Subject: CC Docket no. 96-128 ("Wright Petition")

To: Honorable Marlene H. Dortch
Secretary, Federal Communication Commission

I am writing this letter to adress the Commission of Federal Communication violation and to see if my here we can get any justice.

First I would like a copy of the wright of Petition if that is at all possible.

Second this facility Brevard County Jail Florida phone system is not right. Global Tele. The phones cut you of after about two or three minute talking. They are charge per family. Then they deduct money even if you don't call. For example. My brother put 50.00 on his phone so I could call. I called him twice and now there is on $10.23 on his phone →

thats all most $20.00 a call in State and the phone is on 15 minute time so it cuts you off in 15 minute if you get to talk that long. Then my son call Global T.C.K. To complain about $25.00 they over charged him and never they refuse to let him add long more money because he called and complain about them over charging his credit card for money. Thats not call what the phone system does here.

I have wrote several inmate grievances and never have received and answer back about anything from anybody. I have enclose a copy of my inmate grievance. "Please" return it if possible.

I would like to know are what can I do about this and could the Commission please investigate this my son number is 239-699-2992 my brother number is 352-494-6442 if you would like to speak with them feel free to call Any help in the matter please would be greatly appreciated. Because

my love one are the one I can't stay in touch with

Respectfully
