We say NO to FCC Plan! This is in reference to towers in Adirondack Park.

We do need cell towers in Adirondacks but not ugly towers. They should be as invisible as possible and have regulations so as not to damage the beauty of Adirondacks.

How would the people like it if we put large windmills in there backyards of their vacation homes + homes.

P.S. Thank you.

We live in Florance N.Y. but camp in Adirondacks all summer with our grandchildren.

Trudy Breheny
