Just as advertising leads to action, indecent TV leads to action — wrong actions. What a greater country this would be if TV promoted decency, responsibility, and honesty.

A Special Note...

Some of the things on prime-time broadcast TV is revolting, sickening, and abusive (e.g, Family Guy, American Dad)

Live up to enforcing decency standards that the public want. All great societies in history have crumbled when they lost their morals — help stop that from happening to the US.
