Find Calls Made From Cell Phone Number

Find all calls local, and long distance made from a cell phone number.

Locate all numbers called from a cell phone number including local, and long distance.

This service is a very handy way to find out who someone is calling, and talking to. This will show by default a months worth of calls, long distance, local calls, with duration of call (Time on the phone call), times, and dates with each record. Most company's only include a few calls per week, and do not include dates, times, and durations. This is all included in this toll call search or cell phone activity.

You simply provide us with a cell phone number and we will show you who the owner of that cell phone called for 30 days. This will include local, and long distance calls made for a period of 4 weeks. if you do not have the cell phone number please run a cell phone trace first to obtain the cell phone number so you can then locate the calls made. You can find a cell phone number by name, and address, or find a cell phone number by social security number. You may also need to find a cell phone number using a name, and city to search with.

We use special databases, and resources that only detectives, government agencies, and law enforcement have access to and with this special access we will locate the cell phone record and provide you with all telephone calls that was made from the owners cell phone number.

Please see our **Telephone Directory** services - *unlisted telephone lookup, cell phone lookup, pager trace, find owner of a fax number, unlisted telephone numbers, and other services to the right if you are looking for another type of telephone trace or service that better fits your needs.*

Facts about this telephone lookup:
