To Whom It may Concern,

I'm writing to oppose any changes to the 1996 Telecommunications Act that would favor allowing broadband providers to charge for access to their network. All information on the internet should be treated equally. Verizon should not be allowed to charge Netflix more to have premium access. This is inherently unfair and violates all the basic tenets of the internet.

I oppose any reconsideration to the 1996 telecommunications act.

Thank You.

Christine
