social Security and we are barely makeing it. We are both in bad Health and need our phone. We can not afford any other phone company. Affordable Phone Company has made our lives a little easier by offering phone service that we can afford given that we are on limited income. We are on Section 8 and medicare, medicade, food stamps (Snap). We live in a rural setting. Again if something where to happen to one or both of us how would we be able to call for help with out a phone we would surely parish. Please, help us keep our phone service?!

Thank You For Understanding,
