FCC Mail Room

It is outrageous that citizens have to mount a petition effort to persuade FCC to oppose ALL indecent content on OUR airwaves. That is your job. If you love our country and it's children you would gladly enforce such laws.

This is absolutely outrages. TV is leading our country right into the gutter. I object to have to pay for these shows on TV. What is this country coming to? I'm no prude but some of this stuff turns your stomach. Thank God for sports and game shows. Maybe you ought to talk more about the 10 Commandments + not sex sex sex
