Dear Chairman Genachowski, this is a public commer for the wright petition (cc docket #96-128). I'm writing you from Kane County Jail on behalf of all the inmates. We all have to struggle with the expensive phone system here. This is a sincere request to you, who is in a position of power, to help us and most importantly our families with the burden of our phone calls.

Most of us are of low class or lower-middle class families. We bearly get anymoney, the money we do get has to go to phone costs. So we often get left without any food. The phone systems here charge fifty cents a minute and the food is very expensive as well. It feels bad enough that we left our families to support them selves but it feels even worser knowing they are struggling to find extra work to be able to communicate with us.

Please sir, help lower our phone costs here at the Kane County Adult Justice Center. We understand a man in your position has a very busy and demanding job. So we truly appreciate any time you could take to ease this frustration we are going through. Thank you very much.

with all sincerity,

Andres Quiñones
and the inmates of
Kane County Adult Justice Center.
