Subject: (High cost of prisones phone call)

This issue deals with problem and cencerns since the State doesn't pay prisoner enough money to purchase cosmetics, clothing, shoes, and food ect... for instance the average monthly salaries for porters, yard crew workers and other inslitutional Jobs are roughly $25.00 per month. Where as the price to make a phone call is about $3.00 per call, this is 12% of the wages prisones earn monthly. Its very important that we have contact with our love ones to keep that family contact in tack because some of us will return into Society and will need our wives, mothers father, children Ect... for support and housing until were able to do for ourselves. Most corrections office support our quest for lower phone call rate as this not only help prisones it help them also as it makes their Jobs that much tolerable.

I would be greateful if you could make it whereas phone rate could be as lower as last year at this time Rate were $1.50 that rate was bearable at our current pay rate.

I Thank you in advance for your time in considering this matter.

Thank you.

To: Whom this may concern. F.C.C

I am writing to let you know that after years of being incarcerated in and out of prison systems in Illinios my family has been put through alot of pain and suffering due to the telephone systems. Contacts have been blocked for no-reason members of my family have been over charged. I feel that something should be done in relief to comfort my pain and suffering over the course of my incarcerations. Thank you!
