Dear Mr Walker,

I write you this letter, pleading to you, urging you to not give up our net neutrality for corporate gain and domination over the people, our online rights, and the internet!

These new rules your preparing will potentially cause uproar from not just supporters of the internet, but the people and internet companies will mark you a betrayer like the US Government, the Obama Administration, and President Obama himself. Plus the damage your making will be high, possibly too high for anyone to handle.

Now you'll really have to ask yourself, "Why would I allow Comcast, Time Warner Cable, and others alike to make rating change on internet users and their consumers, knowing that have too much power and control over us?" "Why risk our safety and the safety of internet businesses and corporations, based on how desperate these Internet Service →

Providers are, wanting SOPA like regulation, and how they're potentially becoming greedy to take our rights away and knuckle down our internet?"

AT&T, Verizon and others doesn't care about us, and Obama is just leaving all this horrible mess behind, unchecked, unorganized, and reckless, for us to deal with as the try to cut us all down, without warning.

So please good sir, Please! Don't allow all this harm on us all, Internet users, Internet businesses, Internet activists, consumers and others alike. Please stop these new rules and don't allow ISP's to bully us all for their amusement, control, and greed. Stop the new rules and vote for Net Neutrality, say "Yes" for equal and fair internet rights, safety, and services!! Please Mr. Wheeler, Please!

Thank you for reading and please ~~ego~~ support for us and internet users.
