Complaint:
of Abuse:

June 21st 2014

This letter comes to the Administrative Office to the F.C.C.

The FCC is demanded to ban the use and misuse of the word Nigger "Nigga" from all channels including radio and music and music video enterpainment.

This Complaint also expends into the free world use by rap artists from all avenues in regards to women as having fucked and bitches.

Thank You!

Because the F.C.C. allowed or granted such inappropriate misconduct, it is nearly impossible to purchase items from stores or even ride public transportation without hearing young members using the N-word.

Kids found that rap artists are who they look up to as public guides and because of F.C.C failure, the public damage is currently in circulation. It is not OK for no race to misuse the N-word and no other nationalities use it more than young black males and Latino males.

Thank You!

Respectfully Yours
