Dear Chairman Genachowski, 2/11/2014

Hello, my name is Leticia Zepeda. I'am a inmate at the Central California Womens Facility. I'm writting in hopes that my voice will be taken into consideration in regards to the steep prices of our phone calls.

I believe the lines of communication between women and their children, women and their fathers &or mothers are priceless.

Being that I currently don't have a release date it is vital for me to maintain a bond with my family and congecal visits are not allowed. Sometimes a phone call is what has held us together.

The sound of my Grandmother's voice is a blessing being that she can no longer write. Having to have my family pay for those phone calls is heart braking especially when she is on a fixed income.

Please consider lowering the prices of our phonecalls. It is our families that pay the high price of our senseless mistakes.

Thank you for your time and consideration.

Most Sincerely,

Zepeda
