To Whom It May Concern:

Can't The United States Supreme Court, for decency's sake, tell the difference between to <u>censure</u> and to <u>censor</u>? The Saudi Arabians can tell pornography at a glance, but The Federal Communications Commission hasn't the gumption to make a decision as to what is right and what is wrong!

It was God who set the moral standards for goodness found in The Holy Bible. Ephesians 4:32 (KJV), "And be ye kind one to another, tender-hearted, forgiving one another, even as God for Christ's sake hath forgiven you." That is what our children and our nation needs to learn, because kindness is the basis of Christianity.

I challenge The United States Supreme Court to approve new laws with regard to morality by starting with The United States Postal Service that delivers pornography. It is filthy and degrading!

Attn: Ms Marlene Dortch:

The FCC announced they are dropping current broadcast decency standards that ban explicit profanity and "non-sexual" nudity.

Let me guess why!

We don't have enough sexual abuse in the military?

We don't have enough unmarried mothers and fathers?
