To Federal Communication Commission,

I personally was greatly enthused about the conference calling, especially made available by the Amish and Mennonite Conference line. It has fostered longevity and education to our Anabaptist community. Especially the Pennsylvania German dialect. To my estimation if ~~free~~ <sup>estimated free conference</sup> calling is discontinued it will hasten the death of the language. You may want to read some of my comments in a book I just published recently entitled: German Language, Cradle of our Heritage - Struggles with Language Change Among Mennonites.

Sincerely yours,
